

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Pavmed (PAVM)	14-Mar-2016	New York, NY	Operator of a medical device company featuring products with regulatory pathways and market opportunities in cardiovascular care, tissue ablation, medical infusions, hand surgery and laparoscopic surgery.	6.00	CRT Capital Group LLC
Syndax (SNDX)	03-Mar-2016	Waltham, MA	Developer of treatments for metastatic breast and lung cancer. The company focuses on a histone deacetylase inhibitor for solid tumors and hematological tumors.	52.80	Morgan Stanley, Citi
HealthCare Global Enterprises (HCG)	30-Mar-2016	Bengaluru, India	Provider of oncology care services. The company offers cancer care, diagnostics, imaging, research and clinical trials services.	95.80	Kotak Investment Banking, Edelweiss, Goldman Sachs, Yes Bank, Karvy Computershare, IDFC Securities, IIFL Holdings
Corvus Pharmaceuticals (CRVS)	23-Mar-2016	Burlingame, CA	Developer of cancer therapies utilizing immunology platforms. The company focuses on the development of novel agents designed to block immune checkpoints and/or reprogram the immune system to fight cancer cells.	70.50	Guggenheim Securities

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
BerGenBio	18-Mar-2016	Bergen, Norway	Later Stage VC	Developer of therapeutics for cancers. The company focuses its therapy development on epithelial-mesenchymal transition (EMT) biology and offers therapeutic services for cancer drug-resistance and metastasis.	24.64	Investinor, Meteva
RightEye	17-Mar-2016	Bethesda, MD	Angel	The company develops a technology which tracks eye movement to measure visual skills and provide health information.	2.11	Todd Taskey
Provista Diagnostics	17-Mar-2016	New York, NY	Later Stage VC	Provider of oncology-based diagnostic tests and clinical laboratory services to the pharmaceutical and biotechnology industries such as blood-based diagnostic tests for early oncology-related disease state recognition and detection.	11.15	Golden Seeds, Individual Investor
Potenza Therapeutics	17-Mar-2016	Cambridge, MA	Early Stage VC	The company is developing a portfolio of immuno-oncology therapeutics to treat patients with cancer, built upon biological insights by which cancer cells evade detection and destruction by the immune system.	30.00	Interwest Partners, MPM Capital
Pieces Technologies	17-Mar-2016	Dallas, TX	Early Stage VC	Developer of healthcare technology systems. The company designs and builds a software that can interpret patient data history in real-time to assist healthcare providers with decision making.	21.60	Pacific Advantage Capital (PAC Partners), Jump Capital
Ocologica	17-Mar-2016	New York, NY	Angel	Developer of eye-tracking based neurodiagnostic devices that detects and quantitates the extent of concussion, structural brain injury and other diseases affecting brain function.	1.69	National Space Biomedical Research Institute, NYU Stern School of Business
Halex Istar Industria Farmaceutica	17-Mar-2016	Goiania, Brazil	PE Growth / Expansion	Manufacturer and developer of pharmaceutical parenteral products. The company's portfolio offers products for electrolyte and energetic balance and antibiotics to hospitals and clinics throughout Brazil.	Undisclosed	H.I.G. Capital

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Gecko Biomedical	17-Mar-2016	Paris, France	Early Stage VC	The company develops products that are non-toxic, designed to bind strongly to tissues and deliver "on-demand" wound closure within the "wet" and dynamic environments in the body.	24.98	Sofinnova Partners
Fiagon	17-Mar-2016	Berlin, Germany	Later Stage VC	Provider of clinical navigation systems for maxillo-facial surgery and neurosurgery, which uses electromagnetic tracking matrix algorithms and flexible pointer technology to indicate the positions of the instruments used in the CT or MRI image data.	8.33	Donghai Securities, German Startups Group
Envisia Therapeutics	17-Mar-2016	Durham, NC	Early Stage VC	The company uses its Particle Replication In Non-Wetting Templates (PRINT) platform to create a pipeline of small- and large-molecule, particle-based therapies to address unmet medical needs in various areas of ophthalmology.	10.12	Undisclosed
