ENT Biotech Solutions	25-Apr-16	Detroit, MI	Early Stage VC	Developer of medical devices for the otolaryngology market to remove tonsils and soft tissue.	1.10	Undisclosed
Cruzar Medsystems	25-Apr-16	Braintree, MA	Early Stage VC	Developer of medical technology and devices. The company is designing a catheter that allows physicians to cross obstructive lesions without capital equipment.	0.80	Undisclosed
Augmedix	25-Apr-16	San Francisco, CA	Early Stage VC	Provider of a telemedicine charting service. The company caters to the healthcare industry and offers telemedicine charting services for documentation.	17.00	Redmile Group
Wicab	22-Apr-16	Middleton, WI	Early Stage VC	Operator of a biomedical engineering company. The company offers BrainPort V100, which is a non-surgical assistive device intended for orientation, mobility, object identification, and spot reading by individuals who are blind with no useful vision.	2.40	Undisclosed
Trainer Rx	22-Apr-16	Walnut Creek, CA	Angel	Operator of a medical software company that is used for designing solutions to meet the demands of healthcare professionals treating musculoskeletal injury.	1.38	Undisclosed
NetMedi	22-Apr-16	Helsinki, Finland	Seed Round	Developer of communication software for the healthcare sector. The company provides Kaiku, which enables secure online communication between patients and care personnel.	0.94	Metsola Ventures
H-Source	22-Apr-16	Spokane, WA	Angel	Provider of an online hospital marketplace platform. The company provides a web-based platform for hospitals to buy/sell/transfer supplies and equipment with each other.	0.78	Undisclosed
ChartSpan Medical Technologies	22-Apr-16	Greenville, SC	Angel	Provider of an online personal health record platform. The company allows users to also carry around patient data on the mobile devices such as X-rays and other medical images and choose whether or not to share them.	3.20	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
BioBeats	22-Apr-16	London, United Kingdom	Early Stage VC	Developer of a software combining biometric monitoring with music. The company offers a mobile software that creates music generated from the user's heartbeat and helps in stress management.	2.28	White Cloud Capital
410 Medical Innovation	22-Apr-16	Durham, NC	Angel	Provider of a hand-operated fluid delivery device that allows medical providers to deliver a large volume of fluid through traditional IV access to patients during emergency situations.	0.93	Undisclosed
TripleCare	21-Apr-16	Long Island City, NY	Early Stage VC	Provider of physician services, telemedicine equipment and proprietary software to nursing facilities. The company provides acute hospital-level care to patients residing in nursing facilities using state-of-the-art telemedicine technology.	2.50	Undisclosed
Silk Biomaterials	21-Apr-16	Lomazzo, Italy	Early Stage VC	Developer of a regenerative medical technology platform using silk. The company is developing silk-based biomaterials designed to help regenerate human tissues, including in the vascular system, and then to degrade and be safely absorbed in the body.	7.78	Principia SGR
BreezoMeter	21-Apr-16	Haifa, Israel	Accelerator/Incubator	Provider of an online platform and a mobile application which allows gathering of data from various sensors worldwide to provide a real-time, location-based map of air pollution levels for health and wellness use.	Undisclosed	Undisclosed
Rhythm Diagnostic Systems	20-Apr-16	San Francisco, CA	Angel	Developer of a wearable health tracking device which can record, measure and transmit oxygen saturation, body temperature, respiration rate and heart rate.	4.64	Undisclosed
PeptiMimesis	20-Apr-16	Illkirch, France	Seed Round	Owner and operator of a biopharma company. The company offers to develop transmembrane therapeutic peptides that enables the identification of peptidomimetic candidates interfering with the hetero- and/or the homodimerization of target receptors.	1.33	Alsace Capital
Medicenna Therapeutics	20-Apr-16	Vancouver, Canada	Angel	Operator of a clinical-stage immunotherapy research firm. The company develops cytokines for targeted treatment of cancer, autoimmune disease and fibrosis.	0.80	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Capture Vascular	20-Apr-16	Telluride, CO	Early Stage VC	Manufacturer and designer of medical devices for thrombectomy. The company offers two products to address health issues related to coronary artery disease, peripheral arterial disease, deep vein thrombosis and pulmonary embolism.	2.59	Undisclosed
