

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Bioventus (BIOV)	30-Jun-2016	Durham, NC	Developer of ultrasound bone growth stimulators/bone healing systems, osteoarthritis pain treatments/joint fluid therapies and hyaluronic acid injections.	150.00	Anthony Bihl III
Clearside Biomedical (CLSD)	02-Jun-2016	Alpharetta, GA	The company provides a non-surgical application for dosing drugs to distinct eye tissues, such as retina, trabecular meshwork and corneal stroma, through an ocular micro injection platform.	50.40	Daniel White
Kadmon Corporation (KDMN)	10-Jun-2016	New York, NY	Developer of biopharmaceutical products and services for the treatment and management of hepatitis C.	140.00	Harlan Waksal
Mereo Biopharma (MPH)	09-Jun-2016	London, United Kingdom	Developer and researcher of medicines and pharmaceutical products that focus on acquisition and rapid development of innovative medicines.	21.49	Denise Scots-Knight
Moleculin (MBRX)	02-Jun-2016	Houston, TX	The company offers a therapeutic approach to proliferative skin diseases, including psoriasis, atopic dermatitis, actinic keratosis, and several skin cancers.	9.24	Walter Klemp
NantHealth (NH)	02-Jun-2016	Culver City, CA	Provider of cloud-based intelligent clinical operating systems that reduces the administrative time and tasks associated with obtaining preauthorization.	91.00	Patrick Soon-Shiong
OrthoPediatics (KIDS)	16-Jun-2016	Warsaw, IN	The company's products are used to treat fractures, extension osteotomy/crouch gait, slipped capital femoral epiphysis, rotational limb deformity, femoral ante version correction, tibial torsion correction, unicameral bone cyst and Blount's disease.	75.00	Mark Throdahl
Oventus	16-Jun-2016	Indooroopilly, Australia	Developer of an oral device to treat sleep-disordered breathing. The company offers an oral mouth guard that advances the lower jaw and has a separate airway which delivers air directly to the back of the throat, bypassing the tongue and soft palate.	8.79	Neil Anderson
Selecta Biosciences (SELB)	22-Jun-2016	Watertown, MA	The company's proprietary technology platform of synthetic vaccine particles is a product engine for the durable and antigen-specific treatment of undesired immune responses, focused on three key applications- inhibition of immunogenicity for protein therapies, treatment of allergies and treatment of autoimmune diseases.	70.00	Werner Cautreels

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Sensus Healthcare	03-Jun-2016	Boca Raton, FL	The company engages in the design, manufacturing and marketing of proprietary low energy x-ray radiation technology and superficial radiation therapy to treat non-melanoma skin cancer.	11.00	Joseph Sardano
Syros Pharmaceuticals (SYRS)	30-Jun-2016	Cambridge, MA	Developer of medicines that control the expression of genes. The company has developed a proprietary gene control platform that provides lens to identify crucial genes that become dysregulated in diseased cells.	50.00	Nancy Simonian

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
3DBiopsy	23-Jun-2016	Aurora, CO	Angel (individual)	The company 3D imaging technology that enables medical practitioners to diagnose and treat patients suspected of having prostate cancer.	1.35	Undisclosed
AccuraGen	02-Jun-2016	Menlo Park, CA	Early Stage VC	The company provides a mutation detection system, with NSG based technology, using circulating DNA from blood samples for cancer molecular diagnosis.	40.00	Decheng Capital, StartX, Junson Capital
Acera Surgical	01-Jun-2016	St. Louis, MO	Angel (individual)	Developer of implantable electrospun neurosurgical meshes and related tools and accessories.	Undisclosed	Undisclosed
Adhesys Medical	21-Jun-2016	Aachen, Germany	Accelerator/Incubator	Manufacturer of medicinal adhesives. The company develops and commercializes biodegradable surgical adhesives that can be used on the skin and inside the human body to close wounds.	Undisclosed	MedTech Innovator
Adient Medical	21-Jun-2016	Pearland, TX	Accelerator/Incubator	The company develops absorbable medical devices that do not need to be removed after surgery and can vanish without intervention.	Undisclosed	MedTech Innovator
ADL Gruppe	01-Jun-2016	Munster, Germany	PE Growth/Expansion	The company provides products used in treatment of chronic wounds and ulcers.	Undisclosed	BE Beteiligungen Fonds