Emanate Wireless	17-Mar-2016	Ijamsville, MD	Angel	Developer of healthcare equipment monitoring devices. The company develops devices that monitor the usage, utilization, and maintenance of healthcare equipment, which can be accessed via a cloud service through a mobile device.	0.28	Undisclosed
DiACardio	17-Mar-2016	Be'er Sheva, Israel	Later Stage VC	Provider of decision support tools for cardiologists. The company offers products for echocardiography and helps in evaluating heart failure signs.	1.95	Shengjing360
10x Genomics	17-Mar-2016	Pleasanton, CA	Later Stage VC	Provider of genomics platform for sequence data analysis. The company develops and operates a molecular bar coding platform and analysis suite that delivers structural variants, haplotypes and other long range contextual information for a broad range of applications.	55.00	Fidelity Management & Research Company
Prenetics	16-Mar-2016	Hong Kong, Hong Kong	Early Stage VC	Developer of DNA technology that enables physicians to help patients identify the right drug and dosage, as well as to list out potential adverse drug effects. The company provides pre-natal care, and can use DNA to test for 16 different health conditions in a fetus.	10.00	Ping An Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
ApniCure	16-Mar-2016	Redwood City, CA	Later Stage VC	Developer of a home-use device for the treatment of obstructive sleep apnea (OSA) in adults. The company's winx system uses a proprietary platform technology called Oral Pressure Therapy (OPT) to treat OSA.	15.81	Undisclosed
Spirox	15-Mar-2016	Menlo Park, CA	Later Stage VC	Developer of a medical device for treatment of nasal-valve collapse. The company develops a minimally invasive therapy for collapse of the nasal valves, a condition that causes breathing obstruction.	45.00	Kohlberg Kravis Roberts
Radiologica	15-Mar-2016	St. Louis, MO	Angel	Operator of a healthcare technology company. The company provides software services for radiation oncology and the healthcare market.	2.85	St. Louis Arch Angels
Prelude	15-Mar-2016	Laguna Hills, CA	Early Stage VC	Developer of a prognostic test for breast cancer. The company is the developer of a test for ductal carcinoma in situ (DCIS), a common form of breast cancer. The test enables patients and their treating physicians to make personalized treatment decisions based on their own biologic profiles.	2.15	Fjord Ventures
NarrativeDx	15-Mar-2016	Austin, TX	Early Stage VC	Provider of data analysis platforms for hospitals. The company provides a platform for big data analysis of patient feedback to improve the hospital customer experience and maximize Medicare reimbursement.	1.10	LiveOak Venture Partners
KindHeart	15-Mar-2016	Chapel Hill, NC	Angel	Owner and operator of a medical-simulation company. The company provides surgical simulators which are used in the study of surgical procedures and robotic surgery.	0.88	North Carolina Biotechnology Center
FLAG Therapeutics	15-Mar-2016	Raleigh, NC	Angel	Developer of cancer treatment drugs and medical therapies. The company develops cancer treatment drugs and therapies based on the anti-angiogenic, anti-tubulin and folate-target anti-cancer platform.	0.50	North Carolina Biotechnology Center
DICOM Grid	15-Mar-2016	Phoenix, AZ	Later Stage VC	Provider of a cloud-based platform for medical image management and exchange. The company is dedicated to making digital medical imaging accessible to all medical facilities and physicians for the first time.	6.00	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Outpost Medicine	14-Mar-2016	Boston, MA	Early Stage VC	Developer of new treatments of urologic and gynecologic diseases and disorders. The company is developing a novel clinical stage compound for the potential treatment of Stress Urinary Incontinence.	41.00	Frazier Healthcare Partners
Fresca Medical	14-Mar-2016	San Clemente, CA	Angel	The company specializes in developing medical devices for treatment of patients suffering from obstructive sleep apnea diseases.	2.73	Undisclosed
Forge Life Science	14-Mar-2016	Doylestown, PA	Early Stage VC	The company offers antivirals for the treatment of infectious diseases including progressive multifocal leukoencephalopathy, hemorrhagic cystitis and preemptive treatment for transplants and seasonal flu.	0.35	National Institute for Allergy and Infectious Disease
