

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Adagene (Suzhou)	29-Jan-16	Jiangsu, China	Early Stage VC	Provider of antibody engineering technologies. The company designs technology to generate, engineer and produce human antibodies.	28.00	GP Healthcare Capital
4G Clinical	29-Jan-16	Boston, MA	Early Stage VC	Provider of randomization and trial supply management (RTSM) platform for clinical trials. The company's RTSM platform supports critical aspect of most Phase 2 and 3 clinical trials and reduces the time to commercialize vital medications.	2.50	Schooner Capital
Vanrx	28-Jan-16	Burnaby, Canada	Later Stage VC	Manufacturer of aseptic filling machines. The company provides isolated robotics for the pharmaceutical industry to produce injectable medicines.	1.50	Export Development Canada
BayLabs	28-Jan-16	San Francisco, CA	Seed Round	Developer of software for the diagnosis of rheumatic heart disease using deep learning. The company develops technology to simplify the process of recording, editing and sharing of video using intelligent video analysis and user modeling and increasing the access to medical imaging.	2.50	Khosla Ventures
Accuronix Therapeutics	28-Jan-16	Dover, DE	Early Stage VC	Developer of cancer treatment technology to treat difficult types of cancer, such as pancreatic cancer.	0.63	BioGenerator
Tarveda Therapeutics	27-Jan-16	Watertown, MA	Later Stage VC	Developer of integrative combination medicines. The company is discovering and developing Pentarins as a new class of targeted anti-cancer medicines to advance the treatment of patients with solid tumor cancers.	38.00	Novo, New Enterprise Associates
NeXtGen Biologics	27-Jan-16	Gainesville, FL	Seed Round	Manufacturer of ECM biomaterial products. The company provides optimized clinical benefits and focuses on neurosurgery and orthopedics.	1.27	Mark Hamister, Elad Levy
Neurotrack	27-Jan-16	Palo Alto, CA	Early Stage VC	Developer of behavioral biomarkers to assist with the diagnosis of Alzheimer's disease. The company has developed a visual cognitive test that is sensitive to damage in the brain regions first impacted by Alzheimer's disease. The test, which is under study, is designed to help predict cognitive decline associated with the disease 3 to 6 years before the onset of symptoms.	6.50	Khosla Ventures

### Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Intelomed	27-Jan-16	Wexford, PA	Later Stage VC	Provider of non-invasive systems for measuring cardiac health. The company engages in the development and distribution of medical devices for monitoring cardiovascular stability in real-time.	1.86	Undisclosed
CosmosID	27-Jan-16	Rockville, MD	Later Stage VC	Developer of a metagenomic microbial identification platform. The company provides fast identification of pathogens and commensal flora to sub species or strain level, comprehensive profiles of microbial community resistance and virulence and highly sensitive relative abundance predictions for all microorganisms in a sample.	6.00	Applied Value Group
Adicet Bio	27-Jan-16	New York, NY	Early Stage VC	Developer and designer of immunotherapies derived from human cells for treatment of cancer and other diseases.	51.00	OrbiMed Advisors
Pulse Therapeutics	26-Jan-16	St. Louis, MO	Later Stage VC	Developer of vascular drug delivery devices for blood clots in stroke patients.	10.00	NanoDimension
Photosonix Medical	26-Jan-16	Ambler, PA	Seed Round	Developer of a skin acne treatment device. The company offers an energy-based therapy device used to treat acne bacteria.	1.41	Princeton BioPharma Capital Partners
Minnetronix	26-Jan-16	St. Paul, MN	PE Growth/Expansion	Provider of medical technology and innovation services. The company is engaged in the design, engineering and manufacturing of electronic and electromechanical medical devices and technologies.	20.00	Altaris Capital Partners
Inivata	26-Jan-16	Cambridge, United Kingdom	Early Stage VC	Provider of cancer treatment services. The company operates a clinical cancer genomics company focused on harnessing the potential of circulating tumor DNA analysis to improve cancer testing and treatment.	47.28	Woodford Patient Capital Trust, Imperial Innovations, Cambridge Innovation Capital
GTX Surgery	26-Jan-16	Evanston, IL	Angel	Developer of surgical simulator systems for mobile devices using video game technologies.	2.15	Undisclosed
