

IPOs

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Kadmon Corporation (KDMN)	27-Jul-16	New York, NY	Developer of biopharmaceutical products for the treatment and management of hepatitis C.	75.00	JMP Securities
Patheon	21-Jul-16	Durham, NC	Provider of pharmaceutical development and manufacturing services from early development through late development to commercial manufacturing, including life cycle management services.	625.00	Morgan Stanley, Jefferies, UBS Investment Bank, Credit Suisse, Evercore ISI, Wells Fargo Securities
Audentes Therapeutics (BOLD)	20-Jul-16	San Francisco, CA	Operator of a biotechnology company focused on gene therapy treatments for serious rare diseases. The company develops new treatments through the application of adeno-associated virus (AAV) gene-therapy technology.	75.00	BofA Merrill Lynch, Cowen & Company, Piper Jaffray
GenSight Biologics	13-Jul-16	Paris, France	Developer of ophthalmic therapeutic devices for retinal degeneration. The company develops a gene replacement therapy for lebers hereditary optic neuropathy and an optogenetic therapy for retinitis pigmentosa.	44.96	Canaccord Genuity, Evercore Group, Leerink Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
VytronUS	29-Jul-16	Sunnyvale, CA	Later Stage VC	Manufacturer of a device that uses both imaging capabilities and ultrasound energy to treat cardiac arrhythmia.	49.00	Apple Tree Partners, New Enterprise Associates, BioStar Ventures
Timeless Herbal Care	29-Jul-16	Kingston, Jamaica	Angel	Producer of medical marijuana, herbal beverages, spa therapy rubs and vaporizers.	0.63	Undisclosed
nVision Medical	28-Jul-16	Mountain View, CA	Later Stage VC	Developer of a medical device to detect ovarian cancer and tube blockage. Its focus is on advancing the diagnosis and treatment of female infertility caused by fallopian tube dysfunction by leveraging and adapting state of the art technologies from other medical disciplines.	12.00	Arboretum Ventures
Modulated Imaging	28-Jul-16	Irvine, CA	Seed Round	Developer of light-based methods for medical diagnostics. The company engages in focusing on wound care screening and techniques for non-invasive diagnostic and therapy monitoring applications.	0.50	The Cove Fund
ECG for Everybody	28-Jul-16	Novi Sad, Serbia	Accelerator/Incubator	Developer of mobile devices, software for ECG sensing and a telemedical platform for monitoring and recording of health parameters.	0.02	Startupbootcamp
Avails Medical	28-Jul-16	Menlo Park, CA	Early Stage VC	Developer and provider of non-invasive therapeutic drug monitoring devices to determine optimum drug dosage in epileptic patients.	0.55	The Explore Group, other undisclosed
Phosphorus	27-Jul-16	New York, NY	Early Stage VC	Developer of data-driven software that delivers clinical tests to decode the genetic causes of infertility. The company is building a genomic data network that will allow providers, researchers and patients to understand and harness the power of the human genome that causes infertility.	10.00	FirstMark Capital
Flower Orthopedics	27-Jul-16	Horsham, PA	Later Stage VC	Developer of medical devices and implants for orthopedic surgery. The company develops sterile procedure-based medical tools for orthopedic surgeries and bone-fixation.	2.35	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Biodesix	27-Jul-16	Boulder, CO	Later Stage VC	Developer of blood-based tests. The company provides VeriStrat, a pretreatment serum testing tool that helps oncologists select treatments between erlotinib and single-agent chemotherapy for advanced lung cancer patients.	6.11	Accelerate Diagnostics, Crabtree Ventures, Leerink Partners
Big Health	27-Jul-16	London, United Kingdom	Early Stage VC	Provider of an online personalized digital medicine-care platform. Their flagship product, Sleepio, utilizes a digital sleep improvement program to help individuals overcome sleep related disorders.	12.00	Octopus Ventures
Aushon BioSystems	27-Jul-16	Billerica, MA	Later Stage VC	Developer of microarray technologies for life science research, drug discovery, development and clinical diagnostics. The company develops an imaging and analysis system that provides sensitivity and range for protein biomarker analysis.	3.65	Undisclosed
AgeneBio	27-Jul-16	Baltimore, MD	Later Stage VC	Developer of novel therapeutics for the treatment of Alzheimer's disease, dementia and other memory disorders.	0.50	Undisclosed
