

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Shield Therapeutics (STX)	26-Feb-16	Wollerau, Switzerland	Developer of an oral product for iron deficiency anemia which will replace intravenous iron therapy for critically ill patients with inflammatory bowel disease.	46.55	Liberum Capital Ltd
Proteostasis Therapeutics (PTI)	11-Feb-16	Cambridge, MA	Developer of small molecule therapeutics to control the body's protein homeostasis. The company develops therapeutics that regulate protein homeostasis to improve outcomes for patients with neurodegenerative and orphan diseases.	50.00	Leerink Partners, RBC Capital Markets
AveXis (AVXS)	11-Feb-16	Bannockburn, IL	Developer of treatments for rare and life-threatening neurological genetic diseases. The company is developing scAAV9.CB.SMN, an on-going Phase 1 clinical trial for the treatment of spinal muscular atrophy (SMA) Type 1, an autosomal-recessive genetic disorder characterized by lower motor neuron loss and progressive muscle weakness.	95.00	Goldman, Sachs & Co., Jefferies
B.R.A.I.N. (BNN)	09-Feb-16	Zwingenberg, Germany	Developer of white biotechnology. The company discovers BioActives, natural compounds and proprietary enzymes for chemical, pharmaceuticals, food and cosmetics industries. Their key technology creates micro-organisms for the conversion of carbon containing industrial waste that flows into secondary raw materials.	34.97	ODDO Seydler
Apellis	08-Feb-16	Crestwood, KY	Developer of novel therapeutics and drug delivery technologies. The company develops peptide drugs focused on the immunology space such as asthma and chronic obstructive pulmonary disease.	86.25	Barclays Capital, Citigroup Global Markets, Leerink Partners
Editas Medicine (EDIT)	03-Feb-16	Cambridge, MA	Developer of drugs to treat disorders caused by a singular genetic defect. The company is developing genome editing technology into a novel class of human therapeutics designed to enable precise and corrective molecular modification to treat the underlying cause of a broad range of diseases at the genetic level.	94.40	J.P. Morgan Securities, Morgan Stanley & Co.
BeiGene (BGNE)	03-Feb-16	Beijing, China	Developer of oncology drugs. The company performs clinical-stage oncology research and development focused on discovering, developing and commercializing targeted and immune-oncology therapeutics to help serve the unmet needs in cancers that are prevalent in China and the Asia-Pacific region.	158.40	Cowen and Company, Goldman, Sachs & Co, Morgan Stanley

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Retina Implant	29-Feb-16	Reutlingen, Germany	Angel	Developer of subretinal implants for partially sighted and blind patients. The company is developing the first fully functioning electronic retinal implant to restore useful vision to the blind.	28.86	Max Reindl, other undisclosed
Medlanes	29-Feb-16	Berlin, Germany	Early Stage VC	Provider of online medical advice and care services. The company combines machine-learning technology with doctor knowledge to offer patients a first contact point to healthcare spanning a large number of medical conditions.	Undisclosed	AXA Strategic Ventures
MedCPU	29-Feb-16	New York, NY	Later Stage VC	Provider of real-time clinical care software. The company's application captures the clinical picture from clinicians' free-text notes, dictations and structured documentation entered into electronic medical records and analyzes that data against a growing library of content for generating real-time precise prompts for care consideration.	35.00	UPMC Health System
Applied Pathways	29-Feb-16	Schaumburg, IL	Later Stage VC	Developer of an enterprise knowledge-management platform. The company develops Web-based software tools designed to enable clinicians, Web developers and business managers to develop, maintain and deploy rules-based applications, training materials to custom portal and translated practice processes into flow charts.	6.00	Health Enterprise Partners
4D Healthware	29-Feb-16	Chicago, IL	Seed Round	Developer of an online platform that helps patients to take care of their health through mobile devices. The company provides a platform that combines relevant information from each patient's health history plus real time data gathered from devices such as activity trackers, mobile apps, wireless scales and wearable biometric sensors such that the data can be utilized to provide a recommended care plan for each patient.	0.61	Undisclosed