Exagen Diagnostics	26-Jan-16	Albuquerque, NM	Later Stage VC	Developer of genomic-marker tests for the diagnosis and prognosis of connective-tissue diseases, including lupus and rheumatoid arthritis. The company's lead test, SLE+, rules out Systemic Lupus Erythematosus and provides results on 14 other connective-tissue disease markers.	101.66	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Codiak BioSciences	26-Jan-16	Woburn, MA	Early Stage VC	Developer of exosomes for diagnostics in cancer and other diseases. The company is developing exosomes, natural vesicles that mediate inter-cellular communication, as both therapeutics and diagnostics in cancer and other diseases.	92.00	ARCH Venture Partners, Flagship Ventures
Sensor-Kinesis	25-Jan-16	Los Angeles, CA	Angel	Provider of smart sensing technology services. The company's technology targets the earliest-stage detection of pathogens and viruses to enable better prevention, treatment and cure of many disease modalities.	0.89	Undisclosed
SeNostic	25-Jan-16	Braunschweig, Germany	Seed Round	Developer of novel technologies for the diagnosis of diseases of the central nervous system. The company develops an innovative laboratory process for the diagnosis of neurodegenerative diseases including Alzheimer's disease, Parkinson's disease and dementia with Lewy-bodies.	Undisclosed	High-Tech Gründerfonds
RetraceHealth	25-Jan-16	Minneapolis, MN	Early Stage VC	Provider of an online platform that connect patients to medical providers. The company's services include preventive care, pediatric care and diagnostic testing.	0.98	Blue Cross and Blue Shield of Minnesota, HealthEast Care System, McKesson Ventures
Kannact	25-Jan-16	Portland, OR	Angel	Developer of patient monitoring technologies. The company offers a tablet-based healthcare collaboration tool that allows providers, caregivers and patients to interact. It also enables video conferencing, home-based vitals monitoring, offline texting and chatting and patient education.	5.97	Undisclosed
Clario	25-Jan-16	Seattle, WA	Later Stage VC	Developer of workflow-efficiency software for radiology enterprises. The company provides service to hospitals, imaging centers and private-practice radiology groups to improve radiologists' efficiency through integration. It also provides multiple online tools, including customer relationship management, digital imaging and communications in medicine software, master patient index and a collaboration portal.	0.19	Undisclosed

### Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
CARsgen Therapeutics	25-Jan-16	Shanghai, China	Early Stage VC	Developer of novel cell-based immunotherapies using T cells to treat solid tumors. The company develops novel chimeric antigen receptor T cell (CAR-T) therapeutics to fight against tumors with a perspective to cure cancer.	30.00	KTB Ventures, Jolly Innovation Ventures
Microbion	22-Jan-16	Bozeman, MT	Angel	Developer of antimicrobial therapeutics for the treatment of bacterial infection. The company develops bismuth-thiols to prevent microbial biofilms from forming on medical devices implanted in the body.	5.86	Undisclosed
L&C Pharma	22-Jan-16	Charlottesville, VA	Early Stage VC	Developer of adenosine-based pharmaceutical products for the treatment of autoimmune diseases and other conditions.	0.03	Undisclosed
D-Eye	22-Jan-16	Padova, Italy	Early Stage VC	Designer and manufacturer of sensing and examination devices. The company develops a portable retinal imaging system which can be attached to the user's mobile and enables screening and diagnosis of eye-related problems.	1.63	Invitalia Ventures
Convergent Dental	22-Jan-16	Natick, MA	Early Stage VC	Developer of a computer-guided tooth preparation system. The company is a dental equipment and technology company and developer of Solea, a computer-aided, CO2 laser system for both hard and soft tissue indications.	20.92	Long River Ventures
Akili Interactive Labs	22-Jan-16	Boston, MA	Early Stage VC	Developer of mobile video games for cognitive therapy and treatment. The company's product helps improve conditions like depression or attention deficit disorder.	30.50	PureTech Ventures
Vasopharm	21-Jan-16	Wuerzburg, Germany	Later Stage VC	Discoverer and developer of novel therapeutics for the treatment of cerebrovascular diseases. The company is developing small molecule therapeutics which modulate the bioavailability of biological NO, by addressing the entire NO/cGMP signal cascade and its functional counterpart NOX.	21.77	Entrepreneurs Fund, Heidelberg Capital Private Equity, Fort Rock Capital
