

**IPOs**

The following table includes the medical devices, biotechnology, pharmaceuticals, and healthcare IPO pricings, filings and withdrawals announced over the previous month.

Company Name	Last Financing Date	HQ Location	Description	Last Financing Size (Millions)	Lead Manager
Protagonist Therapeutics (PTGX)	11-Aug-2016	Milpitas, CA	Developer of peptide and peptidomimetic therapeutics. The company develops oral drugs that offer a targeted therapy treatment paradigm in gastrointestinal diseases.	90.00	Barclays Capital, BMO Capital Markets, Leerink Partners
Gemphire Therapeutics (GEMP)	05-Aug-2016	Northville, MI	Developer of novel drugs for the treatment of dyslipidemia. The company treats the unmet need of patients with high cardiovascular and pancreatitis risk who are unable to reach optimal LDL cholesterol or triglyceride levels with current therapies - initially targeting orphan indications for fast to market regulatory strategy.	30.00	Cowen and Company, Jefferies, RBC Capital Markets

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Cernostics	31-Aug-16	Pittsburgh, PA	Later Stage VC	Developer of technologies for cancer diagnosis. The company utilizes a proprietary technology platform for deep interrogation of tissue biopsies, quantitatively evaluating molecular and cellular changes that precede structural changes within tissues.	1.30	Undisclosed
Zillion Group	30-Aug-16	Norwalk, CT	Later Stage VC	Operator of a health technology platform. The company provides weight loss and related disease prevention programs online.	28.14	TwinFocus Capital Partners
SHYFT Analytics	30-Aug-16	Waltham, MA	Later Stage VC	Provider of cloud-based data, analytics and mobile services for the global life sciences industry. The company offers analytical insights in order to provide new ways to commercialize drugs and measure patient outcomes.	12.50	McKesson Ventures, Medidata Solutions
Renovion	30-Aug-16	Chapel Hill, NC	Angel	Developer of a therapy for patients that have received a bilateral lung transplant and suffer from chronic inflammatory airway diseases.	0.47	Undisclosed
Relievan Medsystems	30-Aug-16	Redwood City, CA	Later Stage VC	Developer of percutaneous radiofrequency procedure for the treatment of axial low back pain. The company develops an invasive technology that uses radiofrequency energy delivered through a small access tube into the vertebral body to ablate basivertebral nerve.	22.16	Undisclosed
Bio2 Medical	30-Aug-16	San Antonio, TX	Later Stage VC	Developer of a catheter-based inferior vena cava filter for the prevention of pulmonary embolism in critical care patients.	20.00	Oxford Finance, other undisclosed
CBT Pharmaceuticals	29-Aug-16	Santa Clara, CA	Early Stage VC	Developer and provider of oncology therapeutics targeting the growth and proliferation of cancer cells.	9.75	OrbiMed Advisors
Branchpoint Technologies	29-Aug-16	Irvine, CA	Early Stage VC	The company focuses on improving neurological treatment through access to intracranial pressure measurements using platforms employing precision semiconductor gauges.	1.50	Undisclosed
Arcus Biosciences	29-Aug-16	Hayward, CA	Early Stage VC	The company is building a portfolio of immune-focused cancer therapies that target one or more therapeutic nodes and discover drugs that block tumors' ability to hijack the immune system.	70.00	GV
Mitra Biotech	28-Aug-16	Woburn, MA	Later Stage VC	The company focuses on personalized cancer care and rational drug development and enables physicians to make an informed treatment decision for a cancer patient by determining an optimal drug combination.	27.40	Sequoia India, Sands Capital Ventures