Third Pole	26-Feb-16	San Francisco, CA	Angel	Developer of a medical inhalation device offering nitric oxide needed for babies with respiratory failure.	2.68	Undisclosed
Targeted Diagnostics & Therapeutics	26-Feb-16	West Chester, PA	Angel	Owner and operator of a biotechnology company developing molecular-based technologies. The company's technology is used for the targeted detection, diagnosis and treatment of gastrointestinal cancers and infectious diseases.	0.76	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Expansion Technologies	26-Feb-16	Cambridge, MA	Angel	Developer of novel therapeutic methods using nano scale-precise optical microscopy.	2.00	Undisclosed
CHD Bioscience	26-Feb-16	Fort Collins, CO	Angel	Developer of topical therapeutic products. The company develops anti-microbial technology to prevent the spread of dermal and orthopedic bacterial infections.	1.74	Undisclosed
Celcuity	26-Feb-16	Minneapolis, MN	Angel	Developer of a biotech-based analysis platform for the pharmaceutical sector. The company is the developer of cell-based assays to assess the functionality of disease-related signaling pathways within a patient's cells to determine whether a drug therapy is having the intended effect.	5.50	Undisclosed
Vivify Health	25-Feb-16	Plano, TX	Later Stage VC	Provider of a healthcare-management platform. The company delivers direct-to-consumer care, including customized care plans, coaching, educational video content and interactive video conferencing for patients and their healthcare providers.	17.00	UPMC Health System
VitalWare	25-Feb-16	Yakima, WA	Early Stage VC	Provider of a business intelligence platform for healthcare providers by integrating key processes including documentation, coding, billing and auditing.	Undisclosed	F-Prime Capital Partners
Versago Vascular Access	25-Feb-16	West Bridgewater, MA	Seed Round	Operator of a vascular access technology company. The company develops a patented technology that displaces multiple traditional access applications in apheresis and chemotherapy.	1.65	Primo Medical Group
Synaptive	25-Feb-16	Toronto, Canada	Early Stage VC	Provider of neurosurgical technological products and services. The company provides advanced tools and information for neurosurgeons, radiologists, surgeons and hospitals to focus on patient outcomes.	0.91	Undisclosed
Specialists On Call	25-Feb-16	Reston, VA	PE Growth/Expansion	Provider of specialty physician consultations to acute-care hospitals via telemedicine. The company offers specialty physician services and provides on-call coverage to suburban and urban acute-care hospitals via videoconferencing to improve patient care and increase the financial and clinical strength of community hospitals.	64.77	Greenwoods Capital Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Chromis Therapeutics	25-Feb-16	San Diego, CA	Seed Round	Developer of anti-viral pharmaceuticals. The company engages in the discovery and development of antiviral drugs for chronic hepatitis B viral infections using proprietary drug-design platform.	3.00	Torrey Pines Investment
Avraham Pharmaceuticals	25-Feb-16	Yavneh, Israel	Later Stage VC	Developer of products for the treatment and prevention of neurodegenerative disorders. The company's product, Ladostigil, provides a drug candidate for treatment of Alzheimer's disease in patients diagnosed with mild cognitive impairment.	4.00	Pomtifax, Clal Biotechnology Industries, Yisum Research Development Company
Rani Therapeutics	24-Feb-16	San Jose, CA	Later Stage VC	Developer of an oral drug delivery technology. The company provides an oral biotherapeutics technology for the delivery of peptides, proteins and therapeutic antibodies, which to date can only be delivered through injections.	37.00	AstraZeneca, Virtus Inspire Ventures, Ping An Ventures
PolyPid	24-Feb-16	Petach Tikva, Israel	Later Stage VC	Developer of proprietary drug-delivery technology. The company develops pharmaceutically active ingredients utilizing its nano-based drug-delivery platform for sustained release.	22.00	Shavit Capital, Aurum Ventures
Visikol	23-Feb-16	New Brunswick, NJ	Early Stage VC	Developer of a biological clearing agent. The company offers a chemical formula called Visikol that penetrates tissues, renders them transparent and allows 3-dimensional imaging of both plant and animal specimens without causing any structural damage.	0.50	Foundation Venture Capital Group