Advanced Osteotomy Tools	07-Jun-2016	Allschwil, Switzerland	Later Stage VC	The company develops medical devices for osteotomy pursuing the vision of contact-free bone surgery using laser, robotics and navigation systems to re-invent bone surgery.	8.00	SHS Gesellschaft für Beteiligungsmanagement, Zurcher Kantonalbank
Advantagene	13-Jun-2016	Auburndale, MA	Angel (individual)	The company focuses on preventing the recurrence and progression of cancer through the use of therapeutics in oncology and immunotherapy.	9.96	Undisclosed
Aegle Gear	06-Jun-2016	Chattanooga, TN	Angel (individual)	Provider of health care apparel.	0.75	Undisclosed
Affinity Biosensors	22-Jun-2016	Santa Barbara, CA	Angel (individual)	Developer of particle metrology systems. The company develops analytical instruments for use in research, manufacturing and life sciences based on the company's Resonant Mass Measurement device.	5.26	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
AFFiRiS	23-Jun-2016	Vienna, Austria	Later Stage VC	The company develops customized peptide-based vaccines targeting Alzheimer's disease, Parkinson's disease, atherosclerosis, hypertension and other diseases with unmet medical needs.	11.31	FCPB Affi, Santo Venture Capital, HMW Innovations
AiVita Biomedical	06-Jun-2016	Irvine, CA	Early Stage VC	The company helps to advance commercial and clinical stage programs utilizing curative and regenerative medicines.	2.01	California Technology Ventures
AlBorj Laboratories	06-Jun-2016	Jeddah, Saudi Arabia	PE Growth/Expansion	The company operates as a medical laboratory providing medical laboratory analysis for commercial and medical governmental hospitals, clinics and pharmaceutical companies.	Undisclosed	Investcorp, Jadwa Investment, Swicorp
Alersense	24-Jun-2016	San Mateo, CA	Angel (individual)	The company develops a device that delivers environmental readings on airborne contaminants and toxins, warning asthma and allergy sufferers as particles build.	Undisclosed	Undisclosed
Algaeon	07-Jun-2016	Indianapolis, IN	Early Stage VC	The company produces astaxanthin, an antioxidant, and beta glucan, an immunity-boosting supplement, for the human nutraceutical, functional foods and animal feed markets via a patented algae cultivation system.	0.26	Undisclosed
Allegra Therapeutics	15-Jun-2016	Weil am Rhein, Germany	Early Stage VC	Developer of novel antibiotics to combat Gram-negative bacterial infections.	24.88	Delos Capital
Alpine Immune Sciences	13-Jun-2016	Seattle, WA	Early Stage VC	The company is focused on developing novel protein-based immunotherapies using its proprietary variant immunoglobulin domain (vIgD™) platform technology. It has also developed transmembrane immunomodulatory protein (IIP™) technology, based on vIgD™, for direct applications with engineered cellular therapies.	48.00	OrbiMed Advisors
Alzamend Neuro	22-Jun-2016	Salt Lake City, UT	Angel (individual)	Developer of cell-based therapeutic vaccines as an immunotherapy to prevent or slow down Alzheimer's disease.	Undisclosed	Undisclosed
Amastan Technologies	21-Jun-2016	North Andover, MA	Later Stage VC	The company is involved in the development, commercialization and implementation of plasma technologies for the production and processing of nanomaterials.	2.12	LaunchCapital

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
AnaBios	03-Jun-2016	San Diego, CA	Later Stage VC	The company deploys assays and develops databases for the assessment of ex-vivo human responses to drugs and the investigation of the molecular and functional basis of human physiology.	5.13	Undisclosed
Analytics 4 Life	27-Jun-2016	Toronto, Canada	Angel (individual)	Provider of a cardiac monitoring device. The company uses advanced signal processing techniques for the purposes of identifying and assessing diseases in the coronary artery.	Undisclosed	Undisclosed
Ancera	28-Jun-2016	Branford, CT	Early Stage VC	The company's platform is for the separation, concentration and manipulation of various pathogens, cells and intracellular matter from whole blood or other complex background matrices.	8.90	Glass Capital