Focal Therapeutics	14-Mar-2016	Aliso Viejo, CA	Later Stage VC	Developer and manufacturer of novel tissue-marking devices for use in surgery. The company offers BioZorb, a tissue marker that helps surgeons, radiation oncologists and other clinicians to identify surgical sites.	3.83	Emergent Medical Partners, Okapi Venture Capital
Encore Dermatology (Malvern)	14-Mar-2016	Malvern, PA	Angel	Provider of prescription therapies and medical devices to dermatologists. The company provides a range of medical dermatology products, treating a number of topical disease states such as acne and atopic dermatitis.	12.00	Undisclosed
CEGX	14-Mar-2016	Cambridge, United Kingdom	Early Stage VC	Developer of epigenetic tools for DNA analysis. The company is the developer of the TrueMethyl kit, a rapid method for parallel genome-wide detection of cytosine methylation and hydroxy-methylation. which can also be used with a variety of common platforms.	21.00	Google Ventures
CDRH Holding	14-Mar-2016	New York, NY	Angel	Provider of healthcare services. The company engages in providing services to the healthcare industry.	10.18	Undisclosed
Arterys	14-Mar-2016	San Francisco, CA	Later Stage VC	Provider of a technology platform for structural heart disease management, which can assess hemodynamic function like flow rate, blood velocity, pressure and shear stress non-invasively within the heart.	12.00	Emergent Medical Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
T3D Therapeutics	11-Mar-2016	Durham, NC	Early Stage VC	Developer of remedial therapeutics for diseases of the central nervous system (CNS), such as Alzheimer's and other pathologies.	1.21	National Institute On Aging
Inprentus	11-Mar-2016	Champaign, IL	Early Stage VC	Developer of x-ray diffraction gratings. The company specializes in making ultrahigh precision diffraction gratings for X-Ray analysis and imaging.	0.49	National Science Foundation, Serra Ventures
FlowMetric	11-Mar-2016	Doylestown, PA	Angel	Provider of flow cytometry and cell sorting services. The company offers flow cytometry techniques that combine proprietary assays with advanced analytics to support all stages of drug development including pre-clinical, non-clinical and clinical development.	0.98	Undisclosed
BioAegis Therapeutics	11-Mar-2016	North Brunswick, NJ	Angel	Developer of drugs to maintain the balance of local inflammatory responses and prevent systemic inflammation and its associated adverse outcomes.	1.50	Undisclosed
4D Healthware	11-Mar-2016	Chicago, IL	Seed Round	Developer of an online platform that helps patients take care of their health through mobile devices by combining relevant information from each patient's health history, plus real time data gathered from devices such as activity trackers, mobile apps, wireless scales and wearable biometric sensors.	0.71	Undisclosed
PQ ByPass	10-Mar-2016	Sunnyvale, CA	Later Stage VC	Developer of a medical device to treat peripheral vascular disease by creating a percutaneous surgical bypass.	8.77	Ascent Biomedical Ventures, Seroba Kernel Life Sciences
Oncora Medical	10-Mar-2016	Philadelphia, PA	Seed Round	Developer of software for the oncology sector. The company provides a clinical data platform for oncology physicians to identify treatment options based on past patients.	1.20	iSeed Ventures, BioAdvance, Dr. Thomas Mackie
Caledonian Optical	10-Mar-2016	Aberdeen, United Kingdom	PE Growth / Expansion	Manufacturer of optical lenses and eye glasses. The company provides digital surfacing, rimless glazing, lens glazing and anti-reflection coating services for eye glasses. It also supplies industrial and safety eye glasses.	1.86	Business Growth Fund

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Aspyrian Therapeutics	10-Mar-2016	San Diego, CA	Angel	Developer of cancer targeted therapies. The company develops therapies using Photoimmunotherapy (PIT) platform for cancer, pain and inflammation.	40.00	Department of Health and Human Services, Hiroshi Mikitani
AcceleDent	10-Mar-2016	Bellaire, TX	Later Stage VC	Developer of an acceleration device for orthodontics. The company offers a system that reduces treatment duration for wearing braces by applying pulsing forces in combination with standard orthodontics.	5.00	Undisclosed