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
WinProbe	26-Aug-16	Palm Beach Gardens, FL	Angel	Designer and manufacturer of medical diagnostic ultrasound systems for clinical applications and research.	0.32	Undisclosed
VytronUS	26-Aug-16	Sunnyvale, CA	Later Stage VC	Manufacturer of a device used to treat cardiac arrhythmia using both imaging capabilities and ultrasound energy.	59.00	Apple Tree
Swift Health Systems	26-Aug-16	Riverside, CA	Angel	Developer of a orthodontic device combining the effectiveness of conventional braces, the aesthetics of lingual braces and the comfort and ease of invisalign all in a single appliance.	5.60	Undisclosed
Pinteon Therapeutics	26-Aug-16	Concord, MA	Early Stage VC	Developer of cancer therapeutics targeting a cis-trans isomerase. The company is focused on the discovery and development of therapeutics targeting Pin1 and related targets. Pin1 acts as a central regulator in cancer development and growth as well as a number of other disease areas, including CNS and autoimmune disease.	3.94	Morningside Technology Ventures
Nexgenia	26-Aug-16	Seattle, WA	Early Stage VC	Developer of polymer-based nanotechnology for diagnostics and life science applications. The company develops and validates nanoparticles and co-aggregates them for cell separation for use in cancer immunotherapies and other medical applications.	2.00	W Fund
Inscopix	26-Aug-16	Palo Alto, CA	Early Stage VC	Provider of cellular imaging technologies. The company caters to the healthcare industry and offers miniature fluorescence microscopes to understand the brain and its diseases.	10.00	Playground Global
Thorasys	25-Aug-16	Montreal, Canada	Angel	Provider and developer of pulmonary function test equipment for the diagnosis and monitoring of lung diseases, such as asthma and chronic obstructive pulmonary disease, using the forced oscillation technique.	1.30	Anges Québec
Sanoculis	25-Aug-16	Ono, Israel	Early Stage VC	Developer and provider of a minimally invasive micro sclerostomy technique for the treatment of glaucoma.	Undisclosed	Undisclosed
Mint Solutions	25-Aug-16	Amsterdam, Netherlands	Later Stage VC	Developer of a technology for medication and patient safety in hospitals and other healthcare institutions. The company's primary product helps nurses verify and document all medication for patients to ensure that patients receive the right medication in the proper dose and time.	5.62	BOM Capital, Life Sciences Partners, Seventure Partners

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Harborside Health Center	25-Aug-16	Oakland, CA	Angel	Provider of medical cannabis dispensary services.	Undisclosed	Anthos Ventures
Gobiquity	25-Aug-16	Scottsdale, AZ	Later Stage VC	Provider of a mobile application for the early detection and tracking of eye diseases. It enables users to perform tests at home or in primary care settings using mobile computing platforms.	6.00	InterWest Partners
Four Eyes Insight	25-Aug-16	London, United Kingdom	PE Growth/Expansion	Provider of clinical consulting services. The company helps healthcare providers with medical workforce plans, business opportunity development plans, market modeling and workflow management techniques.	Undisclosed	Livingbridge
DoseMe	25-Aug-16	Brisbane, Australia	Angel	Provider of a prevision dosing software that allows clinicians to dose a specific amount of a drug based upon that patient's individual ability to absorb, process and clear it.	2.60	Greg Spurgin, Gary Cunningham
Safe N' Simple	24-Aug-16	Clarkston, MI	Angel	Developer and marketer of medical product accessories for the ostomy care market, such as alcohol free adhesive removers, silver alginate dressings kits and ostomy deodorant.	1.40	Undisclosed
Rivanna Medical	24-Aug-16	Charlottesville, VA	Early Stage VC	Developer of a medical imaging device based on medical ultrasound. The company has developed Accuro, an imaging product for spinal anesthesia guidance and diagnostic imaging of the cardiac and abdominal anatomies.	3.00	Undisclosed
MBio Diagnostics	24-Aug-16	Boulder, CO	Later Stage VC	The company provides testing systems that enable diagnosis of multiple diseases and develops analyzers and disposable cartridges for clinical and analytical testing applications.	0.56	Undisclosed
Eyenovia	24-Aug-16	Tampa, FL	Early Stage VC	Provider of an ophthalmic microdrops technology. The company offers eye-care formulations for glaucoma, allergic eye disease, dry eye and other eye diseases.	4.04	Undisclosed
Elemeno Health	24-Aug-16	Alameda, CA	Accelerator/Incubator	Provider of a healthcare information platform that engages frontline healthcare staff in generating, learning and adhering to healthcare and medical practices.	0.12	Y Combinator