Myra	23-Feb-16	Bangalore, India	Early Stage VC	Provider of online pharmacy delivery services. The company provides an online mobile application to deliver medicine to the doorstep in 30 minutes with a flat 15% discount.	Undisclosed	Matrix Partners, Pranay Chulet, Prashant Malik
Augustine Temperature Management	23-Feb-16	Eden Prairie, MN	Later Stage VC	Developer of normothermia technologies. The company manufactures conductive fabric patient warming systems for surgical patients.	7.80	Undisclosed
Vanquish Oncology	22-Feb-16	Champaign, IL	Early Stage VC	Developer of a drug on molecular defects in specific cancer cells. The company targets to create personalized oncology therapeutics for unmet or underserved cancer markets.	1.05	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Svelte Medical Systems	22-Feb-16	New Providence, NJ	Later Stage VC	Developer of balloon expandable stents. The company designs and develops non-thrombogenic and non-inflammatory drug eluting stents for the treatment of atherosclerosis.	44.40	CNF Investments
SigTuple	22-Feb-16	Bangalore, India	Seed Round	Developer of data driven intelligence for automated analysis of medical images and data to aid diagnosis. The company provides a data driven, machine learned, cloud based technology for detection of anomalies and trends in medical data using deep learning.	Undisclosed	Sachin Bansal, Binny Bansal, Accel Partners
PSKW	22-Feb-16	Bedminster, NJ	PE Growth/Expansion	Provider of patient prescription medication assistance and payment reimbursement services. The company provides pharmaceutical and biopharma loyalty relationship marketing services, co-pay eligibility verification services, digital relationship tools and co-pay assistance programs. It also offers co-pay incentive cards, vouchers, coupons, messages, reminders and discount offers.	68.25	Undisclosed
Prima-Temp	22-Feb-16	Boulder, CO	Early Stage VC	Developer of a healthcare device that provides continuous core temperature measurements. The company develops wireless monitoring technology that can detect subtle changes in core body temperature and communicate the data directly to a smartphone. It has applications for fertility monitoring, early disease detection, sleep disorder, heat exhaustion, chemotherapy, obesity and weight loss.	1.64	Green Park & Golf Ventures
Precision Ocular	22-Feb-16	London, United Kingdom	Early Stage VC	Developer of a drug-based treatment for retinal diseases. The company provides a treatment for retinal diseases, including age-related macular degeneration, diabetic macular edema, retinal vein occlusion, uveitis and cystoid macular edema.	19.34	Imperial Innovations Group
KeyNatura	22-Feb-16	Kopavogur, Iceland	Early Stage VC	Provider of astaxanthin, an antioxidant from sea creatures.	2.40	Eyrir Invest

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
IMPACT Therapeutics	22-Feb-16	NanJing, China	Later Stage VC	Provider of drug discovery services. The company is engaged in the discovery, development and commercialization of therapeutics to treat cancer and other life-threatening diseases.	10.00	China Orient Summit Capital, Sungen BioVenture, HAIBANG Ventures, Guangzhou YUEXIU Industrial Investment Fund, Lilly Asia Ventures
CenterX	22-Feb-16	Madison, WI	Angel	Provider of e-prescribing and medication adherence tracking software. The company offers a cloud-based electronic prescribing directory for prescribers, pharmacists and payers to electronically handle patient prescriptions.	3.33	Undisclosed
CardioDx	22-Feb-16	Redwood City, CA	Later Stage VC	Developer of clinically validated genomic tests to aid in assessing and tailoring care of individuals with cardiovascular disease. The company offers cardiovascular genomics diagnostic services for heart diseases including coronary artery disease, cardiac arrhythmia and heart failure.	12.37	Undisclosed
SeqLL	19-Feb-16	Woburn, MA	Angel	Provider of molecule sequencing technology. The company provides true single molecule sequencing of RNA or DNA which offers researchers RNA sequencing data capturing the depth and breadth of findings.	1.00	Undisclosed
RadiFit Athletics	19-Feb-16	Miramar, FL	Accelerator/Incubator	Manufacturer of orthopedic products, accessories and medical devices. The company develops custom knee sleeves with real time technology that monitors athletic movements and is designed to reduce injuries and tears.	0.02	PowerMoves NOLA