3Derm Systems	27-Jul-16	Boston, MA	Early Stage VC	Developer of a skin imaging device allowing patients to take two and three dimensional images of concerning lesions at home before being digitally reviewed by a dermatologist.	1.66	Boston Harbor Angels, other undisclosed
PowerVision	26-Jul-16	Belmont, CA	Later Stage VC	Developer of implantable intraocular lenses. The company develops accommodating intraocular lens which is designed to restore the vision of youth, middle aged or elderly individuals affected by presbyopia and cataracts.	45.06	Aisling Capital, Correlation Venture Partners, Frazier Healthcare Ventures, Johnson & Johnson Development Corp, Advanced Technology Ventures, Lexington Capital, Medtronic, Gold Hill Capital, Venrock
Omniox	26-Jul-16	San Carlos, CA	Angel	Developer of a bio-therapeutics platform. The company develops new medicines for hypoxic diseases such as cancer, cardiovascular diseases, trauma and other conditions.	4.71	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Olive Devices	26-Jul-16	Philadelphia, PA	Early Stage VC	Developer of assistive medical products for the hearing impaired community. The company creates assistive devices and smart glasses to improve communication and personalize education for deaf and hard of hearing persons.	0.05	BioAdvance
Nomad	26-Jul-16	New York, NY	Early Stage VC	Provider of an online platform that connects doctors with freelance clinical work. The company provides a cloud-based job marketplace for healthcare staffing that enables doctors, clinicians and medical institutions that hire them to find each other and transact directly without a broker.	4.00	First Round Capital, RRE Ventures
IntelliRod Spine	26-Jul-16	Akron, OH	Later Stage VC	Developer of a diagnostic system for spine surgeons. The company is developing an implantable microelectronic spine fusion sensor, known as the IntelliRod system, which enables the surgeons to assess the success of spinal fusion procedures without exploratory surgery.	1.00	Queen City Angels, JumpStart
Genome Profiling	26-Jul-16	Newark, DE	Early Stage VC	Provider of a platform for methylation profiling. The company's platform enables users to transform standard next-generation deoxyribonucleic acid (DNA) sequencing data into an actionable information to make precision medicine a reality for patients afflicted with life-threatening diseases.	0.10	BioAdvance
CellMax Life	26-Jul-16	Sunnyvale, CA	Early Stage VC	Provider of cancer diagnostic services. The company provides comprehensive, personalized multi-biomarker technology platforms for genetic cancer risk assessment, early detection and personalized treatment of cancer. Their flagship product, CellMax CRC-Protect, is a multi-biomarker blood test for early detection of colorectal cancer.	9.00	Artiman Ventures
Bainbridge Health	26-Jul-16	Philadelphia, PA	Early Stage VC	The company provides hospitals and health systems with a clinical intelligence and data analytics platform which allows clinicians to monitor patient safety and medication errors.	0.05	BioAdvance
Vtesse	25-Jul-16	Gaithersburg, MD	Early Stage VC	Developer of drugs for rare diseases. It has developed VTS-270 for rare disease Niemann-Pick Disease Type C (NPC) which is in pre-clinical trials.	42.00	New Enterprise Associates

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Tricida	25-Jul-16	South San Francisco, CA	Later Stage VC	Operator of a bio-pharmaceutical company. The company focuses on discovery and development of first-in-class chronic therapies for patients with chronic kidney disease.	55.00	Longitude Capital
Torax Medical	25-Jul-16	Shoreview, MN	Later Stage VC	Developer of medical devices for the treatment of diseases related to defective sphincter muscles. The company provides a technology platform designed to restore the human sphincter function and to treat gastroesophageal reflux disease and fecal incontinence.	25.00	Undisclosed
Svelte Medical Systems	25-Jul-16	New Providence, NJ	Later Stage VC	Developer of balloon expandable stents. The company designs and develops non-thrombogenic and non-inflammatory drug eluting stents for the treatment of atherosclerosis.	54.40	Clark Enterprises
Sansoro Health	25-Jul-16	Minneapolis, MN	Seed Round	Provider of an application for electronic medical record interoperability. The company's application offers assistance such as monitoring and security management of medical records.	1.20	Healthy Ventures