Treventis	21-Jan-16	Toronto, Canada	Accelerator/ Incubator	Developer of disease-modifying small molecule drugs for early stage treatment of Alzheimer's disease. The company also develops diagnostics for treatment of Alzheimer's disease and other major neurodegenerative disorders.	0.10	Innovacorp

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Synoste	21-Jan-16	Espoo, Finland	Later Stage VC	Provider of equipment for the treatment of skeletal deformities. The company manufactures medical devices for limb-lengthening procedures designed to lower the rate complications and enable faster recovery.	Undisclosed	Evonik venture capital, High-Tech Gründerfonds Management, Finnvera
River Vision Development	21-Jan-16	New York, NY	Early Stage VC	Developer of protein therapy for the treatment of Graves' Orbitopathy, which is a condition afflicting a proportion of Graves' Disease patients.	5.00	Undisclosed
PrimeGen Biotech	21-Jan-16	Santa Ana, CA	Angel	Provider of patient therapies using adult and embryonic stem cells. The company engages in research and therapeutic applications of adult stem cells for individualized patient therapies and various other diseases and injuries including Alzheimer's disease, cardiac disease, diabetes, lupus, multiple sclerosis, leukemia, muscular dystrophy, Parkinson's disease, rheumatoid arthritis, spinal cord injury, autoimmune disease, stroke, skin regeneration and wound healing.	1.03	Undisclosed
MesDocteurs	21-Jan-16	Marseille, France	Early Stage VC	Provider of an application for health-based advice. The company's application enables users to ask a doctor a question anonymously or to talk to a doctor online via its website or mobile application.	1.31	Omnes Capital, Partech Ventures, other undisclosed
Leanvation	21-Jan-16	Saint Helens, United Kingdom	Early Stage VC	Manufacturer of latex free surgical gloves for medical surgeons to eliminate the possibility of causing an allergy.	Undisclosed	Finance Wales
BioTheranostics	21-Jan-16	San Diego, CA	Later Stage VC	Developer of molecular-based diagnostic, prognostic and predictive tests for treatment of patients with cancer. The company develops new diagnostic technologies for molecular cancer profiling.	32.00	MVM Life Science Partners
Biodesy	21-Jan-16	South San Francisco, CA	Later Stage VC	Developer of technology to analyze proteins for research and clinical applications. The company is developing technology to rapidly and inexpensively measure protein structure and function in real time, with applications that include drug discovery, structural biology and clinical biomarkers.	10.00	5AM Ventures, Pfizer Venture Investments, Roche Venture Fund

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Abviris	21-Jan-16	Huenfelden, Germany	Early Stage VC	Developer of a test for oral cancer screening. The company offers PrevO-Check, an in-vitro diagnostic tool for the diagnosis of HPV-induced mouth and throat cancer.	Undisclosed	High-Tech Gründerfonds, Mittelständische Beteiligungsgesellschaft Schleswig-Holstein
VitreosHealth	20-Jan-16	Plano, TX	PE Growth/Expansion	Provider of insights-as-a-service (IaaS) using on-demand predictive population analytics for population health management. The company helps customers identify and stratify high risk patients, design tailor-made care management programs and measure the financial impact of their care management programs.	5.15	Kinderhook Industries
Peptilogics	20-Jan-16	Pittsburgh, PA	Angel	Provider of therapeutic and drug discovery based services. The company has a technology platform for designing novel peptide antibiotics that inactivate drug-resistant bacteria for rapid selection and development of peptides for multiple applications and shortens the time required for the delivery process.	0.42	Undisclosed
LogicBio Therapeutics	20-Jan-16	Foster City, CA	Angel	Developer of gene therapy vectors for previously incurable genetic and infectious diseases.	4.00	Undisclosed