NurseGrid	19-Feb-16	Portland, OR	Early Stage VC	Developer of a mobile application for nurse scheduling in hospitals. The company offers a suite of scheduling and staffing software that allows nurses to communicate and share schedules with their colleagues in real-time.	1.16	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
NICO	19-Feb-16	Indianapolis, IN	Later Stage VC	Developer of surgical devices. The company develops technology and products for the field of corridor surgery, including cranial, ENT, spinal, and otolaryngology.	15.07	River Cities Capital Funds, Rose-Hulman Institute of Technology
Fractyl	19-Feb-16	Waltham, MA	Early Stage VC	Developer of medical devices for the treatment of chronic diseases, particularly focusing on improving the health of people with Type 2 diabetes.	47.17	Mithril Capital Management
eFFECTOR Therapeutics	19-Feb-16	San Diego, CA	Early Stage VC	Developer of protein-synthesis drugs. The company is pioneering a new class of small-molecule drugs that act by selectively regulating translation (or protein synthesis). The company is developing translation regulators to restore homeostasis to the protein-synthesis landscape, offering treatment for a variety of serious conditions, including cancer.	56.00	Altitude Life Science Ventures
BrainCheck	19-Feb-16	Houston, TX	Angel	Developer of a device that helps in measurement of brain function designed to aid in the diagnosis of traumatic brain injury.	2.25	Undisclosed
Yumanity Therapeutics	18-Feb-16	Cambridge, MA	Early Stage VC	Developer of drugs for neurodegenerative diseases caused by protein misfolding. The company is engaged in the research and development of therapies for patients with Alzheimer's disease, Parkinson's disease and amyotrophic lateral sclerosis.	51.01	Fidelity Management & Research
Unchained Labs	18-Feb-16	Pleasanton, CA	Early Stage VC	Developer of life science biologics tools. The company offers protein stability platform and products for biologics that helps researchers to measure multiple protein stability parameters.	25.00	Novo Ventures, Canaan Partners, TPG Biotech
Reset Therapeutics	18-Feb-16	South San Francisco, CA	Later Stage VC	Developer of therapeutics for the circadian system. The company engages in research and development of an engine for identifying components of the circadian system that can be targeted to treat metabolic and related disorders, such as diabetes, obesity and cardiovascular disease.	29.73	Undisclosed
Osteonovus	18-Feb-16	Toledo, CA	Angel	Developer of a bone regeneration biomaterial. The company develops a synthetic bone graft to fill bone gaps and voids in the skeletal system during orthopedic surgery.	1.25	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Opternative	18-Feb-16	Chicago, IL	Early Stage VC	Provider of online eye-examination services. The company provides a Web portal that enables users to receive an eye exam, and to receive prescriptions for glasses or contact lenses within minutes.	6.00	Jump Capital
Micreos	18-Feb-16	Wageningen, Netherlands	Later Stage VC	Developer of phage-based anti-bacterial products. The company develops products based on phage technology as a replacement for antibiotics in health care, veterinary medicine, the food processing industry and agriculture.	13.32	Undisclosed
Health Catalyst	18-Feb-16	Salt Lake City, UT	Later Stage VC	Provider of healthcare data warehousing, analytics and outcomes improvement services. The company's platform helps healthcare organizations of all sizes improve clinical, financial, and operational outcomes needed to improve population health and accountable care.	70.00	Norwest Venture Partners, UPMC
Avrobio	18-Feb-16	Cambridge, MA	Seed Round	Developer of step-change cell and gene therapies targeting cancer and rare disease. The company's approach is to genetically modify a patient's own cells by adding a functional copy of the faulty gene, and modified cells are then infused back into the patient via a one-time procedure to deliver long-lasting, continuous elevation of endogenous enzyme.	1.50	Atlas Ventures
Vitagene	17-Feb-16	San Francisco, CA	Seed Round	Developer of a platform for physicians. The company's platform is used by doctors to create tailored supplement regimen for their patients. Its monthly supplements are personalized to the patient's specific needs and nutritional gaps.	5.50	Spectrum 28