Truveris	09-Mar-2016	New York, NY	Later Stage VC	Provider of management tools to sponsors of prescription benefit plans and payers of claims under these plans. The tools enable clients to manage the complexity and rising costs of prescription drugs.	2.47	Canaan, New Leaf, Tribeca Venture Partners, NAV.VC
Purigen Biosystems	09-Mar-2016	Pleasanton, CA	Early Stage VC	The company develops isotachopheresis chips for nucleic acid preparation to be used for genomic analyses.	13.01	Undisclosed
NextGenJane	09-Mar-2016	Oakland, CA	Angel	Provider of an online platform offering female patients information on their reproductive health by tracking biological changes predictive of disease.	2.22	Illumina Accelerator
HealthTell	09-Mar-2016	Chandler, AZ	Early Stage VC	Provider of a health status monitoring platform for individuals. The company provides an immunosignature-based health monitoring platform that covers a wide range of illnesses from cancer to infectious disease.	26.10	Third Leaf Ventures
GenomeDx	09-Mar-2016	San Diego, CA	Later Stage VC	Developer of genomic-based laboratory tests for prostate and other urologic cancers, which will have a direct impact on treatment decision-making, improve patient outcomes and ultimately reduce healthcare costs.	25.39	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
CHD Bioscience	09-Mar-2016	Fort Collins, CO	Angel	Developer of topical therapeutic products. The company develops anti-microbial technology to prevent the spread of dermal and orthopedic bacterial infections.	2.46	Undisclosed
Avalon (Computer Aided Diagnosis)	09-Mar-2016	London, United Kingdom	Accelerator / Incubator	Provider of a diagnostic tool for brain diseases. The company provides a computer based diagnostic tool which helps in detection of brain degenerative diseases such as Alzheimer's.	0.02	Entrepreneur First
Apra	09-Mar-2016	Solna, Sweden	Later Stage VC	Developer of target specific drugs for the treatment of cancer with non-functional p53.	51.06	Versant Ventures, 5AM Ventures, HealthCap
Tizona Therapeutics	08-Mar-2016	South San Francisco, CA	Early Stage VC	Developer of immuno-oncology therapies. The company develops pharmaceuticals that are used in the treatment of cancer and autoimmune diseases.	43.00	Abingworth Management, Canaan Partners
Shoulder Innovations	08-Mar-2016	Holland, MI	Angel	Operator of a medical device company that manufactures glenoid and humeral implant prostheses. The company develops orthopedic medical devices for injured and damaged shoulders.	0.59	Undisclosed
Pico-Tesla Magnetic Therapies	08-Mar-2016	Clearwater, FL	Angel	Developer of an internet-enabled electromagnetic resonance device to therapeutically address several major areas of disease, mainly focused on Parkinson's Disease and diabetes.	0.02	Undisclosed
Opus KSD	08-Mar-2016	Halifax, MA	Angel	Developer of a surgical wound closure device which inserts biodegradable fasteners subcutaneously as an alternative to metal staples for closing surgical incisions.	0.50	Undisclosed
Omedix	08-Mar-2016	Scottsdale, AZ	Later Stage VC	The company is the creator of a patient self-service platform designed to streamline check-in and create efficiencies within the engagement process, with services such as self-service portals, appointment reminders, and website creation with mobile capacity and paper-free check-in.	1.13	Canal Partners, Long River Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Jvion	08-Mar-2016	Johns Creek, GA	Early Stage VC	Developer of software designed to predict and prevent patient-level disease and financial losses using big-data enabled services that combine clinical intelligence with machine learning to help providers protect their revenues while improving patient health outcomes.	8.90	Asif Awan, Martin Ventures
Inbiomotion	08-Mar-2016	Barcelona, Spain	Later Stage VC	The company is focused on the development of a diagnostic assay based on a selective single gene/protein bio-marker that predicts those patients at risk of suffering bone-specific metastases from primary tumors.	2.44	Caixa Capital Risc