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
ClearCare	24-Aug-16	San Francisco, CA	Later Stage VC	Provider of a Web and mobile platform for administration of home-care agencies. The company provides a front-end and back-end system for the management of home-care agencies, including scheduling, integrated telephony, two-way caregiver messaging and marketing.	60.00	Battery Ventures
ArunA	24-Aug-16	Athens, GA	Later Stage VC	Provider of a cell-based bio-sensor platform for the treatment of neural diseases. The company develops stem cell research products and services to support scientists engaged in drug discovery and development.	1.16	Undisclosed
Theraworx	23-Aug-16	Asheville, NC	Later Stage VC	Provider of therapeutic skin care products. The company manufactures products that include specialty care packs for peri-care prior to foley catheter insertion and on-going foley maintenance.	21.21	Undisclosed
Recombinetics	23-Aug-16	St. Paul, MN	Later Stage VC	Developer of gene editing technologies. The company manipulates the DNA sample to add and activate genes to solve problems in biomedical research, livestock productivity and animal-derived biomaterials for use in medical applications.	6.29	Undisclosed
PatientBank	23-Aug-16	New Haven, CT	Accelerator/ Incubator	Developer of an online medical platform. The company's software allows users and patients to share medical records with hospitals, doctors and family members for the purpose of health checkups.	0.12	Y Combinator
MOM Incubators	23-Aug-16	London, United Kingdom	Seed Round	Manufacturer of an electronically controlled, inflatable incubator for babies. The company offers portable inflatable incubators to decrease the number of premature child deaths in developing countries.	0.90	MaSa Partners
InDemand Interpreting	23-Aug-16	Wenatchee, WA	PE Growth/Expansion	Provider of video remote interpreting for limited English proficient and deaf patients through WiFi, mobile broadband or LAN channels that can be delivered to the patient bedside. It provides the translations with its staff of certified interpreters.	5.85	Undisclosed
HIL Applied Medical	23-Aug-16	Jerusalem, Israel	Later Stage VC	Developer of a new class of ultra-compact cancer proton therapy systems using a patented approach, combining nanotechnology with high-intensity lasers and ultra-fast magnets.	Undisclosed	Ion Beam Applications, OurCrowd

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Health2Sync	23-Aug-16	Taipei, Taiwan	Early Stage VC	Provider of a comprehensive health management platform. The company develops systems that transform smartphones into legacy medical devices and smart health monitoring machines, enabling patients to connect with family, friends and health providers who want to care for them.	3.00	WI Harper Group
Clear Guide Medical	23-Aug-16	Baltimore, MD	Later Stage VC	Provider of ultrasound-guided medical devices and disposables. The company's approach to interventional image guidance reduces the footprint, simplifies the workflow and reduces the cost of ultrasound-guided interventions.	1.18	Undisclosed
Affinity Biosensors	23-Aug-16	Santa Barbara, CA	Angel	Developer of particle metrology systems. The company develops analytical instruments for use in research, manufacturing and life sciences based on the company's Resonant Mass Measurement device.	7.08	Undisclosed
Vyome	22-Aug-16	Delhi, India	Later Stage VC	Developer of novel drugs for antibiotics-resistant acne, pathogens and antifungal agents in dermatology through a unique pipeline of antibiotics that retard resistance development.	14.00	Perceptive Advisors, Romulus Capital
Singlera Genomics	22-Aug-16	La Jolla, CA	Early Stage VC	Provider of a non-invasive genetic testing for tumor diagnosis. It also provides a non-invasive prenatal diagnosis, pre-implantation genetic screening and other genetic disease diagnosis.	20.00	Lilly Asia Ventures
Klara Technologies	22-Aug-16	New York, NY	Early Stage VC	Provider of a HIPAA-compliant medical messaging platform that allows practices to centralize medical communication.	3.04	Project A Ventures
Amylyx Pharmaceuticals	22-Aug-16	Cambridge, MA	Early Stage VC	Developer of therapeutics for Amyotrophic Lateral Sclerosis (ALS) and other neurodegenerative diseases. The company is developing disease-modifying therapeutics for neuro-degenerative diseases that target the neuro-inflammation and nerve cell death that characterize these disorders.	5.00	Morningside Ventures