Lincor	20-Jan-16	Nashville, TN	Later Stage VC	Provider of point of care computing services for hospitals and the healthcare industry. The company provides a MEDIVista platform to secure image archiving, integration to communication, medical records and hospital management systems for hospitals and healthcare service providers.	1.91	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Twist Bioscience	19-Jan-16	San Francisco, CA	Later Stage VC	Provider of synthetic DNA analysis, biodetection, functional genomics and genome engineering. The company specializes in DNA synthesis and is also involved in drugs and biodefense.	76.05	Merieux Developpement, Cormorant Asset Management, Fidelity Management and Research Company, Foresite Capital Management WuXi Healthcare Ventures, Illumina, Tao Invest, Paladin Capital Group, Yuri Milner, Boris Nikolic, Silicon Valley Bank, other undisclosed
Toltec Pharmaceuticals	19-Jan-16	Chicago, IL	Angel	Operator of a medical research and development firm. The company deals with the development of therapeutics for the treatment of lower reproductive tract infection.	4.03	Undisclosed
Podimetrics	19-Jan-16	Somerville, MA	Early Stage VC	Developer of mats for prevention of diabetic foot ulcers. The company's patent-pending technology aims to detect these ulcers before they develop, allowing for timely, inexpensive treatment.	3.79	Undisclosed

### Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
National HME	19-Jan-16	Richland Hills, TX	PE Growth/Expansion	Provider of home medical equipment services. The company is a provider of outsourced medical equipment management services to the hospice market. It also offers respiratory equipment, including oxygen concentrators and cylinders and mobility equipments, commode, shower chairs and gastric suction equipment.	10.80	Undisclosed
CerviLenz	19-Jan-16	Chagrin Falls, OH	Later Stage VC	Producer of devices for preterm birth prevention. The company offers a disposable device that is used to identify women for a diagnostic TVU exam and vaginal progesterone treatment to reduce the risk of preterm birth.	4.26	Undisclosed
Morphogen-IX	18-Jan-16	Cambridge, United Kingdom	Seed Round	Developer of bone morphogenetic protein receptors. The company is engaged in the development of drug candidates for the treatment of pulmonary arterial hypertension.	2.25	Index Ventures
Medico	18-Jan-16	Jakarta, Indonesia	Seed Round	Developer of hospital management software. The company provides healthcare management tools for the pharmacy, bedding and effective service to their customers.	Undisclosed	Index Ventures
Centauri Therapeutics	18-Jan-16	Sandwich, United Kingdom	PE Growth/Expansion	Operator of a biotechnology company. The company focuses on the discovery and development of novel molecules targeting life threatening diseases.	4.50	Animatrix Capital, Discovery Park, other undisclosed
BioPoly	18-Jan-16	Fort Wayne, IN	Later Stage VC	Manufacturer of orthopedic devices for the sports medicine and spinal markets. The company develops a femoral condyle partial resurfacing device that is implanted utilizing a reusable instrument kit for the replacement of focal osteochondral defects in the knee.	0.30	Undisclosed
Adaptive Sensory Technology	17-Jan-16	Boston, MA	Angel	Developer of sensor technologies. The company develops various tools and platforms to monitor, measure and assess health of their patients.	1.00	Undisclosed
Theraworx	15-Jan-16	Asheville, NC	Later Stage VC	Provider of therapeutic skin care products. The company manufactures products that include specialty care packs for peri-care prior to foley catheter insertion and on-going foley maintenance.	5.24	Undisclosed
Stealth Therapeutics	15-Jan-16	Madison, WI	Later Stage VC	Developer of micro-invasive intravenous port products.	0.07	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Grand River Aseptic Manufacturing	15-Jan-16	Grand Rapids, MI	Later Stage VC	Manufacturer of clinical trial materials for the pharmaceutical industry. The company caters to the bio-pharmaceutical sector and offers product formulation and microbiological testing services.	0.35	Undisclosed
Vesiflo	14-Jan-16	Redmond, WA	Angel	Manufacturer of medical devices for urinary bladder drainage. The company offers inFlow intraurethral valve-pump that helps women suffering from impaired detrusor contractility to push urine out of the bladder.	0.05	Undisclosed
Phyzit	14-Jan-16	Little Rock, AR	Angel	Provider of transitional care management services and offers technology in healthcare departments for communication with physicians through web as well as mobile.	0.20	Undisclosed
Ocumove	14-Jan-16	Vejle, Denmark	Early Stage VC	Developer of a sleep analysis device to treat psychiatric disorders. The company offers a medical device that detects sleep stages of the patients suffering from depression and neuro-degenerative diseases.	0.87	Welfare Tech Invest, SEED Capital Denmark, VIA University College