Animated Dynamics	13-Jun-2016	Indianapolis, IN	Early Stage VC	The company develops a bio dynamic imaging technology that helps in phenotype drug response mapping in tumor tissue of chemotherapy and detection of diverse cellular motions inside living tissue.	1.70	Caravel Ventures
Annexon Bioscience	23-Jun-2016	South San Francisco, CA	Early Stage VC	Developer of novel disease-modifying drugs to treat neurodegenerative disorders.	44.00	New Enterprise Associates
Antera Therapeutics	01-Jun-2016	Allston, MA	Seed Round	Provider of therapies that prevent allergy development in children and adults.	2.02	RA Capital Management
Applied StemCell	06-Jun-2016	Milpitas, CA	Later Stage VC	The company provides stem cell reagents and drug screening tests for gene-editing and stem cell innovation for research institutions and pharmaceutical companies.	19.00	HerMed Capital
Arkis Biosciences	24-Jun-2016	Knoxville, TN	Early Stage VC	The company provides surgical tools and implantables for advancing the treatments of intracranial hypertension arising from traumatic brain injury, hemorrhagic stroke, hydrocephalus, and similar disorders.	3.40	Innova Memphis
Ashvattha Therapeutics	01-Jun-2016	Redwood City, CA	Angel (individual)	Developer of nano therapies for cerebral palsy.	0.04	Undisclosed
Autonomic Technologies	07-Jun-2016	Redwood City, CA	Later Stage VC	The company engages in the development and commercialization of therapeutic devices for the treatment of severe headaches.	5.04	Undisclosed
AVM Biotechnology	09-Jun-2016	Seattle, WA	Later Stage VC	Developer of stem cell technologies for regenerative medicine, oncology and human biologics.	2.74	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Awarepoint	15-Jun-2016	San Diego, CA	Later Stage VC	Provider of workflow automation and tracking applications to the acute care hospital marketplace. The company provides a real-time location system for management and compliance regarding hospital assets.	1.50	Undisclosed
Axcella Health	07-Jun-2016	Cambridge, MA	Later Stage VC	The company's platform leverages advanced biotechnology tools, typically applied to drug development, that are applied to food to discover pharmacologically active protein nutrients.	112.00	Undisclosed
BBS-Bioactive Bone Substitutes	23-Jun-2016	Oulu, Finland	Later Stage VC	Developer of osteopromotive bone substitute implants based on bone protein extract.	Undisclosed	Finnvera Venture Capital
Bergen Medical Products	16-Jun-2016	Cedar Knolls, NJ	Early Stage VC	A medical device company targeting surgeries in the orthopedics and trauma in emergency departments.	0.67	Undisclosed
BioBots	07-Jun-2016	Philadelphia, PA	Early Stage VC	The company helps scientists in building regenerative medicines and prototype of artificial 3-D tissues using photocurable materials.	1.50	DreamIt Ventures
BioPhotas	23-Jun-2016	Tustin, CA	Angel (individual)	The company develops and sells a light energy medical device to treat various musculoskeletal and skin conditions, including acne, wrinkles and pain.	0.41	Undisclosed
Blade Therapeutics	08-Jun-2016	San Francisco, CA	Early Stage VC	Operator of a drug development company that provides antifibrotic treatment strategies that address a variety of congenital and acquired diseases of fibrosis.	25.60	Deerfield Management
Bullet Biotechnology	28-Jun-2016	Redwood City, CA	Early Stage VC	The company is developing a therapy to fight cancer by training the body to trigger an immune response towards a particular identifier on an individual patient's cancer cells, thereby eliminating these cells as threats.	0.34	Undisclosed
Cardia	30-Jun-2016	Eagan, MN	Angel (individual)	The company develops, manufactures and markets transcatheter septal occluders with the intent to help people with congenital cardiac defects lead happy and healthy lives.	0.75	Undisclosed
Cascade Prodrug	03-Jun-2016	Eugene, OR	Later Stage VC	The company develops drug candidates which are prodrug derivatives of vinca alkaloid compositions with promising activity for treating hyper-proliferative disorders.	0.35	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Catacore	24-Jun-2016	West Richland, WA	Angel (individual)	Provider of non-surgical treatment for cataracts.	0.03	Undisclosed