Just Biotherapeutics	25-Jul-16	Seattle, WA	Early Stage VC	Designer of new technologies for bio-therapeutic development. The company develops integrated design frameworks, impacting speed, cost of developing and manufacturing biologics.	14.00	The Bill & Melinda Gates Foundation
Swan Valley Medical	22-Jul-16	Bigfork, MT	Later Stage VC	Manufacturer of disposable surgical instruments and accessories that are used for the treatment of suprapubic bladder catheterization.	0.03	Undisclosed
Roxwood Medical	22-Jul-16	Redwood City, CA	Later Stage VC	Developer of novel front-line catheters to help patients with severe coronary and peripheral arterial disease. Its unique MultiCross and CenterCross platforms utilize patented Nitinol scaffolds to provide ultimate guidewire support for the interventional cardiologist.	6.46	Undisclosed
HealthLynked	22-Jul-16	Naples, FL	Angel	Provider of a personal electronic medical records system. The company's platform allows patients to archive their medical records in coordination with their physician.	3.92	Undisclosed
GoForward	22-Jul-16	San Francisco, CA	Angel	Developer of a sensor based technology.	30.00	Eric Schmidt, Marc Benioff, Aaron Levie
Entvantage Diagnostics	22-Jul-16	Austin, TX	Angel	Developer of diagnostic test kits. The company provides physicians with timely information on the cause of ear, nose and throat illnesses with in-office diagnostic tests.	1.45	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Apama Medical	22-Jul-16	Campbell, CA	Later Stage VC	Developer of medical devices focused on the treatment of atrial fibrillation. The company develops a catheter ablation approach designed to increase procedural efficiency and safety, addressing obstacles to widespread adoption of atrial ablation therapy.	9.03	Undisclosed
Seremedi	21-Jul-16	Houston, TX	Seed Round	Provider of a patient engagement platform which allows healthcare providers to prescribe guided treatment plans through mobile devices.	1.70	Undisclosed
Saykara	21-Jul-16	Seattle, WA	Seed Round	Developer of a healthcare technology platform used as a personal assistant for physicians.	2.53	Madrona Venture Group
N-of-One	21-Jul-16	Lexington, MA	Later Stage VC	Provider of clinical interpretation of molecular tests in oncology. The company provides clinical analysis, curation and interpretation of a tumor's molecular profile to diagnostic companies, individual physicians and patients.	7.00	Providence Ventures, Excel Venture Management
InflaRx	21-Jul-16	Jena, Germany	Later Stage VC	Developer of therapeutics in the field of acute and chronic inflammation. The company focuses on the general area of inflammation including indications such as SIRS and SEPSIS by applying therapeutics in order to prevent organ dysfunction or limit progression into organ failure.	34.85	Staidson Hongkong Investment
FlexDex	21-Jul-16	Brighton, MI	Angel	Provider and developer of minimally invasive surgical devices and technologies that enhance dexterity and reduce surgeon-training time and cost.	1.50	Undisclosed
ESO Solutions	21-Jul-16	Austin, TX	PE Growth/Expansion	Provider of medical record management services. The company offers electronic patient care reporting software and billing services to EMS and fire organizations that enable emergency medical responders to capture patient data during emergency visits.	17.66	Accel-KKR
Direct Flow Medical	21-Jul-16	Santa Rosa, CA	Later Stage VC	Manufacturer of medical transcatheter aortic valve systems.	27.10	SV Life Sciences
Creo Wellness	21-Jul-16	Henrico, VA	Angel	Operator of a platform that uses blood testing and precision analytics to offer personalized coaching and employee plans to minimize employee healthcare costs.	2.25	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Consensus Orthopedics	21-Jul-16	El Dorado Hills, CA	PE Growth/Expansion	Manufacturer of joint orthopedic implant devices. The company manufactures knee systems, hip systems, knee cups and other joint implants and instruments.	1.00	Undisclosed
Clinipace Worldwide	21-Jul-16	Morrisville, NC	PE Growth/Expansion	Provider of technology-based clinical research services for clinical trials, registries, grants management and investigator initiated studies. The company, through its web-based software platform, provides research services such as project management, monitoring, site management, data management, supply management and biostatistics.	3.73	Undisclosed