heartbeat ONE	14-Jan-16	Berlin, Germany	Early Stage VC	Developer of software products for hospitals and medical practices. The company provides a streamlined patient management tool for health care facilities of all sizes and offers intelligent evaluations of diagnostics and treatment methods.	Undisclosed	High-Tech Gründerfonds, DocCheck
Epinex Diagnostics	14-Jan-16	Tustin, CA	Angel	Developer of a test for monthly diabetes monitoring (G1A test). The company provides a platform for rapid tests uses existing technologies to create quantitative diagnostic tests for the point-of-care and over-the-counter markets.	2.17	Undisclosed
Call9	14-Jan-16	Palo Alto, CA	Early Stage VC	Developer of an online medical assistance application. The company develops a mobile application that connects doctors with patients in need of urgent care via video chat.	10.00	Index Ventures
20/20 GeneSystems	14-Jan-16	Rockville, MD	Later Stage VC	Developer of proprietary diagnostics tests that aid in the fight against cancer. The company focuses on identification, validation and commercialization of novel protein biomarkers useful for early detection of lung cancer and for guiding the selection and administration of therapy.	4.50	Ping An Ventures

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Target PharmaSolutions	13-Jan-16	Chapel Hill, NC	Angel	The company performs clinical information research for diseases caused by Hepatitis C.	0.64	Undisclosed
Stemgenics	13-Jan-16	Seattle, WA	Angel	Owner and operator of a biotechnology company for skin treatment. The company offers regeneration of a variety of tissues of the human body to convert mature cells into personalized stem cells.	0.93	Undisclosed
Savioke	13-Jan-16	Santa Clara, CA	Early Stage VC	Developer of autonomous robotic technology in human environment and creates autonomous robot helpers and applications for hotels, elder-care facilities, hospitals and restaurants.	15.00	Intel Capital
Horus Technology	13-Jan-16	Genoa, Italy	Early Stage VC	Developer of technologies for blind people. The company offers Horus, a wearable device, and Blind.tech, a website that offers navigational assistance, text reading and facial recognition services to visually impaired people.	0.90	5Lion Holdings
BeHealth Solutions	13-Jan-16	Charlottesville, VA	Angel	Provider of digital health care services. The company offers an online program that helps to address behavioral and mental health concerns.	1.90	Undisclosed
Tmunity Therapeutics	12-Jan-16	Philadelphia, PA	Early Stage VC	Developer of products to unleash the immunological potential of T cells. The company is developing novel T Cell Receptor engineered T cells, regulatory T cells, and universal engineered T cell platforms that exhibit best-in-class control over T cell activation and direction, as well as proprietary technologies to activate, expand, and genetically engineer T cells from peripheral blood, cord blood, and tumors.	10.00	Penn Medicine, Lilly Asia Ventures
Syros Pharmaceuticals	12-Jan-16	Cambridge, MA	Early Stage VC	Developer of medicines that control the expression of genes. The company has developed a proprietary gene control platform that provides lens to identify crucial genes that become dysregulated in diseased cells.	40.00	Deerfield Management
Syapse	12-Jan-16	Palo Alto, CA	Later Stage VC	Developer of software applications to accelerate biology-based research and product development. The company is focused on sequencing technology to diagnose and treat medical patients.	25.00	Ascension Ventures
Stemnion	12-Jan-16	Pittsburgh, PA	Later Stage VC	Operator of a medical company for research and development services of therapeutic products entering human trials.	1.71	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Standard Cyborg	12-Jan-16	San Francisco, CA	Angel	Manufacturer of 3D printed prosthetic legs. The company offers prosthetic legs for amputees that can be used for various water applications.	Undisclosed	Michael Stoppelman, Michael Staton, Charlie Pinto, Kenneth Ballenegger
NantHealth	12-Jan-16	Culver City, CA	Later Stage VC	Provider of cloud-based intelligent clinical operating systems. The company offers a platform that reduces the administrative time and tasks associated with obtaining preauthorization.	52.50	Undisclosed