ImmunoMet	08-Mar-2016	Houston, TX	Early Stage VC	The company is developing oncology drugs and metabolic regulators to increase patient survival by disrupting cancer metabolism and enhancing anti-cancer immunity.	5.20	Jlabs
GeneCapture	08-Mar-2016	Huntsville, AL	Angel	Developer of medical devices to detect and identify pathogens. The company's technology depends on the specific pairing of two complementary nucleic acid (DNA/RNA) sequences.	0.12	Undisclosed
Capella BioScience	08-Mar-2016	London, United Kingdom	Early Stage VC	Developer of monoclonal antibody medicines (mAbs). The company leverages novel technologies to develop monoclonal antibodies (mAbs) to innovative and therapeutic targets in oncology and autoimmune disease.	15.75	Advent Life Sciences, Medicxi Ventures, Osage University Partners
Atera	08-Mar-2016	Esch-sur-Alzette, Luxembourg	Angel	The company specializes in providing research and development, validation, manufacturing and commercialization of advanced human tissue models to address test methods for product evaluation, reducing animal experimentation and medical research.	1.33	Undisclosed
Valencell	07-Mar-2016	Raleigh, NC	Later Stage VC	The company offers an audio headset and wearable biometric data sensor technology that integrates a fitness sensor into music earbuds, headsets and headphones for monitoring physical performance, fitness and health status.	11.04	GII Tech
Tespo	07-Mar-2016	Northville, MI	Angel	Provider of a nutritional supplement dispenser. The company offers a single serving equipment for serving nutritional supplements with the help of a recyclable disc.	1.25	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Lung Therapeutics	07-Mar-2016	Austin, TX	Early Stage VC	The company develops a drug which allows effective fluid drainage of the lung cavity during hospitalized pneumonia, without the need for surgery.	1.05	Undisclosed
Branchpoint Technologies	07-Mar-2016	Irvine, CA	Early Stage VC	The company focuses on improving neurological treatment through access to intracranial pressure measurements using platforms employing precision semiconductor gages.	0.80	TEDCO
Waterford Mask Systems	04-Mar-2016	Deerfield Beach, FL	Angel	Developer of medical mask systems for various uses.	0.28	Undisclosed
Strata Oncology	04-Mar-2016	Ann Arbor, MI	Angel	Owner and operator of a healthcare and precision medicine company, focused towards cancer patients.	6.30	Undisclosed
Entrinsic Health	04-Mar-2016	Norwood, MA	Early Stage VC	Developer of rehydration technology to address critical digestive and hydration-related health concerns for individuals and animals around the world, including diarrhea, cramping, dehydration, nausea, malnutrition, and general gastrointestinal dysfunction.	7.50	Florida Institute for the Commercialization of Public Research, Norwood LDK
WellBrain	03-Mar-2016	Pleasant Hill, CA	Angel	The company offers real-time evidence-based treatment to patients with chronic pain, depression, anxiety, substance abuse, and other mental health disorders.	0.79	Undisclosed
Pronec	03-Mar-2016	Cheshire, United Kingdom	Seed Round	Developer of a new class of cancer therapy that causes tumours to die, utilizing a lead candidate molecule that induces necrosis of a wide range of tumour cell lines in culture, but does not affect normal cell lines.	Undisclosed	BioCity, Catapult Ventures Group
Preceyes	03-Mar-2016	Eindhoven, Netherlands	Seed Round	Developer of a high-precision robotics based surgical system for the treatment of vitreoretinal surgery. The instrument minimizes residual eye movements by holding the cannula and safety boundaries, while movements are recorded for post-surgical evaluation and training purposes.	Undisclosed	Brabantse Ontwikkelings Maatschappij, EURETINA

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Palo Alto Health Sciences	03-Mar-2016	Danville, CA	Later Stage VC	The company develops an evidence based, FDA cleared, non-pharmaceutical treatment for individuals with panic disorders and other symptoms of panic, including panic attacks.	3.53	Aphelion Capital
OrthoFi	03-Mar-2016	Denver, CO	PE Growth / Expansion	The company provides a software and technology platform to orthodontists for acquiring, financing and managing new patients. Its software provides services such as flexible financing options, insurance eligibility checks and claims submissions.	Undisclosed	Boathouse Capital