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Allied-Bristol Life Sciences	22-Aug-16	Boston, MA	PE Growth/Expansion	The company works with university partners to develop novel therapeutic treatments. It provides access to a fully integrated drug discovery center, financial backing and project management. Its therapeutic areas of interest include cardiovascular diseases, fibrosis, genetically defined diseases, immunology and oncology.	15.00	Allied Minds, Bristol Myers Squibb, Woodford Investment Management, Invesco
Vesselon	19-Aug-16	Norwalk, CT	Angel	Developer of a medical device that works as an automated external defibrillator during a stroke.	0.33	Undisclosed
Element Science	19-Aug-16	San Francisco, CA	Early Stage VC	Developer of wearable medical devices for sudden cardiac death treatment and other life-saving therapies.	25.00	Undisclosed
Aridis Pharmaceuticals	19-Aug-16	San Jose, CA	Angel	Developer of drugs to treat infectious diseases and pneumonia.	15.22	Undisclosed
Nutrinia	18-Aug-16	Ramat-Gan, Israel	Later Stage VC	Developer of a proprietary oral formulation of insulin for the treatment of intestinal failure and gastrointestinal diseases in infants.	30.00	TPG Biotech
HemoSonics	18-Aug-16	Charlottesville, VA	Angel	Developer of a point-of-care diagnostic platform. The company's platform offers actionable information to guide the management of critical bleeding and clotting.	7.63	Undisclosed
Avelas Biosciences	18-Aug-16	La Jolla, CA	Later Stage VC	Developer of fluorescent technologies for cancer surgery. The company's technology allows real time diagnosis of metastatic nodes using proprietary platform technology of activatable cell-penetrating peptides.	20.00	Pharmstandard
Webbhälsa	17-Aug-16	Stockholm, Sweden	Seed Round	Provider of digital medical care services. The company operates a medical center and employs medical professionals to provide consultations.	6.86	Index Ventures, Creandum
Wasatch Microfluidics	17-Aug-16	Salt Lake City, UT	Later Stage VC	Provider of a label free biomolecular interaction analysis platform. The company develops and commercializes novel microarray deposition technologies that enables multiplexing on planar array surfaces and offers the Continuous Flow Microspotter, which includes an array printing instrument and a microfluidic print head.	10.30	Undisclosed
VUV Analytics	17-Aug-16	Cedar Park, TX	Later Stage VC	Developer of vacuum ultraviolet spectroscopy instruments for use in various industries, including pharmaceuticals.	6.50	New Science Ventures

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Strong Arm Technologies	17-Aug-16	Brooklyn, NY	Early Stage VC	Manufacturer of a lift assist device for nurses and caregivers who perform patient lift assistance.	4.20	3M, Newark Venture Partners
Standard Bariatrics	17-Aug-16	Cincinnati, OH	Seed Round	Manufacturer of surgical devices and instruments for weight loss procedures. The company has developed a reusable device to help surgeons standardize sleeve gastrectomy.	Undisclosed	Queen City Angels
INRange Systems	17-Aug-16	Altoona, PA	Later Stage VC	Developer of remote medication management systems. The company offers EMMA, a telehealth medical device for documented and professional medication administration to outpatients.	1.43	Undisclosed
Enable Injections	17-Aug-16	Cincinnati, OH	Later Stage VC	Developer, designer and seller of disposable body-worn devices that allows patients self-administration of viscosity drugs in development for the treatment of cancer, autoimmune diseases, genetic and rare diseases.	5.25	CincyTech USA, Cincinnati Children's Hospital Medical Center, other undisclosed
Concentric Analgesics	17-Aug-16	San Francisco, CA	Angel	Developer of therapeutics for the management of postoperative pain. The company focuses on developing novel small molecules that provide pain relief after a single administration during surgery.	5.98	Undisclosed
Tioma Therapeutics	16-Aug-16	Brisbane, CA	Later Stage VC	Developer of therapeutic antibodies. The company is developing a portfolio of anti-CD47ies for the treatment of cancer and pulmonary hypertension, the prevention of certain complications of solid organ transplantation and other important medical applications.	86.00	RiverVest Venture Partners, Novo Ventures, Roche Venture Fund, SR One
ProteoMediX	16-Aug-16	Schlieren, Switzerland	Later Stage VC	Developer of diagnostic biomarkers in order to early detect and define the stage of the cancer. The company engages in the delivery of prognostic tools for the discrimination of aggressive and indolent cancers. It enables personalized medicine by developing stratification biomarkers to match patients with therapies that are more likely to be safe and effective.	5.16	Altos Venture