Kodiak	12-Jan-16	Palo Alto, CA	Later Stage VC	The company specializes in the research and development of medicines for the treatment of eye diseases.	34.00	Undisclosed
Hapten Sciences	12-Jan-16	Memphis, TN	Early Stage VC	Developer of pharmaceutical ingredients for healthcare industries. The company produces various early-stage products which are used for preclinical studies and drug discovery.	3.00	Undisclosed
Docent Health	12-Jan-16	Boston, MA	Seed Round	Developer of software and mobile applications for patient record monitoring. The company is developing a software that will help organize and monitor every aspect of a patient's visit.	2.10	Bessemer Venture Partners, New Enterprise Associates, Maverick Capital Ventures
V-Wave	11-Jan-16	Caesarea, Israel	Later Stage VC	Developer of percutaneous implantable devices, such as unidirectional inter-atrial shunt for treating patients with chronic heart failure.	28.00	Johnson & Johnson Innovation, TriVentures, Pure Vida Investments
Talix	11-Jan-16	San Francisco, CA	Early Stage VC	Developer and provider of patient data analytics technology for risk adjustment challenges. The company's patient data analytics technology enables healthcare provider organizations to turn complex health data into actionable insights that drive improved risk adjustment.	14.00	Investor Growth Capital, VantagePoint Capital Partners, Reed Elsevier Ventures

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Piedmont Stone Center	11-Jan-16	Winston-Salem, NC	Angel	Provider of a non-surgical treatment for kidney stones. The company utilizes the mobile lithotripter to provide non-surgical treatment using Extracorporeal Shock Wave Lithotripsy of kidney stones to their patients.	0.12	Undisclosed
Iconic Therapeutics	11-Jan-16	South San Francisco, CA	Later Stage VC	Developer of proprietary I-cons, proteins that trigger the immune system to target and destroy unwanted cells in the body.	40.00	HBM Healthcare Investments, Cormorant Asset Management, Osage University Partners
Higi	11-Jan-16	Chicago, IL	Early Stage VC	Provider of health and wellness tracking stations. The company is a consumer-centric health engagement company that provides stations for tracking health data across retail stores and corporate wellness sites. It also offers a website and mobile application for health tracking at home.	40.00	Undisclosed
Heuresis	11-Jan-16	Newton, MA	Early Stage VC	Provider of research and technology development services with expertise in x-ray physics and the design of innovative analytical devices.	2.71	Undisclosed
Healthline Networks	11-Jan-16	San Francisco, CA	Later Stage VC	Provider of health information and technology services. The company enables providers and everyday people to make informed healthcare decisions. It is a consumer health site that helps blue-chip pharmaceutical firms reach consumers through content marketing, branded campaigns and targeted display advertising.	95.00	Summit Partners
Genewiz	11-Jan-16	South Plainfield, NJ	Later Stage VC	Provider of genomics and DNA sequencing services. The company engages in DNA sequencing, gene synthesis, molecular biology, next generation sequencing, bioinformatics and GLP regulatory services.	Undisclosed	OrbiMed Advisors
BrainMD	11-Jan-16	Arlington, VA	Angel	Developer of a brain optimization system. The company offers interactive EEG assessment with the help of BrainMD that identifies and measures neurophysiological markers in the brain that affect an individual's focus, memory, emotions, stress, sleep, and energy.	0.20	Undisclosed

### Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Ancera	11-Jan-16	Branford, CT	Early Stage VC	Developer of a portable sample preparation technology platform. The company's platform is for the separation, concentration and manipulation of various pathogens, cells and intracellular matter from whole blood or other complex background matrices.	1.09	Undisclosed
Aelix Therapeutics	11-Jan-16	Barcelona, Spain	Early Stage VC	Developer of a new therapeutic vaccine for HIV.	12.52	Ysios Capital
Bamboo Therapeutics	10-Jan-16	Chapel Hill, NC	Early Stage VC	Developer of gene therapies to treat diseases related to the central nervous system and neuromuscular diseases.	Undisclosed	CureDuchenne
Zipline Medical	8-Jan-16	Campbell, CA	Later Stage VC	Provider of non-invasive wound-care technology. The company creates skin-closure devices with applications for surgery as well as laceration care, eliminating the need for sutures or staples.	20.00	MVM Life Science Partners