Lucro Marketplace	03-Mar-2016	Nashville, TN	Early Stage VC	The company has developed a platform where healthcare organizations can research and discuss healthcare technology options and where healthcare solutions providers can promote and educate about their products.	Undisclosed	Health Insight Capital, Heritage Group, Martin Ventures
Iowa Approach	03-Mar-2016	Iowa City, IA	Angel	Developer of proprietary medical devices. The company helps in making atrial fibrillation ablation more accessible and less expensive for millions of people.	19.80	Boston Scientific, Plains Angels
Fusion Tech	03-Mar-2016	Redwood City, CA	Angel	The company provides a software platform which allows healthcare institutions to help patients understand disease, treatment and health information in 2D space, augmented reality and holographic projection.	0.18	Undisclosed
Autolus	03-Mar-2016	London, United Kingdom	Early Stage VC	Developer of T-cell immunotherapy products. The company focuses on the development and commercialization of engineered T-cell immunotherapy products for the treatment of life-threatening cancers.	57.29	Syncona, Woodford Investment Management, UCL Business, Perceptive Bioscience Investments
Ashvattha Therapeutics	03-Mar-2016	Redwood City, CA	Angel	Developer of nano therapies for cerebral palsy. The company offers multiple products for the treatment of cerebral palsy and other health issues.	0.30	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Affinimark Technologies	03-Mar-2016	New Haven, CT	Later Stage VC	Developer of proprietary medical diagnostic products. The company develops technology for the diagnosis of early-stage prostate cancer and cerebrospinal fluid leak surgery.	1.55	Connecticut Innovations, LaunchCapital
Z53 Therapeutics	02-Mar-2016	Cleveland, OH	Angel	Developer of anti-cancer drugs targeting mutated tumors.	0.55	Undisclosed
Y Prime	02-Mar-2016	Malvern, PA	Later Stage VC	The company provides a platform enabling business process analysis, enterprise services, business intelligence and data integration to plan and manage clinical trial information and processes.	2.01	Ballast Point Ventures, Pleasant Bay Capital Partners
Wntrix	02-Mar-2016	The Woodlands, TX	Accelerator / Incubator	Developer of antibody drugs. The company develops medicines which combine capabilities of monoclonal antibodies with the cancer-killing ability of cytotoxic drugs.	Undisclosed	JLabs
ViraCyte	02-Mar-2016	New Brighton, MN	Accelerator / Incubator	The company is focused on eliminating deadly viral infections in immune compromised patients with the use of virus killing thymocytes cells.	Undisclosed	JLabs
Tomowave Laboratories	02-Mar-2016	Houston, TX	Accelerator / Incubator	The company has experience and expertise in the development of technologies for optoacoustic tomography (oat), imaging, sensing and monitoring in biomedical applications.	Undisclosed	JLabs, National Cancer Institute
Seremedi	02-Mar-2016	Houston, TX	Accelerator / Incubator	Provider of a patient engagement platform. The company provides a platform which allows healthcare providers to prescribe guided treatment plans through mobile devices.	Undisclosed	JLabs
Procyron	02-Mar-2016	Houston, TX	Accelerator / Incubator	Manufacturer and developer of catheter-deployed, intra-aortic pump for ambulatory use. The company's product is designed to rest and heal the heart by reducing afterload while simultaneously improving blood flow to vital organs.	Undisclosed	JLabs
PanaMab	02-Mar-2016	Houston, TX	Accelerator / Incubator	Developer of monoclonal antibodies for the research and treatment of cancer. The biotechnology company conducts green biomedical research to test a possible treatment for cancer, fibrosis-associated diseases and infectious disorders.	Undisclosed	JLabs

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Noninvasix	02-Mar-2016	Galveston, TX	Accelerator / Incubator	Developer of optoacoustic monitoring technologies. The company offers a device for noninvasive monitoring of fetal cerebral blood oxygenation and welfare during labor and delivery.	Undisclosed	Jlabs