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Progenity	16-Aug-16	San Diego, CA	Early Stage VC	Provider of genetic carrier screening and prenatal diagnostic services. The company provides molecular testing services for cystic fibrosis, spinal muscular atrophy, fragile X syndrome and genetic carrier screening.	12.00	Undisclosed
Millipede	16-Aug-16	Santa Rosa, CA	Early Stage VC	Developer of a percutaneous device used for mitral valve repairs in the heart.	6.21	Undisclosed
Confluent Medical Technologies	16-Aug-16	Fremont, CA	PE Growth/Expansion	Manufacturer of Nitinol-based components, balloon components and balloon catheters.	55.74	Undisclosed
Brain Shake	16-Aug-16	Finland	Early Stage VC	Provider of a blood testing device which can be used to detect metabolic biomarkers for chronic diseases.	3.93	Nordea Fonder, Finnvera, Cor Group
Live Better With	15-Aug-16	London, United Kingdom	Seed Round	Provider of an online platform for healthcare products. The company operates a marketplace for healthcare, home aid and wellness products and technologies for patients with long-term conditions.	2.00	Find Invest Grow
Brethe	15-Aug-16	Baltimore, MD	Seed Round	Developer of wearable artificial lungs that help in respiratory conditions and fitness management.	2.17	Undisclosed
Bloom Technologies	15-Aug-16	San Francisco, CA	Seed Round	Developer of a wearable device for expectant mothers to track contractions. The company's device acts as a personalized pregnancy coach that measures frequency, duration and intensity of contractions.	4.00	Marc Benioff, Efficient Capacity
Aseptium	15-Aug-16	Essex, United Kingdom	Angel	Provider of infection control technologies for decontamination of surgical instruments. The company develops equipment, processes and systems for cleaning, disinfection and sterilization of surgical instruments and other medical equipment.	0.81	Seedrs
Metabolon	12-Aug-16	Durham, NC	Later Stage VC	Developer of metabolics-based diagnostic testing and research services. The company is the developer of a biochemical biomarker discovery and profiling platform with a pipeline of laboratory-developed tests for obesity-related conditions and cancer.	15.00	Essex Woodlands
ILiAD Biotechnologies	12-Aug-16	New York, NY	Angel	Provider of a technology to prevent bordetella pertussis. The company is focused on the eradication of whooping cough by developing an improved pertussis vaccine.	1.50	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
CTMG	12-Aug-16	Greenville, NC	Later Stage VC	Provider of clinical trial management services for private practice physicians. The company specializes in assisting in investigative site performance across a wide range of therapeutic areas while conducting clinical trials.	2.37	Undisclosed
Zurex Pharma	11-Aug-16	Middleton, WI	Later Stage VC	Developer of anti-microbial products to reduce the risks associated with surgical site infections and catheter-related bloodstream infections.	6.24	Undisclosed
OrthoSensor	11-Aug-16	Dania Beach, FL	Later Stage VC	Developer of orthopedic implants and sensor-assisted surgery systems. The company offers a disposable sensor-assisted knee arthroplasty instrument which can detect and monitor various functions in the musculoskeletal system.	0.97	Undisclosed
Oculis Pharma	11-Aug-16	Reykjavik, Iceland	Later Stage VC	Provider of ophthalmic drugs and novel drug delivery to facilitate drug absorption to both anterior and posterior parts of the eye for treatment of diabetic macular edema.	Undisclosed	Undisclosed
JenaValve Technology	11-Aug-16	Munich, Germany	Later Stage VC	Manufacturer of second generation transcatheter aortic valve implantation systems for transapical and transfemoral implantation.	10.00	Undisclosed
Biosceptre International	11-Aug-16	Cambridge, United Kingdom	Angel	Developer of antibody technologies to address applications in the diagnosis and treatment of cancer.	1.66	Undisclosed
Atomo Diagnostics	11-Aug-16	Sydney, Australia	Later Stage VC	Manufacturer of medical devices used for early detection and ongoing treatment of infectious and chronic diseases.	3.33	Global Health Investment Fund, Allan Moss, other undisclosed
WiserCare	10-Aug-16	Los Angeles, CA	Early Stage VC	Provider of a healthcare decision making platform. The company provides personalized reports that include evidence-based treatment options, medical records, personal values, preferences regarding patients' treatment options and details to patients about the success rates of each treatment and its associated side effects.	2.66	Vidinovo, other undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Moderna	10-Aug-16	Cambridge, MA	Later Stage VC	Developer of messenger RNA therapies. The company is developing an in vivo drug modality platform that produces human proteins or antibodies inside patient cells, which are in turn secreted or active intracellularly. The platform is designed to address currently undruggable targets and to offer an alternative to existing drug modalities for inherited genetic disorders, hemophilic and blood factors and oncology.	451.37	AstraZeneca, other undisclosed
Koniku	10-Aug-16	Newark, CA	Angel	Developer of an organic neurocomputation platform. The company helps to improve clinical trial success rates for new drug therapies by delivering organ-on-chip and brain-on-chip preclinical testing services.	1.40	Undisclosed
EngagePatient	10-Aug-16	Gainesville, FL	Later Stage VC	Provider of cloud-based tools that allow patients to schedule and register for their doctor's appointment online. The company offers online patient registration, insurance verification, email, text and voice appointment reminders and electronic patient referrals. It also offers a patient portal with patient-to-provider messaging, online appointment requests and prescription refill requests.	3.67	Undisclosed
Femasys	10-Aug-16	Suwanee, GA	Later Stage VC	Developer of medical devices for cancer diagnosis, infertility and permanent contraception in women.	3.30	Undisclosed
CytoCentrics	10-Aug-16	San Antonio, TX	Later Stage VC	Developer of an automated patch clamp technology platform. The company develops technology that allows the study of single or multiple ion channels in cells, automated patch clamp systems, ion channel cell lines, patch clamp reagents and in-house patch clamp screening services.	15.82	Undisclosed
Cornovus Pharmaceuticals	10-Aug-16	Farmington, CT	Early Stage VC	Developer of methods to treat cardiac hypertrophy and heart failure. The company develops a technology that helps to delay the onset of heart failure after a heart attack or injury.	0.98	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Teckro	9-Aug-16	Limerick, Ireland	Early Stage VC	Developer of a software platform to streamline the process of clinical trials. The company partners with pharmaceutical companies and research institutions to simplify the clinical development process by using information retrieval and machine learning technologies to improve the speed and accuracy of trial conduct.	6.00	Founders Fund
Sonavex	9-Aug-16	Baltimore, MD	Early Stage VC	Developer of imaging technology to visualize and quantify critical data to detect anastomotic blood clots. The company develops patent pending primary technology that enables clinicians to measure critical intravascular flow metrics to detect post-operative clots prior to morbid and expensive surgical failures.	2.50	Grey Sky Venture Partners, other undisclosed
Iconic Therapeutics	9-Aug-16	South San Francisco, CA	Later Stage VC	Developer of immunoconjugate proteins for the treatment of retinal diseases and cancer. The company develops proprietary I-cons, proteins that trigger the immune system to target and destroy unwanted cells in the body.	48.50	Xeraya Capital, HBM Healthcare Investments, Cormorant Asset Management
EyeKor	9-Aug-16	Madison, WI	Angel	Developer of a software for managing clinical trials of therapeutics for ocular diseases. The company's software specializes in clinical trials imaging expertise, reading centers with expertise across a range of ocular testing, consultants in clinical trial design, ophthalmic data reading and interpretation, as well as site-training, certification and monitoring.	0.60	Undisclosed
C-SATS	9-Aug-16	Seattle, WA	Early Stage VC	Developer of a performance management system in the field of healthcare.	3.20	SpringRock Ventures, other undisclosed
CoNextions Medical	9-Aug-16	Sandy, UT	Angel	Producer of medical devices to improve tendon repair outcomes. The company's devices allow for faster rehabilitation, fewer complications, and lower long-term costs.	2.70	Undisclosed
CareSkore	9-Aug-16	Mountain View, CA	Seed Round	Developer of a platform that offers patient management services, cost optimization services, workflow management and automated patient outreach services.	4.30	Cota Capital, Storm Ventures, Rising Tide Fund