1Mg	20-Apr-16	New Delhi, India	Early Stage VC	Operator of a pharmacy discovery platform. The company provides a portal enabling users to locate pharmaceutical providers within their local areas. The site also provides one-click information about medicines which have the same composition as prescribed, but which can be cheaper.	16.00	Maverick Capital
PNA Innovations	19-Apr-16	Woburn, MA	Angel	Provider of customized reagents for targeting DNA and RNA. The company develops a nucleic acid platform which is a synthetic nucleic acid called gamma peptide nucleic acid (γ PNA) for regulation of gene expression and manipulation of nucleic acid structures and functions.	2.58	MAG Ventures
Innoblative Designs	19-Apr-16	Chicago, IL	Angel	Developer of a radio frequency ablation applicator. The company develops a medical device which allows surgeons and interventionalists to coagulate and ablate soft tissue beds intra-operatively.	1.18	Undisclosed
G-Therapeutics	19-Apr-16	Ecublens, Switzerland	Early Stage VC	Developer of an implantable neuro-stimulation system (INS). The company provides a neuro-stimulation system to rehabilitate patients suffering from neurological disorders such as spinal cord injury.	40.00	Life Sciences Partners, INKEF Capital, Gimv, Wellington Partners
Everly Well	19-Apr-16	Austin, TX	Seed Round	Provider of a suite of at-home regulatory-compliant diagnostic tests that provides results online.	2.50	Undisclosed
Eagledream Health	19-Apr-16	Rochester, NY	Angel	Developer of healthcare analytics software. The company develops software that enables physicians and healthcare teams to deliver quality care to patients, create opportunities for patient engagement and increase efficiency and lower costs.	0.76	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Colorado Therapeutics	18-Apr-16	Broomfield, CO	Angel	Developer of xenogenic biologic tissue matrix products and therapeutic devices for a broad range of soft tissue reinforcement, regenerative and vascular applications.	4.30	Undisclosed
Cearna	18-Apr-16	Chicago, IL	Angel	Provider of plastic surgery recovery products. The company offers a product named OcuMend that is an ultra-penetrating nanotechnology embedded with arnica and ledum, leading to speedy recovery of bruising, pain and swelling caused from facial aesthetics procedures such as rhinoplasty, blepharoplast, rhytidectomy and dermal filler.	0.66	Undisclosed
ProstaGene	17-Apr-16	Wynnewood, PA	Angel	Developer of a diagnostic test that distinguishes benign from malignant prostate cancer. The company's prognostic test defines a group of patients with poor outcome based on a signature of gene expression in the patients prostate tumor.	0.40	Undisclosed
Fresca Medical	16-Apr-16	San Clemente, CA	Angel	Developer of medical devices for treatment of patients suffering from obstructive sleep apnea diseases.	3.03	Undisclosed
SafeOp Surgical	15-Apr-16	Hunt Valley, MD	Early Stage VC	Manufacturer of intraoperative neuromonitoring devices that help caregivers to monitor and prevent nerve damage that can occur during surgical procedures.	1.75	Undisclosed
PeptiGelDesign	15-Apr-16	Cheshire, United Kingdom	Seed Round	Developer of peptide based hydrogels for biomedical and biotechnological applications. The company develops peptide based hydrogel, stem-cell culture and tissue engineering to support development steps and commercialisation of therapeutic treatments from in-vitro studies to in-vivo applications.	Undisclosed	Deepbridge Capital
MatriTek	15-Apr-16	New York, NY	Angel	Operator of a life sciences research supply company. The company specializes in the production of tissue-specific biomaterials that are derived from natural organ and tissue sources and contain a wealth of tissue-specific biochemical factors that make up the native cellular environment.	1.10	Undisclosed
BioCurity	15-Apr-16	New Smyrna Beach, FL	Angel	Developer of a nanoparticle drug candidate to treat radiation-related xerostomia and dermatitis.	0.11	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Aces Health	15-Apr-16	Atlanta, GA	Angel	Developer of a software for patient data tracking. The company develops a mobile and Web-based software that captures and tracks patient data and communication essential to clinical safety and efficacy protocols.	0.08	Undisclosed
