

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Reata Pharmaceuticals (RETA)	25-May-16	Irving, TX	Developer of oral anti-inflammatory drugs for intractable diseases, including antioxidant inflammation modulating drugs, as well as drugs that correct protein misfolding.	60.50	Undisclosed
Merus (MRUS)	19-May-16	Utrecht, Netherlands	The company develops human therapeutic antibody therapies for cancer by addressing multiple therapeutic targets with a single antibody product.	55.00	Undisclosed
PhaseRx (PZRXX)	18-May-16	Seattle, WA	The company provides a technology platform based on multi-functional polymeric vehicles that enable the delivery of macromolecular therapeutic drugs.	18.50	Undisclosed
Oncobiologics	12-May-16	Cranbury, NJ	A biopharmaceutical firm that specializes in developing a pipeline of biosimilars and biotherapeutics for the treatment of cancer and immune system disorders.	35.00	Undisclosed
Spring Bank Pharmaceuticals (SBPH)	6-May-16	Milford, MA	Provider of a drug discovery platform. The company develops small molecule nucleic acid hybrids.	11.04	Individual Investor
Intellia Therapeutics (NTLA)	6-May-16	Cambridge, MA	Developer of potentially curative therapeutics utilizing a recently developed biological tool for therapeutic gene editing known as the CRISPR/Cas9 system.	108.00	Novartis Venture Funds, Regeneron Pharmaceuticals
Unite De Fabrication De Medicaments	4-May-16	Sousse, Tunisia	Contract manufacturer of pharmaceutical products for domestic hospitals, private markets, and large international pharmaceutical companies such as Pfizer, Mylan and Thea. It has drug registrations covering mainly liquid injectables, powder injectables and eye drops.	149.09	Blakeney Management, PROPARCO

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Whill	31-May-16	San Francisco, CA	Early Stage VC	Developer of a motorized wheelchair that can be driven on sidewalks and is steered by leaning the handle in the direction the user wishes to go.	17.50	Undisclosed
Spine Wave	31-May-16	Shelton, CT	Later Stage VC	The company provides surgical solutions for spinal fusion, vertebral compression fracture repair and nucleus replacement and augmentation.	11.00	Acadia Woods Partners, New Enterprise Associates
Kineta	31-May-16	Seattle, WA	Later Stage VC	The company develops antiviral therapies and immune modulating drugs for RNA viruses, a molecular on/off switch that triggers the human body's immune defenses against virus infection.	0.07	Undisclosed
Vicarious Surgical	27-May-16	Cambridge, MA	Early Stage VC	Developer of a software for use in surgical procedures. The company develops a virtual reality software integrated with surgical robotics for use in minimally invasive surgical procedures.	1.00	Chandler Wang, River, Rothenberg Ventures
Podimetrics	27-May-16	Somerville, MA	Early Stage VC	Developer of mats for prevention of diabetic foot ulcers. The company's patent-pending technology aims to detect these ulcers before they develop, allowing for timely, inexpensive treatment.	5.82	Andrew Palmer, Koa Labs, Norwich Ventures, Rock Health
PanOptica	27-May-16	Bernardsville, NJ	Early Stage VC	Provider of therapies for the treatment of age-related muscular degeneration and diabetic retinopathy.	45.00	Novo, SV Life Sciences Advisers, Third Rock Ventures
NX Development	27-May-16	Louisville, KY	Angel	The company designs and develops Gliolan, a glioblastoma imaging agent, used in fluorescent guided neurosurgery, cancer surgery, radiotherapy and chemotherapy operations.	0.70	Fred Mermelstein, Robert Saunders, Ulrich Kosciessa
Ixaltis	27-May-16	Toulouse, France	Early Stage VC	Developer of therapeutics to treat genitourinary diseases.	9.07	Undisclosed
Braeburn Pharmaceuticals	27-May-16	Princeton, NJ	Early Stage VC	Developer of implantable and injectable therapies for serious neurological and psychiatric disorders,	23.00	Apple Tree Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Aleva Neurotherapeutics	27-May-16	Lausanne, Switzerland	Later Stage VC	Developer of medical devices for the treatment of neurological diseases. The company develops implants for Deep Brain Stimulation (DBS) therapy.	18.00	Greatbatch
SilverVue	26-May-16	Sandy, UT	Early Stage VC	The company provides a searchable tablet application used by hospital case managers to help patients choose their post-acute care (PAC) provider. The application includes ratings by the CMS (Centers for Medicare & Medicaid Services), as well as filtering tools, to help patients review providers of specialized care.	17.85	Pritzker Group Venture Capital