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
AVM Biotechnology	9-Aug-16	Seattle, WA	Later Stage VC	Developer of stem cell-enabling technologies for unmet medical needs in regenerative medicine, G-CSF induced stem cell mobilization, GvHD, germinal center lymphomas, and iPS cell lines fully human biologics, including patient-specific biologics for personalized medicine in orphan diseases.	2.84	Undisclosed
Auris Surgical Robotics	9-Aug-16	San Carlos, CA	Later Stage VC	Developer of surgical robotics and visualization technology for surgical applications that require very fine movements.	49.03	Undisclosed
Alafair Biosciences	9-Aug-16	Austin, TX	Early Stage VC	Developer of anti-adhesive bio-materials for wound healing.	2.00	ATP Fund
Accolade	9-Aug-16	Plymouth Meeting, PA	Later Stage VC	Provider of consumer healthcare information services. The company operates a healthcare engagement and influence platform for large self-insured employers and payment organizations. Its goal is to assist consumers in determining healthcare benefits and to find healthcare providers.	70.00	Andreessen Horowitz
PreViser	8-Aug-16	Mt. Vernon, WA	Later Stage VC	Provider of web enabled diagnostic and treatment planning decision support software for dental clinicians. The company's software is used by dentists, hygienists, periodontists, orthodontists and academic institutions for the care of patients with oral disease.	2.00	Undisclosed
Fe3 Medical	8-Aug-16	San Antonio, TX	Later Stage VC	Developer of a novel transdermal patch for the treatment of anemia. The company focuses on drug-delivery technologies enabling non-toxic transport of iron across the skin.	14.50	Jianmin Pharmaceuticals, HG Capital, PingAn Ventures
BioCurity	8-Aug-16	New Smyrna Beach, FL	Angel	Developer of a nanoparticle drug candidate to treat radiation-related xerostomia and dermatitis.	0.31	Undisclosed
Appistry	8-Aug-16	St. Louis, MO	Later Stage VC	Provider of bioinformatics tools for the analysis of genomics data. The company's platform provides performance computing and cloud computing architectures to help clinical labs, research institutions and hospitals to practice genomically enhanced medicine.	4.13	Undisclosed