AristaMD	21-Jul-16	La Jolla, CA	Early Stage VC	Operator of a referral management system with tools for facilitating specialty referrals to meet the needs of primary and specialty care physicians.	11.00	Avalon Ventures
Topical Remedy	20-Jul-16	Lake Oswego, OR	Angel	Provider of a clinical trial treatment for an undisclosed skin disease. The company enables specific patented treatment protocol for a specific disease.	0.50	Undisclosed
Synthorx	20-Jul-16	La Jolla, CA	Early Stage VC	Developer of therapeutics, diagnostics and vaccines using synthetic biology. The company develops proteins, RNA and DNA for medical applications using synthetic nucleotide that can be maintained and replicated by a single-cell organism.	10.00	RA Capital Management
Synapsin Pharmaceuticals	20-Jul-16	Columbia, SC	Angel	Developer of therapeutic drugs to treat neuro-degenerative disorders such as Alzheimer's disease, Parkinson's disease and spinal cord injury.	0.38	Undisclosed
Rivanna Medical	20-Jul-16	Charlottesville, VA	Early Stage VC	Developer of a medical imaging device based on medical ultrasound. The company has developed Accuro, an imaging product for spinal anesthesia guidance and diagnostic imaging of the cardiac and abdominal anatomies.	0.37	Undisclosed
Paratus Diagnostics	20-Jul-16	Austin, TX	Early Stage VC	Provider of a portfolio of point of care diagnostic devices and services that will help in patient testing for infectious diseases.	2.80	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
MedAware	20-Jul-16	Ra'anana, Israel	Accelerator/ Incubator	Provider of a technology for eliminating prescription errors. The company's technology uses big data analytics and machine learning algorithms to analyze electronic medical records and flag potentially flawed prescriptions.	1.30	DreamIt Ventures
Docent Health	20-Jul-16	Boston, MA	Early Stage VC	Developer of software and mobile applications for patient record monitoring. The company's platform combines analytics with workflow automation to allow health systems to personalize experience journeys that integrate digital and human interactions while gathering data and measuring results to identify the most impactful events.	17.10	Bessemer Venture Partners
BodySpec	20-Jul-16	Los Angeles, CA	Angel	Developer of DXA scan technology to test body fat. The company provides full body composition analysis, body fat percentage, muscle mass, bone density and resting metabolic rate using its DXA scan technology.	0.60	Undisclosed
Akili Interactive Labs	20-Jul-16	Boston, MA	Early Stage VC	Developer of mobile video games for cognitive therapy and treatment. The company's product helps improve conditions like depression or attention deficit disorder.	42.40	PureTech Ventures
Virta Health	19-Jul-16	San Francisco, CA	Early Stage VC	Developer of clinical therapies for the treatment of chronic diseases. The company combines advanced biochemistry and clinical expertise with data science and digital tools in order to develop therapies to restore metabolic health for patients dealing with a range of chronic diseases.	28.78	Undisclosed
Vensica Medical	19-Jul-16	Tel Aviv, Israel	Angel	Developer of an ultrasound-assisted drug-delivery catheter.	0.50	Undisclosed
TeraBAT	19-Jul-16	Niwot, CO	PE Growth/ Expansion	Developer of a disruptive detection platform based on terawaves technology. The company provides a platform that specializes in disease detection, disease diagnosis, breath analysis, exhaled breath biomolecule identification and patient care.	1.05	Undisclosed
Reflexion Medical	19-Jul-16	Hayward, CA	Early Stage VC	Developer of a biologically-guided radiation therapy system to be used for treating solid tumors throughout the body.	52.00	KCK Group

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Precision Ocular	19-Jul-16	London, United Kingdom	Early Stage VC	Developer of a drug-based treatment for retinal diseases, including age-related macular degeneration, diabetic macular edema, retinal vein occlusion, uveitis and cystoid macular edema.	22.08	Imperial Innovations Group
Oncorus	19-Jul-16	Cambridge, MA	Early Stage VC	Developer of a next-generation immunotherapy platform for the treatment of cancer. The company develops next generation oncolytic vectors for the treatment of several tumor types including highly malignant and aggressive cancers such as glioblastoma multiforme.	57.00	MPM Capital