NanoMedical Systems	02-Mar-2016	Austin, TX	Accelerator / Incubator	The company develops silicon-based medical nanotechnology products that address clinical needs for personalized medicine via improved biomarker detection, microbial surveillance and diagnostics, long-term subcutaneous drug-delivery implants, and injectable antitumor particles.	Undisclosed	Jlabs
Metacclipse Therapeutics	02-Mar-2016	Atlanta, GA	Accelerator / Incubator	This pre-clinical stage biotechnology company is developing a personalized cancer immunotherapy using tumor membrane vesicles prepared from the patient's own tumor and combined with proven immunostimulatory molecules.	Undisclosed	GRA Venture Fund, JLABS
Medicenna Therapeutics	02-Mar-2016	Vancouver, Canada	Accelerator / Incubator	Operator of a clinical-stage immunotherapy research firm. The company develops highly selective cytokines for targeted treatment of cancer, autoimmune disease and fibrosis.	Undisclosed	JLabs
Labconnect	02-Mar-2016	Seattle, WA	PE Growth / Expansion	The company offers routine and esoteric laboratory testing, kit building, sample management and tracking services to industries in the pharmaceutical sector.	4.00	BroadOak Capital Partners
Innovate Wireless Health	02-Mar-2016	Austin, TX	Accelerator / Incubator	Developer of a patient-centric communication platform. The company's platform provides patients with medication reminders and prescription tracking services and offers alerts for care givers.	Undisclosed	JLabs, LuEtta Bright
ImmunoPhotonics	02-Mar-2016	St. Louis, MO	Accelerator / Incubator	Developer of immunotherapy based treatments for cancer. The company develops a therapeutic cancer vaccine that can help treat metastatic cancer through immunotherapy.	Undisclosed	JLabs
IGY Immune Technologies & Life Sciences	02-Mar-2016	Thunder Bay, Canada	Accelerator / Incubator	Developer of broad spectrum antibodies or immunoglobulin. The company develops and commercializes broad spectrum antibodies or immunoglobulin for use in nutraceuticals and immune support products.	Undisclosed	JLabs, Legacy Partners Wealth Strategies

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
IDA Therapeutics	02-Mar-2016	Houston, TX	Accelerator / Incubator	The company develops immuno-diverse antibodies to fulfill the demand for efficacious antibody-based products in therapeutic, diagnostic and research applications.	Undisclosed	JLabs
Icell Kealex Therapeutics	02-Mar-2016	Houston, TX	Accelerator / Incubator	Developer of a T-cell engager-armed virus for the treatment of solid tumors.	Undisclosed	JLabs
Fe3 Medical	02-Mar-2016	San Antonio, TX	Later Stage VC	Developer of a novel transdermal patch for the treatment of anemia. The company focuses on drug-delivery technologies enabling non-toxic transport of iron across the skin, for treatment of iron deficiency.	11.00	Jianmin Pharmaceuticals, HG Capital, PingAn Ventures
Beta Cat Pharmaceuticals	02-Mar-2016	Houston, TX	Accelerator / Incubator	Provider of modulate beta catenin compounds. The company specializes in developing beta-catenin modulators for the treatment of cancer.	Undisclosed	Jlabs
Alterna Therapeutics	02-Mar-2016	Durham, NC	Accelerator / Incubator	Developer of therapeutics to treat diabetes and obesity.	Undisclosed	JLabs
Adhesys Medical	02-Mar-2016	Aachen, Germany	Accelerator / Incubator	Manufacturer of medicinal adhesives. The company develops and commercializes biodegradable surgical adhesives that can be used on the skin and inside the human body to close wounds.	Undisclosed	Jlabs
WellDoc	01-Mar-2016	Baltimore, MD	Later Stage VC	Developer of platforms for disease management.	29.52	Samsung Ventures Investment, Merck Global Health Innovation
SomaLogic	01-Mar-2016	Boulder, CO	PE Growth / Expansion	Developer of proteomic technology for protein bio-marker discovery. The company develops a technology that enables the discovery of protein bio marker signatures, drug discovery, drug development and clinical diagnostics.	60.50	Visium Asset Management
Motiv	01-Mar-2016	San Francisco, CA	Early Stage VC	The company manufactures wearable technology research and development products used in consumer electronics, medical devices and health.	5.50	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