**Private Equity Placements and Venture Capital Rounds**

The following table includes institutionally placed private equity financings for private and public medical devices, biotechnology, pharmaceuticals, and healthcare companies announced over the previous month.

Company Name	Last Financing Date	HQ Location	Round	Description	Last Financing Size (Millions)	Lead Investor(s)
Aligned TeleHealth	8-Aug-16	Agoura Hills, CA	Later Stage VC	Provider of telemedicine and healthcare management services. The company offers full, end-to-end telemedicine services, including psychiatric specialty physician consultations to acute-care hospitals, emergency rooms, skilled nursing facilities, and correctional institutions via telecommunication.	12.00	SV Life Sciences Advisers
Miramar Labs	5-Aug-16	Santa Clara, CA	Later Stage VC	Manufacturer of electromechanical devices for cosmetic surgeries.	43.15	Aisling Capital, other undisclosed
Forerun	5-Aug-16	Waltham, MA	Later Stage VC	Provider of clinical documentation services. The company develops a digital platform that offers electronic charting services for the hospital emergency department.	4.57	Undisclosed
CVRx	5-Aug-16	Minneapolis, MN	Later Stage VC	Developer of an implantable technology designed to trigger the body's natural blood-flow regulation system for the treatment of high blood pressure and heart failure.	113.00	Johnson & Johnson Innovation, Oxford Finance
Complion	5-Aug-16	Cleveland, OH	Early Stage VC	Provider of a Web application for managing regulatory documents of physician sponsored clinical trials.	1.58	Undisclosed
Baker	5-Aug-16	Denver, CO	Seed Round	Provider of an engagement platform for cannabis dispensaries and brands. The company has developed a customer engagement platform that integrates personalized messaging and online shopping.	1.60	Michael Lazerow
Alodokter	5-Aug-16	Jakarta, Indonesia	Early Stage VC	Provider of an online health portal for content related to various viruses, diseases and drugs.	2.50	Golden Gate Ventures
Woundtech	4-Aug-16	Hollywood, FL	Early Stage VC	Provider of a telehealth based platform that offers wound management technology that reduces and prevents diabetic foot ulcers.	40.00	Aldrich Capital Partners
Tricog Health	4-Aug-16	Bangalore, India	Later Stage VC	Manufacturer of a cloud-connected device for heart diagnosis. The company provides a real-time reporting of electrocardiography results which enables users to detect heart attack.	2.08	Blume Ventures Advisors, Inventus Capital Partners, other undisclosed