InfoBionic	19-Jul-16	Lowell, MA	Early Stage VC	Developer of the MoMe System, a patient-monitoring platform that includes a cloud-based architecture for analysis, a patient device and a physician-user interface for remote management. Its initial product will be focused on detecting cardiac arrhythmias.	8.20	Safeguard Scientifics
Immatrix Therapeutics	19-Jul-16	Rapid City, SD	Angel	Developer of medical products to modulate and sequester molecules from blood. The company develops medical products that seek to remove inflammatory mediators and toxins from the patient's blood in order to alter the therapeutic outcomes of treatments.	4.09	Undisclosed
HealthCall	19-Jul-16	Crown Point, IN	Later Stage VC	Provider of automated patient response systems for use in disease management. The company's cloud based system enables the communication of information between healthcare professionals and patients by providing scheduling, decision support, authentication, access encryption, standardized documentation, audit trails and transaction management tools.	0.10	Undisclosed
Fulcrum	19-Jul-16	Cambridge, MA	Early Stage VC	Developer of small molecules that modulate the on/off control mechanisms of genes. The company develops medicines to deliver a new future to patients and their families by transforming gene regulation in disease and unlocking gene control mechanisms.	55.00	Third Rock Ventures
ForSight Vision6	19-Jul-16	Menlo Park, CA	Early Stage VC	Developer of ophthalmic products to improve the sight, care and life of visually impaired patients. The company offers products for the treatment of glaucoma for adult irreversible blindness.	3.50	Undisclosed
Eyenuk	19-Jul-16	Woodland Hills, CA	Angel	Developer of computer vision, retinal image analysis and machine learning technologies for medical and consumer domains.	1.50	Undisclosed

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Coriell Life Sciences	19-Jul-16	Camden, NJ	Early Stage VC	Provider of a healthcare management system for patients and physicians. The company offers storage of genomic data, expert interpretation and an interchange framework that delivers clinically-relevant genomic interpretation at the point-of-care.	0.61	Undisclosed
BioSculpture Technology	19-Jul-16	West Palm Beach, FL	Angel	Manufacturer of minimally invasive medical devices and methods for endoscopic visceral lipectomy as a new treatment of obesity, metabolic syndrome and Type 2 diabetes mellitus.	0.28	Undisclosed
Altor BioScience	19-Jul-16	Miramar, FL	Later Stage VC	Developer of immunotherapeutic products for the treatment of cancer, viral infections and autoimmune diseases.	20.00	Undisclosed
PamBio	18-Jul-16	Nazareth Illit, Israel	Angel	Developer of a drug therapy for acute bleeding conditions.	7.00	Undisclosed
Milo (BAC Monitor)	18-Jul-16	Santa Barbara, CA	Angel	Developer of a wearable alcohol sensor. The company monitors blood alcohol levels through perspiration which can be paired and tracked through a smartphone.	0.20	Undisclosed
Micro C	18-Jul-16	Savannah, GA	Seed Round	Developer of a fluoroscopic instrument. The company develops an agile instrument that incorporates an x-ray and digital camera for use in surgical and non-surgical procedures.	0.26	Undisclosed
Magnetic Insight	18-Jul-16	Alameda, CA	Seed Round	Developer of a molecular imaging technology. The company develops a functional imaging modality where real time biological events can be monitored versus anatomical imaging.	3.00	Sand Hill Angels
Laxmi Therapeutic Devices	18-Jul-16	Goleta, CA	Seed Round	Operator of a medical device company.	1.50	Undisclosed
Kailos Genetics	18-Jul-16	Huntsville, AL	Angel	Provider of custom enrichment services to the DNA and drug research market, including reference lab services, reagents and licensing via an LIS system, and a service for patients to order pharmacogenetic or hereditary cancer tests with physician authorization.	Undisclosed	Undisclosed
Invenra	18-Jul-16	Madison, WI	Early Stage VC	Developer of a platform to screen peptides and proteins to discover and develop new biologic drugs in areas like cancer, Alzheimer's disease and diabetes.	5.01	Wisconsin Investment Partners, other undisclosed
Diamedica (DMA)	18-Jul-16	Minneapolis, MN	PIPE	Developer of drugs to treat diabetes and related diseases.	4.00	Hermed Capital