Vicarious Surgical	17-Feb-16	Cambridge, MA	Early Stage VC	Developer of a software for use in surgical procedures. The company develops a virtual reality software integrated with surgical robotics for use in minimally invasive surgical procedures.	2.39	Rothenberg Ventures, other undisclosed
Synlogic	17-Feb-16	Cambridge, MA	Early Stage VC	Provider and developer of therapeutic microbes and novel engineered bacteria for therapeutic use in the treatment of disease.	40.00	OrbiMed Advisors
Saphetor	17-Feb-16	Lausanne, Switzerland	Seed Round	Owner and operator of a biotechnology and precision medicine company. The company develops a Next Generation Sequencing technology that enables the research and analysis of genomes, genes and exomes.	1.21	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Pliant Therapeutics	17-Feb-16	Redwood City, CA	Early Stage VC	Developer of new therapies to treat fibrotic disorders. The company has developed a product engine that has the potential to address the needs of many patients by targeting fibrosis in a variety of organs and conditions.	45.00	Third Rock Ventures
Piktorex	17-Feb-16	Warszawa, Poland	Early Stage VC	Developer of medical pictograms. The company offers medical stickers in the form of pictograms that informs patients about correct medication dosages.	Undisclosed	Black Pearls
Cro Analytics	17-Feb-16	New Hope, PA	Early Stage VC	Provider of clinical research performance data collection, reporting, consulting, benchmarking and predictive clinical trial analytics for the biopharma industry.	2.50	Ben Franklin Technology Partners
Corvidia	17-Feb-16	Waltham, MA	Early Stage VC	Developer of precision cardiovascular therapies. The company's pipeline programs identify patients with unique sensitivity to specific biologic pathways, potentially allowing for the rapid development of therapies targeting those pathways.	26.00	Sofinnova Partners, Apple Tree Partners
3D Vision Systems	17-Feb-16	Ann Arbor, MI	Angel	Manufacturer of medical equipment and supplies.	0.10	Undisclosed
Thermedical	16-Feb-16	Waltham, MA	Angel	Developer of a thermal ablation system to treat cancer and cardiac arrhythmias. The company develops an ablation therapy system for the treatment of liver cancer patients and patients with ventricular tachycardia, an abnormal rapid heart rhythm.	3.50	Undisclosed
Seven Bridges	16-Feb-16	Cambridge, MA	Later Stage VC	Provider of a biomedical data analysis platform to help genomic research institutions analyze, store and act on genomics and other biological intelligence.	45.00	Kryssen Capital
ScarX	16-Feb-16	Toronto, Canada	Early Stage VC	Developer of a treatment for fibrosis. The company provides a prescription cream to treat and prevent post-surgical scarring.	2.00	Accel-Rx Health Sciences Accelerator, BDC Capital, MaRS Innovation

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
OrPro Therapeutics	16-Feb-16	San Diego, CA	Angel	Developer of Theradux, a modified recombinant thioredoxin for the treatment of cystic fibrosis. The company provides a class of inhaled non-systemic drugs based on the thioredoxin active site for the treatment of patients with cystic fibrosis and other obstructive respiratory diseases.	2.34	Jlabs
Onko Solutions	16-Feb-16	Austin, TX	Early Stage VC	Developer of a portable medical device for detection of cervical cancer that does not require laboratory analysis or a tissue sample.	1.60	Angel Ventures Mexico, Promotora Social Mexico, Ambar Venture Capital
Medsphere Systems	16-Feb-16	Carlsbad, CA	Later Stage VC	Provider of an open-source electronic health-record system. The company provides an electronic health-record system designed to encourage clinician adoption, facilitate workflow automation and foster interoperability.	0.16	Undisclosed
KindHeart	16-Feb-16	Chapel Hill, NC	Angel	Owner and operator of a medical-simulation company. The company provides surgical simulators which are used in the study of surgical procedures and robotic surgery.	0.25	Undisclosed
Constant Therapy	16-Feb-16	Lexington, MA	Early Stage VC	Provider of iPad tools for continuous and personalized therapy to people with cognitive, language, communication and learning disorders. The company provides products designed for use by patients of traumatic brain injury, stroke, aphasia and learning disabled clients in addition to speech and language pathologists or occupational therapists.	1.97	Undisclosed