Wellth	25-May-16	Brooklyn, NY	Early Stage VC	The company offers a patient-facing mobile application that encourages medication and treatment adherence by paying patients to be healthy.	2.00	AXA Strategic Ventures
Arrivo BioVentures	25-May-16	Morrisville, NC	Early Stage VC	The company develops biopharmaceutical products that focus on accelerating biologics and small molecules through clinical development that have the potential to improve patient lives and expedite the path to approval and the efficient implementation of the clinical programs themselves.	49.00	Jazz Pharmaceuticals, Rex Health Ventures, Solas Bioventures
Appili Therapeutics	25-May-16	Halifax, Canada	Seed Round	The company provides antiviral, anti-fungal, anti-parasitic and anti-microbial based agents for the treatment of infectious disease.	3.27	Atlantic Canada Opportunities Agency, Bloom Burton & Co., Innovacorp, National Research Council Canada
Zebra Medical Vision	24-May-16	Kibbutz Shefayim, Israel	Early Stage VC	The company provides a platform that offers a cloud-based research and development environment including access to data sets of structured, de-identified studies, storage, GPU computing power and support for research tools.	12.00	Intermountain Healthcare
VuEssence	24-May-16	Odessa, FL	Angel	Provider of surgical and medical instruments.	1.20	Undisclosed
Verena Solutions	24-May-16	Chicago, IL	Angel	Developer of products that enhance the safety of dental and medical procedures.	0.20	Christ Harvey, Jim Mathes, John Tanner

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
TransMedics	24-May-16	Andover, MA	Later Stage VC	The company develops a portable warm blood perfusion system that allows for a new type of organ transplant called a living organ transplant, which maintains organs in a warm, functioning state outside of the body during transfer from organ donor to recipient.	51.23	Fayerweather Fund, Inbio Ventures
Strong Arm Technologies	24-May-16	Brooklyn, NY	Early Stage VC	Manufacturer of a load-distribution device that helps in reducing load-caused injuries.	2.92	Undisclosed
OncoResponse	24-May-16	Houston, TX	Early Stage VC	Developer of therapeutic antibodies against immuno-oncology targets.	19.50	ARCH Venture Partners, Baxalta Ventures
Neuraltus Pharmaceuticals	24-May-16	Palo Alto, CA	Later Stage VC	Developer of therapeutics for the treatment of neurodegenerative diseases such as amyotrophic lateral sclerosis, Parkinson's disease, Alzheimer's disease and multiple sclerosis.	14.94	Adams Street Partners, Latterell Venture Partners, VantagePoint Capital Partners
Molekule	24-May-16	San Francisco, CA	Seed Round	Developer of an indoor air purifier based on molecular technology which takes bacteria, allergens, mold, chemicals and viruses; breaks them down into elements that aren't harmful; then releases these elements back into the air.	3.25	SoffTech VC
Daktari Diagnostics	24-May-16	Cambridge, MA	Later Stage VC	The company offers technology to detect HCV and HIV, helps in data management, as well as helps to test and identify infants with sickle cell disease.	22.50	Undisclosed
Clarity Pharmaceuticals	24-May-16	Sydney, Australia	Angel	The company focuses on developing radio-pharmaceuticals for the treatment of serious diseases.	1.53	Undisclosed
CardioNXT	24-May-16	Westminster, CO	Early Stage VC	The company offers a range of devices to treat cardiac conditions, such as atrial fibrillation detection, and to deliver targeted therapy to affected areas within the heart.	1.55	Office of Economic Development and International Trade, Solas Bioventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
BrightWater Medical	24-May-16	Mountain View, CA	Angel	Developer of medical devices for patients suffering from biliary and urinary blockages. The company offers a convertible stent that gets converted from catheter to a nephroureteral stent without a second interventional procedure and helps in treatment.	5.20	Central Illinois Angels
Apixio	24-May-16	San Mateo, CA	Later Stage VC	The company offers a platform designed to access medical records for optimal healthcare decision making.	19.30	SSM Partners