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Cambridge Medical Robotics	18-Jul-16	Cambridge, United Kingdom	Early Stage VC	Developer of a robotic system for minimal access surgery.	20.30	ABB Technology Ventures, LGT Group, Cambridge Innovation Capital
WellBrain	15-Jul-16	Pleasant Hill, CA	Accelerator/ Incubator	Provider of evidence-based treatment to patients with chronic pain, depression, anxiety, substance abuse, and other mental health disorders.	0.35	Launchpad Digital Health
seqWell	15-Jul-16	Beverly, MA	Angel	Provider of DNA sequencing services. The company performs all preparation, sequencing and data processing on site, along with customized bioinformatics support.	1.29	Undisclosed
Sequentia	15-Jul-16	Cleveland, OH	Angel	Developer of an online platform that enables patients and families, hospitals and physician groups and extended care providers to connect and search for each other.	1.25	Undisclosed
Medsphere Systems	15-Jul-16	Carlsbad, CA	Later Stage VC	Provider of an open-source electronic health-record system designed to encourage clinician adoption, facilitate workflow automation and foster interoperability.	15.30	Undisclosed
LifeDojo	15-Jul-16	San Francisco, CA	Early Stage VC	Developer of an online wellness platform for employees. The company develops behavior change training applications for stress reduction, healthy eating, exercise, brain science, and happiness for professionals in businesses, schools, non-profit organizations, and health institutions.	0.88	Swanhill Capital, Launchpad Digital Health, Telluride Venture Fund
Lab Sensor Solutions	15-Jul-16	Redwood City, CA	Accelerator/ Incubator	Developer of a mobile sensor platform that provides real-time location tracking and temperature monitoring of lab samples and pharmaceuticals. It also develops Internet of Things Sensors for the healthcare industry.	Undisclosed	Launchpad Digital Health
Hint Health	15-Jul-16	San Francisco, CA	Accelerator/ Incubator	Developer of a membership management and billing platform for direct care, direct primary care and concierge medicine providers.	Undisclosed	StartX, Launchpad Digital Health

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Endonovo Therapeutics (ENDV)	15-Jul-16	Woodland Hills, CA	PIPE	Developer of bioelectronic devices and therapies for regenerative medicine. The company develops therapies to treat acute and chronic diseases and offers non-invasive bioelectronics to stimulate the body's natural repair system to treat injuries and inflammatory diseases.	10.00	Bellridge Capital
Azalea Health	15-Jul-16	Atlanta, GA	Later Stage VC	Provider of cloud-based healthcare technologies and services. The company provides an electronic health records system for medical practices, including scheduling, charting, e-prescribing, billing, laboratory ordering and reporting.	10.50	Kayne Anderson Capital Advisors
MindImmune Therapeutics	14-Jul-16	Rhode Island	Seed Round	Developer of drugs to treat diseases of the central nervous system, including Huntington disease, Alzheimer's, pain and psychiatric disorders.	0.50	Slater Technology Fund
microDimensions	14-Jul-16	Munich, Germany	Early Stage VC	Provider of software and services for digital pathology applications. The company's software provides image analysis, 3D histology reconstruction, protein multiplexing, stereology and image registration for e-assessment of histological specimens. It provides analysis, registration, reconstruction and visualization services of microscopic and digital pathology data.	Undisclosed	Adriaan Hart de Ruijter, High-Tech Gründerfonds, Bayern Kapital
Joylux	14-Jul-16	Seattle, WA	Seed Round	Developer of medical devices and therapeutic systems. The company specializes in developing a medical instrument called VSCULPT for rejuvenation of the vaginal tissue and pelvic floor toning.	3.78	Undisclosed
Immunome	14-Jul-16	Philadelphia, PA	Later Stage VC	Developer of novel immunotherapies and cancer therapeutics products produced by an immunotherapy discovery engine. Its proprietary RealMAB technology enables the simultaneous discovery of novel antigens and the cognate native human antibodies that target those antigens.	5.06	Undisclosed