Cell Design Labs	16-Jun-2016	San Francisco, CA	Early Stage VC	The company develops disruptive cell-based therapies for cancer and other diseases. It leverages the power of the body's immune system to develop therapies with the capability to treat diseases.	22.89	Kleiner Perkins Caufield and Byers
Centrillion Technologies	10-Jun-2016	Palo Alto, CA	Later Stage VC	The company is a developer and provider of genomic and bioinformatics tools and services that analyze technology for personalized medicine, life sciences research and bioinformatics.	27.10	Undisclosed
Cerium Pharmaceuticals	27-Jun-2016	Gaithersburg, MD	Angel (individual)	Operator of a biopharmaceutical company for developing and commercializing medicines, namely orphan drugs, for rare and ultra-rare diseases.	2.27	Undisclosed
Certa Dose	08-Jun-2016	Denver, CO	Seed Round	The company helps in reducing and eliminating the errors in pediatric medicine dosing and provides certainty during emergencies and other life-altering situations.	0.55	Undisclosed
CircleLink Health	14-Jun-2016	Stamford, CT	Early Stage VC	The company's technology provides a communication system for healthcare practitioners to monitor patients and intervene to ensure the patients adhere to their prescribed care plans.	0.99	DreamIt Ventures
Clarify Health Solutions	09-Jun-2016	San Francisco, CA	Angel (individual)	Provider of a collaborative healthcare platform that enables patients and their families to understand the different steps of treatment and recovery.	3.00	Undisclosed
CoDa Therapeutics	13-Jun-2016	San Diego, CA	Later Stage VC	Developer of wound care and tissue repair therapeutics based on gap junction modulation.	0.75	Undisclosed
Common Sensing	16-Jun-2016	Cambridge, MA	Early Stage VC	The company offers a hardware- and software-based medical device that records a person's insulin intake information and transmits the data to mobile phones or glucose meters.	1.65	Undisclosed
Cor (Wellness)	21-Jun-2016	San Francisco, CA	Accelerator/ Incubator	The company's device helps users track and maintain their fitness by measuring and providing them with insights from key health indicators like cholesterol, blood pressure and blood glucose.	Undisclosed	MedTech Innovator

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Cordata Healthcare Innovations	13-Jun-2016	Cincinnati, OH	Early Stage VC	The company specializes in providing data driven insights, mobile screening programs and direct patient engagement by enabling patients to connect to hospitals and healthcare organizations for cost effective treatments.	2.09	Undisclosed
CRISPR Therapeutics	24-Jun-2016	Cambridge, MA	Early Stage VC	Developer of transformative gene-based medicines for patients with serious diseases.	140.00	Vertex Pharmaceuticals, Bayer Group
CrossRoads Extremity Systems	02-Jun-2016	Memphis, TN	Early Stage VC	The company designs, manufactures and markets orthopedic medical and surgical devices for surgeons to restore function and alleviate pain.	2.19	MB Ventures
Curavac	21-Jun-2016	Wilmington, DE	Angel (individual)	Developer of therapeutic vaccines to treat autoimmune diseases, such as sclerosis, diabetes, rheumatoid arthritis and systemic lupus erythematosus.	Undisclosed	Undisclosed
CureJoy	14-Jun-2016	Burlingame, CA	Early Stage VC	Developer of a platform to seek reliable information on alternative and natural healthcare from the experts in the field.	4.40	Accel Partners
CVRx	14-Jun-2016	Minneapolis, MN	Later Stage VC	The company provides a proprietary implantable technology designed to trigger the body's natural blood-flow regulation system to treat hypertension and heart failure.	46.51	Undisclosed
CyMedica Orthopedics	09-Jun-2016	Scottsdale, AZ	Early Stage VC	The company creates orthopedic products designed to stabilize joints while providing neuromuscular electrical stimulation to keep muscles from weakening due to lack of use as the joint heals.	5.64	Undisclosed
DailyRounds	17-Jun-2016	Sunnyvale, CA	Seed Round	Developer of a case-based, problem-solving mobile platform for medical practitioners that enables doctors to see, share, review and learn clinical cases.	1.20	Undisclosed
Diagenode	20-Jun-2016	Liege, Belgium	Later Stage VC	Manufacturer of diagnostic assays. The company develops and sells epigenetic tools for life-science research market, as well as products designed to make diagnostic assays simpler and faster.	8.48	Societe Regionale d'Investissement de Wallonie, Epimede, Ostbelgieninvest, Capricorn Venture Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