Nucleix	23-May-16	Rehovot, Israel	Later Stage VC	The company has developed Bladder EpiCheck, a bladder cancer test, that includes a panel of 15 DNA methylation biomarkers for detection of bladder cancer.	3.00	Aurum Ventures MKI, European Commission, OrbiMed Advisors, Zohar Zisapel
Medasense Biometrics	23-May-16	Ramat Gan, Israel	Later Stage VC	The company provides a pain monitoring device to measure the physiological response to pain, providing new insights into pain management care.	8.00	Benslie International
Eagledream Health	23-May-16	Rochester, NY	Angel	The company develops software that enables physicians and healthcare teams to deliver quality care to patients, create opportunities for patient engagement and increase efficiency and lower costs.	1.76	Cranberry Capital
DefiniGEN	23-May-16	Cambridge, United Kingdom	Early Stage VC	The company has developed a stem cell production platform, OptiDIFF, for the generation of high-functionality cell types including liver, pancreatic and lung cells.	2.14	Undisclosed
Tensive	20-May-16	Milano, Italy	Early Stage VC	The company provides porous implantable prostheses based on biodegradable synthetic biomaterials and fabricated with internal micro-channels mimicking the blood-vessels architecture for the treatment of breast cancer.	2.15	Invitalia Ventures, Marzotto Family, Seedlab, UniCredit

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
P&C Pharma	20-May-16	Centerville, OH	Early Stage VC	The company provides services to improve the dosing of medications, increase compliance and enhance therapy by the use of personalized pharmaceutical products.	2.21	Dayton Development Coalition, Ohio's Hospice of Dayton, Rev1 Ventures
MediQuire	20-May-16	New York, NY	Early Stage VC	The company offers a software which enables customers to identify clinical, operational and financial improvement opportunities and delivers actionable alerts to clinicians in their daily workflow.	4.88	FCA Venture Partners
Ichor Vascular	20-May-16	North Webster, IN	Angel	Developer of a percutaneous arterial embolectomy system that helps to treat critical limb ischemia.	0.20	Undisclosed
HeartFlow	20-May-16	Redwood City, CA	Later Stage VC	The company focuses on providing healthcare professionals with actionable knowledge about individual patients. The company's technology is designed for diagnosis of coronary artery disease and data.	99.93	Undisclosed
Geneticure	20-May-16	Minnetonka, MN	Angel	The company develops genetic tests that help doctors and clinicians create personalized and patient-specific treatments for controlling high blood pressure and hypertension.	0.67	Undisclosed
Epic Extremity	20-May-16	Cranberry Township, PA	Angel	The company specializes in designing and developing orthopedic implants through an innovative business model that allows cost effective alternatives to the typical big branded companies.	0.40	Undisclosed
Empire Genomics	20-May-16	Buffalo, NY	Later Stage VC	Operator of a molecular diagnostics company. The company offers art testing products and assay services for cancer disease management, autism, schizophrenia and mental retardation.	1.75	BroadOak Capital Partners
Avizia	20-May-16	Reston, VA	Early Stage VC	The company has developed a platform that allows medical experts to reach out to their patients through telemedicine.	3.11	Undisclosed
Alpha Logic	20-May-16	Pasadena, CA	Angel	Developer of a diagnostic device to record discrete abdominal sounds and vibrations to monitor and diagnose digestive disorders.	3.31	Undisclosed
Tamir Biotechnology	19-May-16	San Diego, CA	Early Stage VC	Developer of therapeutic drugs. The company engages in the development of drugs that are used for the treatment of cancer and other pathological conditions.	1.52	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Sana	19-May-16	Burnham, United Kingdom	Accelerator / Incubator	The company develops sleeping masks designed with the help of medical applications including stroke rehabilitation, treatment of traumatic brain injury, insomnia, epilepsy, stress disorder and pain control.	0.06	SOSV
Piper Therapeutics	19-May-16	Cambridge, MA	Angel	Provider of pre-clinical drug discovery services and developer of therapies that affect inflammatory signaling and immune system response.	1.30	Undisclosed
Calibrater Health	19-May-16	Hanover, NH	Accelerator / Incubator	The company offers real-time mobile patient feedback with tracking and reporting tools that categorizes and routes patient comments for follow-up and immediate action.	0.15	FirstGrowth Venture Network, Jumpstart Foundry