ZAI Lab	8-Jan-16	Shanghai, China	Early Stage VC	Developer of drugs. The company obtains global rights to develop novel drugs from established pharmaceutical companies.	100.00	Advantech Capital
Nano Pharmaceutical Laboratories	8-Jan-16	Centennial, CO	Angel	Manufacturer of wholesale products for pharmaceutical industries.	1.20	Undisclosed
Bruin Biometrics	8-Jan-16	Los Angeles, CA	Angel	Developer of biometric sensor-based medical devices. The company has developed a hand-held, portable, skin-assessment device that detects early, pressure-induced tissue damage, including pressure ulcers and deep tissue injuries.	9.00	Undisclosed
Xeris Pharmaceuticals	7-Jan-16	Austin, TX	Early Stage VC	Developer of a glucagon rescue pen for emergency treatment of severe hypoglycemia. The company develops injectable drugs based on its non-aqueous Xeriject and XeriSol formulation and delivery platforms.	41.00	Redmile Group
Restoration Robotics	7-Jan-16	San Jose, CA	Later Stage VC	Developer of robotic surgery systems for hair transplants using image-guided robotic technology to perform hair restoration by emulating the FUE technique.	4.82	Undisclosed
Photolitec	7-Jan-16	Clarence, NY	Angel	Developer of photosensitizing compounds for identifying cancer through medical imaging.	5.00	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Myomo	7-Jan-16	Cambridge, MA	Later Stage VC	Provider of a robotics technology with an advanced human machine interface. The company develops an arm brace designed to assist victims of stroke to move their upper limbs with sensors that detect biological signals to damaged nerves and translate them into movement.	0.62	Undisclosed
Molecubes	7-Jan-16	Gent, Belgium	Seed Round	Provider of benchtop preclinical imaging systems. The company builds preclinical imaging cubes allowing users to combine SPECT, PET and CT imaging in any lab space.	2.07	QBIC, Patrick Keereman
Minerva Surgical	7-Jan-16	Redwood City, CA	Later Stage VC	Developer of medical devices for the treatment of abnormal uterine bleeding. The company develops an endometrial ablation device that treats excessive menstrual bleeding using RF Argon Plasma Energy stored in a balloon.	15.00	Undisclosed
LifeTime	7-Jan-16	Hamburg, Germany	Seed Round	Provider of a digital health application that connects patient to the doctors. The company offers a platform that enables users to store and manage their health data digitally and import reports or x-rays directly after medical consultations.	Undisclosed	Innovationsstarter Hamburg, High-Tech Gründerfonds, Nikolaus Schumacher
iQuity Labs	7-Jan-16	Nashville, TN	Seed Round	Developer of novel diagnostic tests for autoimmune and other conditions.	2.00	Undisclosed
Exosome Diagnostics	7-Jan-16	Cambridge, MA	Later Stage VC	Developer of blood-based cancer molecular diagnostics for patient stratification and disease monitoring. The company develops biofluid-based molecular diagnostic tests for use in personalized medicine.	32.91	Forbion Capital Partners, NGN Capital, CD Ventures
Elastagen	7-Jan-16	Sydney, Australia	Later Stage VC	Operator of a medical device company. The company engages in the production and formulation of synthetic human elastin products for medical device applications.	9.42	Korea Investment Partners, AMOREPACIFIC Ventures, Wellcome Trust

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Doximple	7-Jan-16	Reston, VA	Angel	Developer of an online referral network that matches healthcare consumers and small businesses with cash-based providers. The company develops an online referral network through which the user can search for physicians for a specific ailment and compare their rates and reviews as given by other users.	0.06	Undisclosed
Cour Pharmaceutical Development Company	7-Jan-16	Elmhurst, IL	Angel	Provider of nanotechnology-based immune therapeutics. The company offers nano-biological therapeutics for acute inflammation, autoimmunity and allergic conditions. It also engages in pharmaceutical development of immunology, pathology and cardiovascular medicinal products.	0.17	Undisclosed
Circle Pharma	7-Jan-16	South San Francisco, CA	Seed Round	The company employs computational design and synthetic chemistry to develop potent, specific and cell permeable macrocyclic peptides against important therapeutic targets.