Cala Health	16-Feb-16	Burlingame, CA	Early Stage VC	Developer of novel therapies based on neuroscience discoveries. The company is designing a new wearable medical device for patients who suffer hand and wrist tremors.	18.00	Johnson & Johnson Development Corporation, Lux Capital, Lightstone Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Akarna Therapeutics	16-Feb-16	Encinitas, CA	Early Stage VC	Developer of molecule therapeutics. The company develops small molecule therapeutics for the treatment of non-alcoholic steatohepatitis.	14.32	Forbion Capital Partners
Theraworx	15-Feb-16	Asheville, NC	Later Stage VC	Provider of therapeutic skin care products. The company manufactures products that include specialty care packs for peri-care prior to foley catheter insertion and on-going foley maintenance.	6.86	Undisclosed
Magnesium Development Company	15-Feb-16	Missoula, MT	Angel	Operator of a medical device development company. The company develops sports medical devices using metal alloy technology combining the strength and handling properties of metal with complete absorption for application in sports medicine orthopedics.	1.00	Undisclosed
Summit Medventures Holdings	12-Feb-16	Austin, TX	Angel	Developer of an orthopedic implant technology. The company provides cortical screws for surgical purposes in the areas of trauma, spine, and total joints.	1.74	Undisclosed
PhysIQ	12-Feb-16	Naperville, IL	Later Stage VC	Developer of personalized predictive analytics. The company offers a remote patient monitoring system with predictive analytics technology that differentiates abnormal physiological behavior from normal physiological variation.	3.61	Undisclosed
ColonyConcepts	12-Feb-16	Newton, MA	Angel	Provider of a technology platform that promotes gastrointestinal health.	8.20	Undisclosed
Behold.ai	12-Feb-16	New York, NY	Accelerator/Incubator	Provider of diagnostic imaging software. The company provides healthcare practitioners with a platform that identifies visual differences between images of healthy tissue and those with nodules, lesions and other abnormalities.	0.09	gener8tor
Allergy Amulet	12-Feb-16	Boston, MA	Accelerator/Incubator	Developer of an allergen detection device that enables simple and mobile measurements to help individuals avoid inadvertently ingesting target allergens.	0.02	gener8tor
MilliDrop	11-Feb-16	Paris, France	Seed Round	Developer of in vitro diagnostics machines and instruments for academic and medical research. The company designs and develops cell culture machines based on millifluidics technology for bacteriological research and diagnosis purpose.	1.11	Seventure Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Bamboo Therapeutics	11-Feb-16	Chapel Hill, NC	Early Stage VC	Developer of gene therapies for treating monogenic disorders. The company specializes in developing therapeutic reagents to treat diseases related to central nervous system and neuromuscular diseases.	49.47	CureDuchenne
Rio Grande Neurosciences	10-Feb-16	San Francisco, CA	Angel	Developer of therapeutic devices for traumatic brain injuries. The company engages in the development of electrotherapeutics for neurological applications and treatment of neurodegenerative diseases.	4.53	Undisclosed
MiRTLE Medical	10-Feb-16	North Andover, MA	Angel	Operator of a biotechnology company. The company offers monitoring devices for patients undergoing an MRI scan.	0.03	Undisclosed
Lantern	10-Feb-16	San Francisco, CA	Early Stage VC	Provider of an online mental health wellness services. The company provides personalized online programs coached by experienced professionals to strengthen the mental health.	17.00	UPMC
Hemovent	10-Feb-16	Aachen, Germany	Early Stage VC	Developer of the ECMO (Extra Corporeal Membrane Oxygenation) unit that supports or replaces heart and lung function in the event of cardiac and respiratory failure.	6.00	MIG Verwaltungs
Halo Neuroscience	10-Feb-16	San Francisco, CA	Early Stage VC	Developer of neurotechnologies to help unlock human potential. The company is the developer of a device that uses pulses of energy to stimulate brain neurons, potentially leading to effects such as accelerated learning or improved body movement control. The company's product is designed for use by professional athletes and stroke rehabilitation.	9.00	Lux Capital
BiOptix Diagnostics	10-Feb-16	Boulder, CO	Later Stage VC	Developer of a biomolecule detection system. The company provides E-SPR (Enhanced Surface Plasmon Resonance) technology platform for the detection of molecular interactions.	1.66	Undisclosed