EarLens	15-Jun-2016	Menlo Park, CA	Later Stage VC	The company develops an open-canal hearing device for transmitting sound to the ear.	53.59	Vertex Healthcare
EarlySense	01-Jun-2016	Ramat Gan, Israel	Later Stage VC	The company's technology provides continuous patient monitoring for heart rate, respiratory rate and motion to potentially allow the clinical team to manage early detection of patient deterioration.	25.00	Bank Hapoalim
Eccrine Systems	28-Jun-2016	Cincinnati, OH	Early Stage VC	Developer of sweat sensor technologies. The company is developing small disposable electronic patches that use sensors to measure different chemicals present in sweat.	4.56	Undisclosed
Echo Labs	21-Jun-2016	Palo Alto, CA	Accelerator/ Incubator	The company's patent-pending wearable technology allows for noninvasive monitoring and analysis of blood composition. It also tracks key physiological indicators of energy, fitness, nutrition, hydration and sleep, without the need for traditional blood testing.	Undisclosed	MedTech Innovator
Ecolight (Italy)	22-Jun-2016	Lecce, Italy	Early Stage VC	Developer of a medical device for diagnosis of osteoporosis. The company provides a echo-graphic system to measure the bone strength at spine and femur level.	4.52	Panakes Partners, Invitalia Ventures
Element Diagnostics	13-Jun-2016	Charlottesville, VA	Angel (individual)	Developer of a cancer diagnostic system.	0.38	Undisclosed
Eleusis Benefit Corporation	27-Jun-2016	New York, NY	Angel (individual)	Developer of restricted small molecule drugs to address critical unmet needs.	0.98	Undisclosed
Emerge Diagnostics	23-Jun-2016	Carlsbad, CA	Angel (individual)	The company has developed an FDA-registered, class-II diagnostic device called an Electrodiagnostic Functional Assessment (EFA) that can age and evaluate muscle activity, distinguish between acute versus chronic injury and objectively quantify effort.	1.85	Undisclosed
Entegron	03-Jun-2016	Durham, NJ	Later Stage VC	The company develops pharmaceutical agents that address unmet needs in military healthcare involving wound management, tissue repair and hemorrhage control.	3.33	Undisclosed
ePatientFinder	09-Jun-2016	Austin, TX	Angel (individual)	The company's software uses analytics technology for identifying patients that are ideal candidates for preventative procedures and clinical trial opportunities.	8.20	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Ermes Medical Company	17-Jun-2016	Dublin, Ireland	Angel (individual)	Developer of metal chelator and antioxidants.	3.59	Undisclosed
Evidation Health	02-Jun-2016	San Mateo, CA	Early Stage VC	The company helps its partners quantify and optimize health outcomes through advanced analytics of medical, behavioral and contextual data at the patient-consumer level.	11.60	B Capital Group
F2G	20-Jun-2016	Manchester, United Kingdom	Later Stage VC	Developer of drugs to treat life threatening fungal disease.	60.00	Sectoral Asset Management
Factory-CRO	01-Jun-2016	Bilthoven, Netherlands	PE Growth/Expansion	Provider of contract research services to the healthcare sector. The company specializes in the management of clinical studies for medical devices, biologicals and device drug combinations.	Undisclosed	Kester Capital
FlowMetric	29-Jun-2016	Doylestown, PA	Angel (individual)	The company offers flow cytometry techniques that combine proprietary assays with advanced analytics to support all stages of drug development including pre-clinical, non-clinical and clinical development.	0.93	Undisclosed
Flowonix Medical	01-Jun-2016	Mount Olive, NJ	Later Stage VC	Developer of implantable devices to deliver therapeutic drugs into the spine for management of chronic pain.	15.50	Clarus Ventures
Fog Pharmaceuticals	07-Jun-2016	Boston, MA	Angel (individual)	The company develops medicines that use cell-penetrating miniproteins to access validated intracellular disease drivers and for honing of therapeutically beneficial tissues.	7.43	Undisclosed
Forest Devices	06-Jun-2016	Pittsburgh, PA	Angel (individual)	Developer of a medical device to detect ischemic and hemorrhagic stroke before the patient is taken to the hospital.	0.16	Undisclosed