Arcadian TelePsychiatry	19-May-16	Philadelphia, PA	Seed Round	Operator of an online tele-psychiatry platform. It serves the patients needing help with depression, anxiety, panic attacks, PTSD and marriage problems without having them to commute.	Undisclosed	Ben Franklin Technology Partners of Southeastern Pennsylvania
Virtual Health	18-May-16	New York, NY	Early Stage VC	The company offers a managed care platform that enables patient engagement, population management, care coordination, readmissions minimization, data analytics, social networking and multi-dimensional communication.	2.55	Edison Partners
VantagePoint Laboratory	18-May-16	San Diego, CA	PE Growth / Expansion	The company provides esoteric testing services such as molecular testing, solid tumor testing, technical and professional component testing, cytogenic, FISH testing and hematopathology testing services.	6.78	Enhanced Equity Funds
SpeechVive	18-May-16	Lafayette, IN	Seed Round	The company has developed a device that will improve the speech of patients suffering from Parkinson's disease without placing cognitive demand on the patient.	2.28	Undisclosed
Medical 21	18-May-16	Minneapolis, MN	Angel	Developer of an artificial graft. The company develops grafts for use in coronary bypass heart surgeries.	0.20	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
CRG Medical	18-May-16	Houston, TX	Angel	The company provides an analytical system for measuring and reducing vulnerability to patient safety threats. The company also develops an application which allows early detection of hazards.	1.00	Houston Technology Center
CarePredict	18-May-16	Plantation, FL	Early Stage VC	The company designs and manufactures a wrist-worn sensor with an embedded software that tracks normal daily activities of senior citizens to detect their health conditions.	1.31	Undisclosed
BioMarcK Pharmaceuticals	18-May-16	Durham, NC	Later Stage VC	The company engages in the discovery and development of drugs for the treatment of pulmonary diseases and disorders associated with the over-secretion of mucus and pulmonary inflammation.	7.00	Cato BioVentures, Individual Investor, National Institutes of Health, U.S. Department of Health and Human Services
SCILEX Pharmaceuticals	17-May-16	Malvern, PA	Angel	Developer of pharmaceutical products for pain treatment. The company focuses on developing adhesive and pliable properties designed to permit skin contact throughout the dosing regimen and thereby reduce pain.	0.48	ITOCHU
Purigen Biosystems	17-May-16	Pleasanton, CA	Early Stage VC	Developer of an isotachopheresis chip for nucleic acid preparation to be used for genomic analyses.	18.20	5AM Ventures, Roche Venture Fund
PatientPop	17-May-16	Santa Monica, CA	Early Stage VC	Developer of an online marketing platform for medical professionals. The company provides services for patient acquisition, reputation management, retention marketing and business insights.	10.50	Toba Capital
Nouscom	17-May-16	Basel, Switzerland	Early Stage VC	The company has developed a next generation of oncolytic viruses that infect and kill tumor cells to stimulate an immune response against cancer cells throughout the body.	13.60	Life Sciences Partners, Versant Ventures
Noble.MD	17-May-16	Bryn Mawr, PA	Early Stage VC	The company develops a web-based platform to proactively identify patient health risks and activate patients to manage those risks through proven programs and interventions.	1.45	BioAdvance, Safeguard Scientifics

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Keystone Mobile Partner	17-May-16	Willow Grove, PA	Angel	The company operates mobile units that provide a range of urological care services for patients. It also specializes in providing flexible choice of location for physicians and hospitals for performing the treatment.	0.06	Undisclosed
Innovative Cardiovascular Solutions	17-May-16	Grand Rapids, MI	Angel	The company develops an embolic protection catheter that has been designed to be utilized in trans-aortic valve replacement (TAVR) procedures and other left heart interventional procedures where embolic protection would be required.	1.41	Undisclosed
IDP Discovery Pharma	17-May-16	Barcelona, Spain	Seed Round	The company develops therapies for the treatment of leukemia, other blood cancers and hematologic malignancies.	1.59	ACCIÓN, CDTI (NEOTEC), ENISA, Ministerio de Economía y Competitividad