ARMO BioSciences	10-Feb-16	Redwood City, CA	Later Stage VC	Developer of immunotherapeutics. The company is a clinical-stage enterprise developing immunotherapies focused on multiple, difficult-to-treat oncology indications.	50.00	Kleiner Perkins Caufield & Byers, OrbiMed, DAG Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Andas	10-Feb-16	Minneapolis, MN	Angel	Developer of a breathalyzer technology. The company provides a technology that communicates an accurate level of intoxication via breath analysis through smart phones.	0.65	Undisclosed
Vigilant Biosciences	9-Feb-16	Fort Lauderdale, FL	Angel	Developer of a medical technology for detection of cancer. The company offers a technology to detect oral cancers at an early stage and improve overall survival rates.	3.24	Undisclosed
SwervePay	9-Feb-16	Lake Villa, IL	Early Stage VC	Provider of cloud based information technology services. The company offers a mobile payment platform, electronic invoicing, payment plans, customer integration software and virtual point of sale services.	10.00	Garland Capital Group
HealthBeacon	9-Feb-16	Dublin, Ireland	Seed Round	Provider of a treatment compliance monitoring tool. The company offers a device that monitors medical adherence of patients who use self-injectable medications at home. It also offers a medical waste bin to dispose the needles.	1.30	Enterprise Ireland
Genotek	9-Feb-16	Moscow, Russia	Angel	Provider of services related to genome sequencing and DNA testing. The company delivers genetic and DNA tests which prevents inherited diseases, and helps to plan pregnancy in women and also provides a platform to check the results of the DNA tests online.	2.00	Alexander Voloshin, Maxim Basov
First Stop Health	9-Feb-16	Chicago, IL	Seed Round	Provider of an online health care concierge service. The company offers 24/7 services to consult with primary care physicians and board-certified specialists. Members can talk to a doctor to obtain medical information, medical advice, diagnosis and prescriptions from common conditions.	2.10	Tim Shumacher, other undisclosed
Eximis Surgical	9-Feb-16	Louisville, CO	Angel	Developer and supplier of medical and surgical devices to hospitals and clinics for using them in invasive surgical procedures.	1.00	Undisclosed
Endoshape	9-Feb-16	Idaho Springs, CO	Later Stage VC	Developer of polymer-based vascular embolization products. The company provides embolization products for the treatment of serious clinical conditions. The company's function is to commercialize novel medical devices based on its proprietary polymer technology, with a focus on the coil embolization and occlusion market.	7.10	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Biodesix	9-Feb-16	Boulder, CO	Later Stage VC	Developer of multivariate protein diagnostics based on a mass spectrometry-based discovery platform. The company provides VeriStrat, a pretreatment serum testing tool that helps oncologists select between erlotinib and single-agent chemotherapy for advanced lung cancer patients.	17.76	Undisclosed
Amplix Pharmaceuticals	9-Feb-16	San Diego, CA	Later Stage VC	Developer of oral and injectable anti-infective drugs, including protease inhibitors and antibiotics.	49.20	RiverVest Venture Partners
Via Surgical	8-Feb-16	Amirim, Israel	Angel	Developer of a mesh fixation device needed for a hernia repair procedure. The company develops a suture like mesh fixation device that enables durable and easy fixation of soft tissue prosthetics (including hernia mesh products) for a variety of procedures. The company's product, SutureLAP™, reduces the risk of hernia recurrence.	6.00	Bensile
Veristride	8-Feb-16	Salt Lake City, UT	Angel	Provider of a movement analytics system. The company offers an integrated shoe insole analysis system that gives users their own information about their movement abilities, including real-time information and feedback.	1.00	Undisclosed
Velano Vascular	8-Feb-16	San Francisco, CA	Early Stage VC	Developer of blood drawing devices for hospitals. The company develops a needle free device that reduces pain and discomfort for patients while drawing blood.	3.50	First Round Capital, White Owl Capital, Kapor Capital
Revitope Oncology	8-Feb-16	San Francisco, CA	Angel	Developer of a cancer immunotherapy. The company develops a technology which redirects existing viral immune response to target the tumor cell and treat cancer.	8.50	Undisclosed
Golo	8-Feb-16	Bear, DE	Angel	Developer of weight-loss management medicines and tablets.	2.45	Undisclosed