Freeline Therapeutics	20-Jun-2016	London, United Kingdom	Early Stage VC	The company is focused on the development and commercialization of gene therapies for bleeding and other debilitating disorders based on a next-generation AAV (Adeno-associated virus) gene therapy platform.	37.75	Syncona Partners, University College London (UCL)
Freenome	07-Jun-2016	Philadelphia, PA	Seed Round	The company develops proprietary algorithms and methods and offers technology services to enable and empower diagnosis of clinical conditions.	5.55	Andreessen Horowitz
Fresenius Medical Care Youngstown	16-Jun-2016	Waltham, MA	Angel (individual)	Provider of healthcare services for renal and kidney patients. The company specializes in providing kidney dialysis services and manufacturing renal care products.	2.82	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Fruit Street Health	01-Jun-2016	Richmond, CA	Early Stage VC	The company's software allows healthcare providers to monitor lifestyle and behavioral health by connecting with patients using telemedicine and wearable mobile technologies.	5.40	Undisclosed
Garwood Medical Devices	02-Jun-2016	Buffalo, NY	Angel (individual)	The company develops medical devices to treat implant infections, stimulate bone growth and aid wound healing using electro stimulation.	2.05	Undisclosed
Genetesis	13-Jun-2016	Mason, OH	Angel (individual)	Developer of a cardiac current density mapping technology. The company's technology reconstructs the areas of high and low electrical conductivity in the heart by using the body's weak magnetic fields.	0.35	Undisclosed
GEROPHARM	17-Jun-2016	St. Petersburg, Russia	PE Growth/Expansion	Developer of pharmaceutical drugs, ingredients and other related products.	Undisclosed	Russian Direct Investment Fund
Ginkgo Bioworks	08-Jun-2016	Boston, MA	Later Stage VC	Provider of biological engineering services. The company provides biology technologies to design, build and test new organisms across a range of industries from fuels to pharmaceutical production.	100.00	Baillie Gifford, Viking Global Investors, Allen & Company
Guardion Health Sciences	07-Jun-2016	San Diego, CA	Angel (individual)	The company manufactures nutritional supplements that help restore and replenish the macular protective pigment to address age-related macular degeneration.	0.08	Undisclosed
Guoke Hengtai Medical Technology	21-Jun-2016	Beijing, China	Early Stage VC	Distributor of medical devices.	1.53	CASH Capital, Legend Capital
HealthPrize Technologies	24-Jun-2016	Norwalk, CT	Later Stage VC	The company's customizable platform combines incentives, behavioral economics and education to track medication compliance and rewards consumers for following their prescriptions.	2.85	Mansa Capital, Robert Dahl, Trygve Mikkelsen
HemoGenyx	29-Jun-2016	Buffalo, NY	Seed Round	The company leverages AHE cells which generate cancer-free blood stem cells to treat blood cancer and also increase the efficacy of bone marrow transplants and eliminate the need for donors.	1.00	Undisclosed
Hexislab	06-Jun-2016	Newcastle upon Tyne, United Kingdom	Early Stage VC	The company provides skin-care research and development consultancy services using computer modeling to identify natural active compounds for skin care and nutrition.	0.17	Northstar Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Hi.Q	06-Jun-2016	Mountain View, CA	Early Stage VC	Developer of a health knowledge measurement application. The company's application functions like a game with players completing quizzes and competing against others for mastery of nutrition, exercise and medical conditions.	4.00	Undisclosed
Hinge Health	20-Jun-2016	San Francisco, CA	Angel (individual)	Provider of healthcare facilities for musculoskeletal disorders. The company offers healthcare facilities with the help of sensor technology for musculoskeletal disorders and offers a digital health program.	1.33	Undisclosed
HistoWiz	07-Jun-2016	Brooklyn, NY	Accelerator/Incubator	The company provides histopathology services that include processing, cutting, staining mouse tissue samples and digitizing the results for cancer researchers in academia and pharma.	0.34	Y Combinator