Healthify	17-May-16	New York, NY	Seed Round	Provider of a healthcare-referral platform for patients who need additional help from social services. The company serves health-plan operators, hospitals and provider networks working in low-income communities.	2.50	Undisclosed
FlexSpark	17-May-16	Atlanta, GA	Angel	Developer of a wearable electrical muscle stimulation therapeutic device that enables users to skip long rehabilitation process by preventing blood clots and muscle atrophy when the patient is immobile.	0.10	Zeroto510
Dharma	17-May-16	Washington, DC	Seed Round	The company provides mobile and web-based tools for individuals, companies, and organizations that help field healthcare workers and researchers to collect, understand and analyze the medical data gathered in field situations.	1.60	Concur Technologies (Venture Arm), SAP
Decisio Health	17-May-16	Houston, TX	Early Stage VC	The company focuses on availability of vital patient data, unprecedented automation and premier analytics. It also provides organizations an opportunity to identify and correct areas of operational deficiencies.	4.50	DECLATEX, Larry Lawson, UT Horizon Fund

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Combinostics	17-May-16	Tampere, Finland	Seed Round	Developer of diagnostic software. The company develops software tools for data-driven diagnostics using heterogeneous patient data.	0.76	Integral Capital Partners, Riku Asikainen
CardioFocus	17-May-16	Marlborough, MA	Later Stage VC	Developer of a medical device for ablation treatments for cardiac disorders. The company develops HeartLight Endoscopic Ablation System for the treatment of atrial fibrillation.	8.00	Undisclosed
B.I.S.	17-May-16	Ngaliema Kinshasa, Congo	PE Growth / Expansion	Producer of generic pharmaceutical products. The company produces and markets tested drugs to prevent and cure infections to ears, eyes and throat.	Undisclosed	XSML
Axion Biosystems	17-May-16	Atlanta, GA	Later Stage VC	Provider of life science instrumentation, medical diagnostics and implantable stimulation devices. The company provides microelectrode arrays, related system electronics, electrode technology and artifact elimination.	6.27	Undisclosed
Ascendance Biotechnology	17-May-16	Medford, MA	Angel	Developer of stem-cell-derived assays and other products based on stem cell technologies.	0.23	Undisclosed
Allurion Technologies	17-May-16	Wellesley, MA	Later Stage VC	Developer of a medical device for obesity, designed to induce weight loss by displacing volume in the stomach without surgery, leveraging super-porous hydrogel technology.	6.00	Massachusetts Life Sciences Center, Romulus Capital
Agenovir	17-May-16	South San Francisco, CA	Early Stage VC	Developer of novel therapeutics. The company specializes in developing a novel class of nuclease-based anti-viral therapeutics for diseases associated with viral reservoirs.	10.60	California Institute for Quantitative Biosciences, Celgene, Data Collective, JLABs, Lightspeed Venture Partners
Vavotar Life Sciences	16-May-16	Cumming, GA	Angel	Undisclosed	3.52	Undisclosed
The Pill Club	16-May-16	Redwood City, CA	Accelerator / Incubator	The company designs a mobile application for delivering medicines at users' door steps and allows them to manage and refill their prescriptions. It also provides information about birth control and emergency contraception.	0.13	500 Startups, StartX

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Notable Labs	16-May-16	San Francisco, CA	Early Stage VC	Provider of therapy research services focused on brain cancer. The company provides a platform enabling doctors to seek and evaluate combinations of FDA-approved treatments for patients with brain cancer.	4.49	Undisclosed
Mitralign	16-May-16	Tewksbury, MA	Later Stage VC	Developer of a catheter-based mitral valve repair system. The company has developed a direct transcatheter annuloplasty system designed to treat both functional mitral regurgitation and tricuspid regurgitation.	31.75	Undisclosed
Inotec AMD	16-May-16	Cambridge, United Kingdom	Later Stage VC	The company is the developer of a mobile, battery-powered device that is applied near a chronic wound and produces a continuous flow of humidified oxygen, optimizing the healing process.	Undisclosed	Amadeus Capital Partners, Cambridge Angels, Cambridge Capital Group, Cambridge Enterprise, NHS England, Parkwalk Advisors
