Study: Indiana Ranks in Health Care Startup Investment

InsideIndianaBusiness.com Report

1/22/2007 3:39:57 PM

A study conducted by BioEnterprise shows that Indiana ranked in the top ten for venture investment for Midwest health care startups in 2006. The report shows that last year Indiana attracted \$37.2 million for eight startups. Minnesota topped the list with 22 startups attracting \$233.9 million in investment. The study shows that overall, the Midwest states attracted 25 percent more investment than in 2005.