TargEDys	14-Apr-16	Rouen, France	Early Stage VC	Developer of a mechanism to regulate appetite. The company develops hormone mimetic proteins which helps in regulating the eating behavior of obese people.	6.44	Seventure Partners, Pontifax, NCI
Reflexion Medical	14-Apr-16	Hayward, CA	Early Stage VC	Developer of a targeted radiation therapy system. The company is developing a biologically-guided radiation therapy system to be used for treating solid tumors throughout the body.	46.00	KCK Group
Quartet Health	14-Apr-16	New York, NY	Early Stage VC	Provider of a cloud based behavioral healthcare platform that allows medical and behavioral health clinicians to work collaboratively on shared treatment goals and also helps patients to access technology-enabled care.	40.00	GV
Motion Intelligence	14-Apr-16	Ithaca, NY	Angel	Manufacturer and developer of a medical screening device to enhance the understanding of sports-related concussions.	3.60	Undisclosed
Imara	14-Apr-16	Cambridge, MA	Early Stage VC	Developer of therapeutics for diseases involving blood cells. The company is focused on development of IMR-687, a disease-modifying therapeutics selected for the treatment of sickle cell disease and other hemoglobinopathies.	31.00	New Enterprise Associates, Pfizer Venture Investments, Lundbeckfond
Eligible	14-Apr-16	Brooklyn, NY	Angel	Provider of a platform that streamlines insurance eligibility checks for doctors and patients. The company offers an online platform for healthcare eligibility queries that lets doctors process queries in real-time.	25.20	Undisclosed
Benefits Science	14-Apr-16	The Woodlands, TX	Angel	Provider of an online healthcare data analytics platform. The company offers a Web-based platform that analyzes data from employee health-insurance claims and predicts health risks and thereby helps them to manage healthcare expenditures.	0.56	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Sitka Biopharma	13-Apr-16	Vancouver, Canada	Seed Round	Developer of a novel polymer platform technology for cancer treatment. The company develops a polymer compound that allows taxane drugs to adhere to the bladder wall and improves drug absorption for cancer treatments.	Undisclosed	Quark Venture
Oncorus	13-Apr-16	Cambridge, MA	Early Stage VC	Developer of a next-generation immunotherapy platform. The company develops next generation oncolytic vectors for the treatment of cancer.	4.61	MPM Capital, other undisclosed
Maize Analytics	13-Apr-16	Nashville, TN	Angel	Provider of machine learning software to monitor and protect patient data. The company provides an auditing system that allows privacy officers to identify inappropriate accesses to EMR data. The platform uses machine learning to identify why access occurs, and then filters away appropriate accesses, leaving a much smaller subset for manual review.	Undisclosed	Jim Sohr
Keystone Mobile Partner	13-Apr-16	Willow Grove, PA	Angel	Provider of shock wave lithotripsy services. The company operates mobile units which provides a range of urological care services for patients.	0.04	Undisclosed
CareDox	13-Apr-16	New York, NY	Seed Round	Provider of online health records of children to parents. The company contacts and collects children health records from doctors and displays data.	4.30	TEXO Ventures, Prolog Ventures
Qu Biologics	12-Apr-16	Vancouver, Canada	Angel	Developer of a site specific immunotherapy. The company develops site specific immunomodulators that stimulate activated innate immune cell recruitment to the targeted organ or tissue to restore immune function and treat a range of chronic diseases, including cancer and inflammatory bowel disease.	3.02	Undisclosed
BioFluidica	12-Apr-16	Chapel Hill, NC	Angel	Owner and operator of a biotechnology company developing a diagnostic platform that helps in disease management and diagnosis through prognosis from blood samples using liquid biopsies for cancer detection.	1.08	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