eXIthera Pharmaceuticals	16-May-16	Westborough, MA	Early Stage VC	The company develops a small-molecule, oral-delivery drug based on inhibiting the factor XI enzyme made by the liver which is involved in a critical stage of the coagulation process.	10.00	Clal Biotechnology Industries, Schooner Capital
Centauri Health Solutions	16-May-16	Scottsdale, AZ	PE Growth / Expansion	Provider of data management and cloud based software services. The company is engaged in improving the financial performance for health plans and at-risk providers by supporting initiatives in risk adjustment.	50.00	Silversmith Capital Partners
Caribou Biosciences	16-May-16	Berkeley, CA	Early Stage VC	Developer of a technology for cell and genome engineering. The company offers technology-based services for cellular engineering and analysis based on the CRISPR-Cas9 technology platform.	30.00	Undisclosed
B-MoGen Biotechnologies	16-May-16	St. Paul, MN	Seed Round	Provider of genome editing services. The company designs and develops biological research tools required for genome engineering products and services in the biotechnology industry.	1.03	Bio-Techne

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
BioSight	16-May-16	Karmiel, Israel	Later Stage VC	Developer of novel peptide-based drugs for the treatment of different types of cancers with reduced toxicity, based on proprietary technology S2DOT™ for chemotherapy pro-drug synthesis.	13.00	Arkin Holdings, Avi Yehezkel, Michael Ilan Management And Investments, Primera Capital, The Trendlines Group
B4CC	16-May-16	Gainesville, GA	Angel	Provider of a clinical network offering therapies to patients. The company's network harvests tumor tissue, analyzes it and conducts research trials to come up with therapies to be used for cancer patients.	0.92	Undisclosed
Advantagene	16-May-16	Auburndale, MA	Angel	The company focuses on preventing the recurrence and progression of cancer through the use of therapeutics in oncology and immunotherapy.	8.68	Massachusetts Life Sciences Center, U.S. Department of Health and Human Services
Upstream Health Systems	13-May-16	Seattle, WA	Seed Round	The company provides services for the identification, prediction and prevention of diseases in human populations, and it synthesizes data from public and private data streams.	1.53	J. Corey Schmid, Matt Abrams, Seven Peaks Ventures
Rochester Medical Management	13-May-16	Rochester, MN	Angel	Provider of clinical-grade technology commercializing services. The company commercializes diagnostic and monitoring medical technologies to help reduce cost of healthcare.	0.05	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Photosonix Medical	13-May-16	Ambler, PA	Seed Round	Developer of a skin acne treatment device. The company offers an energy-based therapy device used to treat acne bacteria.	1.67	Ben Franklin Technology Partners of Southeastern Pennsylvania, National Institute of Health, Princeton Biopharma Capital Partners
OrthoSensor	13-May-16	Dania Beach, FL	Later Stage VC	Developer of orthopedic implants and sensor-assisted surgery systems, with external and implanted sensors that detect and monitor various functions in the musculoskeletal system.	0.21	Bridger Healthcare, Dignity Health, Highbridge Principal Strategies Growth Equity, Tullis Health Investors, Ziegler Healthcare Capital
Impulse Dynamics	13-May-16	Stuttgart, Germany	Angel	Manufacturer of implantable medical devices and developer of electrical therapies for treatment of chronic heart failure.	30.00	Hobart Group, Peter Lee Ka Kit
DalCor	13-May-16	Montreal, Canada	Early Stage VC	Developer and provider of precision cardiovascular medicine to patients through identification of patient populations.	100.00	Andre Desmarais, Caisse de dépôt et placement du Québec, CTI Life Sciences Fund, Fonds de solidarité FTQ, Sanderling Ventures

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Curaseal	13-May-16	Santa Clara, CA	Later Stage VC	The company engages in the development of products and technologies to further delivery and administration of therapeutics including collagen, antimicrobial chemotherapy, growth factors and cell based therapies.	3.50	Ascent Biomedical Ventures, Windham Venture Partners
BiOptix Diagnostics	13-May-16	Boulder, CO	Later Stage VC	Developer of a biomolecule detection system. The company provides the E-SPR (Enhanced Surface Plasmon Resonance) technology platform for the detection of molecular interactions.	2.46	Boulder Ventures, Peierls Foundation, Reditex Ventures, Rusnano