Hospital IQ	17-Jun-2016	Newton, MA	Early Stage VC	The company offers an online platform that enables doctors to schedule their surgeries, collaborate with patients and optimize resource utilization in hospitals. It provides automated reporting, modeling and prediction tools for hospitals or hospital networks.	6.25	Undisclosed
IFM Therapeutics	22-Jun-2016	Cambridge, MA	Early Stage VC	Developer of small molecule drugs for the treatment of life threatening diseases. The company discovers and develops small molecules that modulate novel targets in the innate immune system for treating cancer, autoimmunity and inflammatory disorders.	27.00	Atlas Venture, Abingworth Management
Iggbo	21-Jun-2016	Richmond, VA	Early Stage VC	The company connects independent laboratories, physicians and phlebotomists via a mobile application and manages every aspect of diagnostic testing including the initial requisition to packing and shipping of samples.	13.00	Heritage Groupon
ImagenTechnologies	21-Jun-2016	New York, NY	Angel (individual)	Developer of a medical imaging technology. The company uses computer vision and machine learning to offer medical imaging which is free of diagnostic errors.	5.00	Undisclosed
IMCS Group	02-Jun-2016	West Palm Beach, FL	Angel (individual)	The company provides bio-psychophysical and bio-psychosocial assessments to assist patients, employers, workers' compensation and disability organizations with services for chronic pain and disability claims.	1.00	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Immutrix Therapeutics	28-Jun-2016	Rapid City, SD	Angel (individual)	The company develops medical products which seek to remove inflammatory mediators and toxins from patient's blood in order to alter the therapeutic outcomes of treatments.	2.93	Undisclosed
ImStar Therapeutics	12-Jun-2016	Vancouver, Canada	Seed Round	The company researches, discovers, develops and commercializes therapeutics for the treatment of amyotrophic lateral sclerosis. It may also benefit other neurodegenerative conditions such as Alzheimer's, Parkinson's disease and dementia.	1.39	Accel-Rx, Business Development Bank of Canada
InFlectis BioScience	01-Jun-2016	Nantes, France	Early Stage VC	Developer of small molecule drugs. The company develops small molecule drugs for the treatment of misfolding protein disorders such as neurodegenerative and age-related diseases.	6.79	CM-CIC Capital Innovation, Remiges Ventures
Intensity Therapeutics	28-Jun-2016	Westport, CT	Early Stage VC	Provider of chemotherapy treatments for cancer patients. The company has developed chemotherapy drugs that can be used for the primary tumor and major visible metastases.	10.00	FastForward Innovations, Batterson Venture Capital, Vcapital
Intensix	09-Jun-2016	Netanya, Israel	Accelerator/ Incubator	The company's platform delivers predictive clinical analytics that provide hospital management and medical personnel with the information they require to manage the intensive critical care floor.	0.01	8200 EISP
Intezyne Technologies	20-Jun-2016	Tampa, FL	Later Stage VC	The company develops synthetic polymers for cancer treatment. It is developing multi-modal oncology compounds that combine tissue, cellular and molecular targeting with tumor-specific release mechanisms.	20.00	Undisclosed
InTouch Health	15-Jun-2016	Santa Barbara, CA	Later Stage VC	Provider of virtual clinical care services.	15.00	Undisclosed
Invenios	22-Jun-2016	Santa Barbara, CA	Angel (individual)	The company specializes in designing, developing and manufacturing microfluidics, MEMS, and 3D microstructures.	10.00	Undisclosed
Invisalert Solutions	22-Jun-2016	Warminster, PA	Angel (individual)	The company offers a platform technology that uses mobile software tools to solve problems in acute healthcare, corrections, drug delivery and long-term care.	1.00	Undisclosed
IsoPlexis	29-Jun-2016	Branford, CT	Early Stage VC	The company's single cell multiplexing immunoassay and software suite provides in-depth biological characterization of immune and cancer cell subsets among heterogeneous populations.	5.75	Connecticut Innovations

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Jiff	07-Jun-2016	Mountain View, CA	Later Stage VC	The company offers JiffPad, a tool that enables users to capture voice, teaching materials, gestures, patients' questions and replies.	41.15	Rosemark Capital