NurseGrid	11-Apr-16	Portland, OR	Early Stage VC	Developer of a mobile application for nurse scheduling in hospitals. The company offers a suite of scheduling and staffing software that allows nurses to communicate and share schedules with their colleagues in real-time.	2.50	Undisclosed
MediQuire	11-Apr-16	New York, NY	Early Stage VC	Operator of a data analytics platform for primary care clinics. The company offers a software which enables customers to identify clinical, operational and financial improvement opportunities and delivers actionable alerts to clinicians in their daily workflow.	Undisclosed	FCA Ventures Partners
Lumiata	11-Apr-16	San Mateo, CA	Early Stage VC	Provider of real-time medical science predictive analytics. The company allows hospital networks, health insurance companies and risk bearing entities to be able to continuously predict the health, risk and cost of individuals and populations in real time and at scale. It combines big data and data science with physician and medical science to deliver hyper-personalized, actionable analytics.	10.00	Undisclosed
KERANOVA	11-Apr-16	Saint-Étienne, France	Early Stage VC	Designer and developer of instruments for ophthalmic surgery. The company develops a surgical instrument to reduce the manual intervention and provide automation in surgical procedures.	4.44	Mérieux Développement, CEA Investissement
InnerSpace Neuro Solutions	11-Apr-16	Tustin, CA	Angel	Developer of an intracranial pressure monitoring technology system. The company provides simultaneous ICP monitoring and CSF drainage while eliminating leveling of a fluid-based system.	2.00	Undisclosed
AbSci	11-Apr-16	Portland, OR	Early Stage VC	Developer of proprietary engineered Escherichia coli (E. coli) expression system for production of soluble recombinant monoclonal antibodies and therapeutic proteins. The company has developed a proprietary genetically engineered E. coli-based expression system which bypasses inclusion body formation in the production process of proteins.	5.10	Phoenix Venture Partners
Thrive Agrobiotics	8-Apr-16	San Francisco, CA	Angel	Provider of research and development services for nutritive proteins and gut cell therapy.	6.67	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
MedDay Pharmaceuticals	8-Apr-16	Paris, France	Early Stage VC	Developer of novel drugs targeting brain metabolism for the treatment of nervous system disorders.	37.78	Edmond de Rothschild Investment Partners
Sweetch	7-Apr-16	Jerusalem, Israel	Early Stage VC	Developer of a mobile application to monitor blood glucose levels. The company offers a platform for clinical outcome prediction and wellness prevention intervention for diabetes patients.	3.50	OurCrowd, Philips
HealthVerity	7-Apr-16	Philadelphia, PA	Early Stage VC	Provider of healthcare data and patient informatics. The company offers a patient engagement platform by providing healthcare data for research and strategy applications to healthcare stakeholders.	7.19	Flare Capital Partners, Greycroft Partners
Fresh Medical Laboratories	7-Apr-16	Salt Lake City, UT	Angel	Owner and operator of a medical device company developing non-invasive diagnostics. The company develops medical devices for the purpose of lung cancer which helps to extend lives through the early risk stratification of lung cancer.	0.52	Undisclosed
Applied BioCode	7-Apr-16	Santa Fe Springs, CA	Angel	Developer of multiplex detection systems. The company provides Barcoded Magnetic Beads, a digital multiplexing molecular platform that delivers multiplex analysis for molecular and protein testing needs.	9.26	Undisclosed
Thermosome	6-Apr-16	Planegg/Martinsried, Germany	Early Stage VC	Developer of novel cancer drugs leveraging its unique platform of thermosensitive nanocarriers to treat locally advanced solid tumors with targeted chemotherapy. It also using a novel liposome technology based on synthetic phospholipids that provides liposomes with prolonged circulation half-life and ultra-fast release properties.	5.11	Bayern Kapital, High-Tech Gründerfonds, other undisclosed
MedPilot	6-Apr-16	New York, NY	Seed Round	Provider of a healthcare software tool for patient billing and collections. The company's software uses data science and behavioral targeting to recommend patient engagement methods, personalize communications and resolve outstanding balances.	0.75	Blueprint Health, Hudson River Capital Partners, Tom Hirschfield