MedCPU	12-May-16	New York, NY	Later Stage VC	The company's application captures and analyzes the clinical picture from clinicians' free-text notes, dictations and structured documentation against a growing library of content for generating real-time precise prompts for care consideration.	35.04	Easton Capital Investment Group, Merck Global Health Innovation, New Richmond Ventures, UPMC Health System
Medal	12-May-16	San Francisco, CA	Angel	Developer of a medical information sharing application. The company's application helps to catalog and share medical records with family and healthcare practitioners for the purpose of treatment.	3.78	Justin Rosenstein, Lee Linden
HCIactive	12-May-16	Glenwood, MD	Later Stage VC	The company develops a cloud-based integrative platform that offers detailed analytic, data transactions, plan administration and fast reporting.	3.41	Grotech Ventures, Harbert Growth Partners, Maryland Venture Fund
EndoStim	12-May-16	St. Louis, MO	Later Stage VC	Developer of microstimulator technology to treat sphincter-related disorders. The company develops therapies to treat gastrointestinal and urological neuromuscular disorders.	25.00	Endeavour Vision

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Encore Vision	12-May-16	Fort Worth, TX	Later Stage VC	The company provides an eye drop treatment designed to reduce eye lens stiffness and make the lens less viscous to restore flexibility, allowing the lens to thicken in the center during an attempt to focus on nearby objects.	4.50	Bios Partners, Cowtown Angels, North Avenue Investments, Steelhead Capital Management, TECH Fort Worth, U.S. Department of Health and Human Services
BluPanda	12-May-16	Pittsburgh, PA	Angel	Provider of robotics management services for the healthcare industry. The company automates the management of the logistics of delivering patient care in healthcare facilities.	2.09	Undisclosed
Arthro Therapeutics	12-May-16	Malmö, Sweden	Seed Round	Provider of an online evidence-based osteoarthritis treatment program.	1.00	Hampus Jakobsson, Lean Investments, Lund University Innovation System, Sophia Bendz, StartUp Health
Viriom	11-May-16	San Diego, CA	Later Stage VC	Developer of therapies against life threatening infections such as the HIV (human immunodeficiency virus) and Hepatitis B virus.	4.70	ChemRar High Tech Center, Skolkovo Foundation, Torrey Pines Investment

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Umbie Health	11-May-16	Middletown, CT	Early Stage VC	The company provides a platform to manage patients, organize dental records and handle scheduling and billing.	2.59	Angel Investor Forum, Atlas Venture, Connecticut Innovations
Rigenerand	11-May-16	Medolla, Italy	Early Stage VC	The company develops and produces biomedical tools to empower the ex-vivo phase of stem cells expansion, combining the need of high cell yield with innovative biocompatible materials.	9.86	Principia, RanD, University of Modena and Reggio Emilia
Polyneuron Pharmaceuticals	11-May-16	Basel, Switzerland	Seed Round	Developer of a new drug class for the treatment of autoimmune disorders, which enables the design of drugs that selectively inactivate disease-causing autoantibodies, while leaving the immune system intact.	3.22	CTI Invest, Eva Capital, Gebert Rűf Foundation, Neuromuscular Research Association Basel, Swiss Foundation, Venture kick, Zűrcher Kantonalbank
Pillar Biosciences	11-May-16	Natick, MA	Early Stage VC	The company provides a targeted sequencing technology platform and a proprietary data analysis toolkit for Next Generation Sequencing (NGS) based oncology testing.	18.00	ORI Capital
OxStem	11-May-16	Oxford, United Kingdom	Angel	The company specializes in the development of cell programming therapies for the treatment of age-related conditions such as dementia, heart failure, macular degeneration, diabetes and oncology.	24.15	Bob Duggan, J. Craig Venter, Mahkam Zanganeh
G1 Therapeutics	11-May-16	Durham, NC	Later Stage VC	Developer of small molecule therapeutic agents to protect the bone marrow from radiation or chemotherapy damage.	47.00	Cormorant Asset Management
ExThera Medical	11-May-16	Martinez, CA	Angel	The company develops and offers medical devices for the treatment of bloodstream infections and pathogen-reduction in blood banking.	15.29	Undisclosed