Genomind	14-Jul-16	King of Prussia, PA	Later Stage VC	Developer of neuropsychiatric disease biomarker tests such as the Genecept Assay, a genetic test designed to help clinicians optimize treatment decisions for their patients with mental illness.	20.95	Capital Alignment Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Endotronix	14-Jul-16	Woodridge, IL	Later Stage VC	Provider of cardiac monitoring services. The company develops wireless sensors to monitor the condition of patients with congestive heart failure.	32.00	SV Life Sciences
Titan Spine	13-Jul-16	Mequon, WI	PE Growth/Expansion	Designer and manufacturer of spinal inter-body fusion implants.	Undisclosed	Southlake Cequity Group
TesoRx	13-Jul-16	Pomona, CA	Later Stage VC	Provider of unmodified oral testosterone for androgen deficiency. The company develops a proprietary delivery system for testosterone that is intended to deliver the hormone at normal physiological levels.	0.70	Undisclosed
Second Genome	13-Jul-16	South San Francisco, CA	Later Stage VC	Provider of microbial profiling services for life science researchers to identify and understand microbial signatures of human diseases.	51.00	Pfizer Venture Investments, Roche Venture Fund
Miramar Labs	13-Jul-16	Santa Clara, CA	Later Stage VC	Manufacturer of electromechanical devices for cosmetic surgeries.	9.38	Aisling Capital, other undisclosed
Magnolia Medical Technologies	13-Jul-16	Seattle, WA	Later Stage VC	Provider of methods to reduce blood culture sample contamination. The company develops a self-contained system focused on improving patient safety, reducing expenses and increasing hospital bed availability by decreasing false positive blood cultures.	13.80	HealthQuest Capital
Deciphera Pharmaceuticals	13-Jul-16	Waltham, MA	Later Stage VC	Developer of kinase-inhibiting drugs for the treatment of cancers and immunological diseases. The company develops therapeutic agents against leukemia, invasive cancers, melanoma, gastrointestinal stromal tumors, bone metastases and autoimmune diseases.	90.60	New Leaf Venture Partners
CarePredict	13-Jul-16	Plantation, FL	Early Stage VC	Manufacturer of a wrist-worn sensor with an embedded software that tracks normal daily activities of senior citizens to detect their health conditions.	1.31	Westlake Ventures, Las Olas Venture Capital, other undisclosed
Caremerge	13-Jul-16	Chicago, IL	Later Stage VC	Developer of mobile and Web applications to improve communications and care coordination in the senior healthcare industry.	14.00	Insight Venture Partners

Private Equity Placements and Venture Capital Rounds

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Augmenix	13-Jul-16	Waltham, MA	Later Stage VC	Developer of hydrogel-based medical devices for radiation oncology and cancer surgery. The company develops implantable bio-material based devices for radiotherapy safety. Its product is an injectable tissue spacer that decreases rectal morbidity in prostate radiotherapy.	6.00	Undisclosed
Adient Medical	13-Jul-16	Pearland, TX	Accelerator/ Incubator	Developer of implantable and absorbable medical devices.	1.47	Undisclosed
Stocosil	12-Jul-16	Industry, CA	Angel	Developer of anti-hypertension drugs. The company specializes in developing personalized dosing for anti-hypertension.	2.03	Undisclosed
Sienna	12-Jul-16	Westlake Village, CA	Early Stage VC	Developer of medical dermatology products. The company is focused on the discovery, clinical development and commercialization of products in aesthetics and dermatology based on scientific breakthroughs that improve patient outcomes and physicians' practice of medicine.	46.00	ARCH Venture Partners, Partner Fund Management
Sapience Therapeutics	12-Jul-16	Scarsdale, NY	Early Stage VC	Developer of novel therapeutics for major unmet medical needs, particularly high mortality cancers. The company's initial goal is to develop a first-in-class treatment for glioblastoma multiforme, the most severe and deadly form of brain cancer, as well as other oncology indications.	22.50	Eshelman Ventures
Prodontis	12-Jul-16	Limoges, France	Angel	Developer of a dental device for cleaning teeth. The company designs and develops medical dental devices that treat patients with periodontitis.	Undisclosed	Femmes Business Angels
Lyndra	12-Jul-16	Cambridge, MA	Early Stage VC	Developer of an extended drug release technology that extends oral drug delivery beyond one week and improves adherence, pharmacokinetic profiles, benefits convenient patient experience, decreases antibiotic resistance potential and reduces healthcare costs.	5.93	Undisclosed
